**Principles** Loyola University Associates, 1951 The Metaphysics of Evolution Chad Ripperger, 2012-08 In his encyclical *Humani Generis* Pope Pius XII stressed the importance of preserving the traditional Catholic approach to philosophy In his work *The Metaphysics of Evolution* Fr Chad Ripperger demonstrates that the theory of evolution is incompatible with the metaphysics of the Catholic tradition Five Proofs for the Existence of God Edward Feser, 2017-08-18 Five Proofs of the Existence of God provides a detailed updated exposition and defense of five of the historically most important but in recent years largely neglected philosophical proofs of God's existence the Aristotelian proof the Neo Platonic proof the Augustinian proof the Thomistic proof and the Rationalist proof This book also offers a detailed treatment of each of the key divine attributes unity simplicity eternity omnipotence omniscience perfect goodness and so forth showing that they must be possessed by the God whose existence is demonstrated by the proofs Finally it answers at length all of the objections that have been leveled against these proofs This book offers as ambitious and complete a defense of traditional natural theology as is currently in print Its aim is to vindicate the view of the greatest philosophers of the past thinkers like Aristotle Plotinus

Augustine Aquinas Leibniz and many others that the existence of God can be established with certainty by way of purely rational arguments It thereby serves as a refutation both of atheism and of the fideism which gives aid and comfort to atheism

**Theistic Evolution** Mariusz Tabaczek,2023-11-02 Deeply rooted in the classical tradition this book develops a contemporary re imagined proposal of an Aristotelian Thomistic perspective on theistic evolution *The New Scholasticism* Edward Aloysius Pace,James Hugh Ryan,1968 Includes section Book Reviews [The Metaphysics of Good and Evil](#) David S. Oderberg,2019-11-22 The Metaphysics of Good and Evil is the first full length contemporary defence from the perspective of analytic philosophy of the Scholastic theory of good and evil the theory of Aristotle Augustine Aquinas and most medieval and Thomistic philosophers Goodness is analysed as obedience to nature Evil is analysed as the privation of goodness Goodness surprisingly is found in the non living world but in the living world it takes on a special character The book analyses various kinds of goodness showing how they fit into the Scholastic theory The privation theory of evil is given its most comprehensive contemporary defence including an account of truthmakers for truths of privation and an analysis of how causation by privation should be understood In the end all evil is deviance a departure from the goodness prescribed by a thing s essential nature Key Features Offers a comprehensive defence of a venerable metaphysical theory conducted using the concepts and methods of analytic philosophy Revives a much neglected approach to the question of good and evil in their most general nature Shows how Aristotelian Thomistic theory has more than historical relevance to a fundamental philosophical issue but can be applied in a way that is both defensible and yet accessible to the modern philosopher Provides what for the Scholastic philosopher is arguably the only solid metaphysical foundation for a separate treatment of the origins of morality

**New Scholasticism Meets Analytic Philosophy** Rafael Hüntelmann,Johannes Hattler,2021-08-31 Recent decades have seen a revival of interest in Aristotelian and Scholastic thought particularly among analytic philosophers Neo Aristotelians Analytic Scholastics and Analytical Thomists have made significant contributions to several fields within contemporary philosophy including metaphysics philosophy of mind and philosophy of science This volume of new essays brings together some of the leading thinkers of this movement to address such topics as materiality causation possibility privation and dispositionality The contributors are Rani Lill Anjum Edward Feser Uwe Meixner Stephen Mumford David Oderberg Edmund Runggaldier and Erwin Tegtmeier

[Change, Substance, and Cause](#) Rafael Hüntelmann,2024-03-07 Starting from our common experience of change this book introduces the fundamental features of Aristotelian Scholastic philosophy After differentiating between the various types of change and motion the author presents the concepts of act and potency as well as form and matter Further attention is given to the difference between substance and accident and essence and existence Finally an overview of causality is given based on Aristotle s doctrine of the four causes This introductory course is aimed primarily at laypeople interested in philosophy and at high school students beginning their studies of philosophy and the humanities

About the Author Rafael Hüntelmann PhD is an author publisher and lecturer in philosophy He is the co editor of

METAPHYSICA International Journal for Ontology Metaphysics His most recent publications include Grundkurs Philosophie in six volumes as well as the three volume logic course Grundkurs klassische aristotelische Logik **Natural Moral Law in Contemporary Society** Holger Zaborowski, 2010-08 Natural law is a controversial subject but one of great significance in the ongoing and increasingly important discussion about the foundations of moral reasoning The essays of this volume examine natural moral law different natural law theories and the role that natural law can and should play in our contemporary society While some essays explore systematically the metaphysical and moral foundations of natural law others focus on questions related to the application of natural law in the political medical or legal realm or discuss historical questions that are closely related to the crisis and defense of natural law All contributors agree that natural law is a concept that cannot and must not be dismissed and that is in need of a careful retrieval While there are clearly differences in emphasis among the contributors most of them also agree that the defense of natural law the critique of the modern dismissal of natural law and of a modern non teleological understanding of nature and the proper use of philosophical reasoning are all closely related The book continues the ongoing Studies in Philosophy and the History of Philosophy series ABOUT THE EDITOR Holger Zaborowski is assistant professor of philosophy at the Catholic University of America He is the author of Robert Spaemann's Philosophy of the Human Person Nature Freedom and the Critique of Modernity and Eine Frage von Irre und Schuld Martin Heidegger und der Nationalsozialismus CONTRIBUTORS Joseph Cardinal Ratzinger Benedict XVI J Budziszewski Jean De Groot Jorge L A Garcia Luke Gormally Mary M Keys V Bradley Lewis Nelson Lund David S Oderberg John Rist Francis Slade and Robert Sokolowski **Answering the Music Man** B. Kyle Keltz, Tricia Scribner, 2020-05-29 Dan Barker ex preacher and co founder of the Freedom From Religion Foundation travels widely arguing in debates and speaking on his beliefs that Christianity is false God does not exist and the Bible is filled with errors and mythology He has been touted as one of America's leading atheists Yet close examination of his arguments shows that Barker's reasons for disbelief are poorly reasoned and miss the mark as they are aimed at a mistaken caricature of Christian theism Answering the Music Man exposes Barker's misunderstandings of Christianity and provides compelling answers to Barker's arguments **Bound for Beatitude A Thomistic Study in Eschatology and Ethics** Reinhard Hütter, 2019 Bound for Beatitude is about St Thomas Aquinas's theology of beatitude and the journey thereto Consequently the work's topic is the meaning and purpose of human life embedded in that of the whole cosmos This study is not an antiquarian exercise in the thought of some sundry medieval thinker but an exercise of ressourcement in the philosophical and theological wisdom of one of the most profound theologians of the Catholic Church one whom the Church has canonized granted the title Doctor of the Church and for a long time regarded as the common doctor This exercise of ressourcement takes its methodological cues from the common doctor hence it is an integrated exercise of philosophical dogmatic and moral theology Its specific theological topic the ultimate human end perfect happiness beatitude and the journey thereto stands at

the very heart of St Thomas's theology Far from being past his theology of beatitude is of urgent pertinence as the crisis of humanity and of creation and the exile of God seems to approach its apogee By way of a presentation interpretation and defense of Thomas Aquinas's doctrine of beatitude and the journey thereto Bound for Beatitude advances an argument based on four theses 1 The loss of a theology of beatitude has greatly impoverished contemporary theology In order to succeed and flourish theology must recover a sound teleological orientation 2 In order to recover a sound teleological orientation theology must recover metaphysics as its privileged instrument 3 Thomas Aquinas provides a still pertinent model for how theology might achieve these goals in a metaphysically profound theology of beatitude and the beatific vision Finally 4 Aquinas's rich and sophisticated account of the virtues charts the journey to beatitude in a way that still has analytic force and striking relevance in the early twenty first century

*Descartes and the First Cartesians* Roger Ariew, 2014-11-06 Descartes and the First Cartesians adopts the perspective that we should not approach Ren Descartes as a solitary thinker but as a philosopher who constructs a dialogue with his contemporaries so as to engage them and elements of his society into his philosophical enterprise Roger Ariew argues that an important aspect of this engagement concerns the endeavor to establish Cartesian philosophy in the Schools that is to replace Aristotle as the authority there Descartes wrote the Principles of Philosophy as something of a rival to Scholastic textbooks initially conceiving the project as a comparison of his philosophy and that of the Scholastics Still what Descartes produced was inadequate for the task The topics of Scholastic textbooks ranged more broadly than those of Descartes they usually had quadripartite arrangements mirroring the structure of the collegiate curriculum divided as they typically were into logic ethics physics and metaphysics But Descartes produced at best only what could be called a general metaphysics and a partial physics These deficiencies in the Cartesian program and in its aspiration to replace Scholastic philosophy in the schools caused the Cartesians to rush in to fill the voids The attempt to publish a Cartesian textbook that would mirror what was taught in the schools began in the 1650s with Jacques Du Roure and culminated in the 1690s with Pierre Sylvain Regis and Antoine Le Grand Ariew's original account thus considers the reception of Descartes work and establishes the significance of his philosophical enterprise in relation to the textbooks of the first Cartesians and in contrast with late Scholastic textbooks

**Neo-Aristotelian Metaphysics and the Theology of Nature** William M.R. Simpson, Robert C. Koons, James Orr, 2021-10-10 This book explores the relationship between a scientifically updated Aristotelian philosophy of nature and a scientifically engaged theology of nature It features original contributions by some of the best scholars engaging with Aristotelianism in contemporary metaphysics philosophy of science and philosophical theology Despite the growing interest in Aristotelian approaches to contemporary philosophy of science few metaphysicians have engaged directly with the question of how a neo Aristotelian metaphysics of nature might change the landscape for theological discussion concerning theology and naturalism the place of human beings within nature or the problem of divine causality The chapters in this volume are collected into three thematic sections Naturalism and Nature

Mind and Nature and God and Nature By pushing the current boundaries of neo Aristotelian metaphysics to recover the traditional notion of substantial forms in physics reframe the principle of proportionality in biology and restore the hierarchy of being familiar to ancient philosophy this book advances a metaphysically unified framework that accommodates both scientific and theological knowledge enriching the interaction between science philosophy and theology Neo Aristotelian Metaphysics and the Theology of Nature will be of interest to scholars and advanced students working in metaphysics philosophy of science natural theology philosophical theology and analytic theology Chapters 1 2 and 7 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**Market Complicity and Christian Ethics** Albino Barrera, 2011-01-06 The marketplace is a remarkable social institution that has greatly extended our reach so shoppers in the West can now buy fresh cut flowers vegetables and tropical fruits grown halfway across the globe even in the depths of winter However these expanded choices have also come with considerable moral responsibilities as our economic decisions can have far reaching effects by either ennobling or debasing human lives In this book Albino Barrera examines our own moral responsibilities for the distant harms of our market transactions from a Christian viewpoint identifying how the market's division of labour makes us unwitting collaborators in others wrongdoing and in collective ills His important account covers a range of different subjects including law economics philosophy and theology in order to identify the injurious ripple effects of our market activities

**Critical Guide to Catholic Reference Books** James Patrick McCabe, 1980 New edition of a 1980 reference cited in Sheehy The 1500 annotated entries are grouped into five chapters general reference works theology humanities social sciences and history The books listed include those dealing with topics peculiar to the church such as liturgy and theological disciplines and those dealing with the social sciences literature the arts and similar subjects to which Catholics have traditionally contributed a unique perspective Catholic authorship alone is not enough to justify the inclusion of a reference work the contents or point of view must relate in some way to Catholicism Periodicals are only included if they are of a bibliographic nature or if they publish annual bibliographies Annotation copyrighted by Book News Inc Portland OR

**Metaphysics from a Biological Point of View** S. Boulter, 2013-10-16 Many philosophers in the analytic tradition are now convinced that metaphysical questions are worth pursuing but we still lack a convincing meta metaphysics and methodology This essay offers an account of how we should conduct our business qua metaphysicians
