

Intervention in Summary Proceedings

The word "and," whether it is used to connect words, phrases or full sentences, must be accepted as binding together and as relating to one another. [Commissioner of Internal Revenue vs Anete, G.R. No. 164153, January 21, 2010]

Under the rules on syntax, the conjunctive word "and" denotes a "joinder or union" of words, phrases, or clause; it is different from the disjunctive word "or" that signals disassociation or independence. However, a more important rule of statutory construction dictates that laws should be construed in a manner that avoids absurdity or unreasonableness.

Global Positioning System B. Hofmann-Wellenhof, H. Lichtenegger, J. Collins, 2012-12-06 This new edition adds the most recent advances in GPS technology although the overall structure essentially conforms to the former editions The textbook explains in a comprehensive manner the concepts of GPS as well as the latest applications in surveying and navigation Description of project planning observation and data processing is provided for novice GPS users Special emphasis is placed on the modernization of GPS covering the new signal structure and improvements in the space and control segment Furthermore the augmentation of GPS by satellite based and ground based systems leading to future Global Navigation Satellite Systems GNSS is discussed

GNSS - Global Navigation Satellite Systems Bernhard Hofmann-Wellenhof, Herbert Lichtenegger, Elmar Wasle, 2007-11-20 GNSS GPS GLONASS Galileo and more is the extension of the scientific bestseller GPS Theory and Practice to Global Navigation Satellite Systems GNSS and includes the Russian GLONASS the European system Galileo and additional systems The book refers to GNSS in the generic sense to describe the various existing reference systems for coordinates and time the satellite orbits the satellite signals observables mathematical models for positioning data processing and data transformation With respect to the individual systems GPS GLONASS Galileo and more primarily the specific reference systems services the space and the control segment as well as satellite signals are described Furthermore augmentations by space and ground based systems are discussed This book is a university level introductory textbook and is intended to serve as a reference for students as well as for professionals and scientists in the fields of geodesy surveying engineering navigation and related disciplines

Bird Strike Reza Hedayati, Mojtaba Sadighi, 2015-09-06 Bird strikes are one of the most dangerous threats to civil and military flight safety between 1960 and 2014 they were responsible for the destruction of approximately 150 civil aircraft and the deaths of 271 people Bird Strike presents a summary of the damage imposed on the aviation industries by their avian counterparts This book first presents and analyzes the statistics obtained from bird strike databases and offers various methods for minimizing the overall probability of bird strike events The next chapters explore how to analyze the ability of aero engine critical structures to withstand bird strike events by implementing reliable experimental theoretical and numerical methods

Finally the book investigates the impact of bird strikes on different components of aircrafts such as the metal fuselage composite fuselage engines wings and tail and proposes two new bird models with explanations of their use Provides up to date information for aviation staff and researchers working on aircraft safety Offers comprehensive investigations on all the statistical theoretical experimental and numerical aspects of bird strike Includes studies carried out on bird strike and provides the reader with the important findings of each paper

The World Bank Forest Strategy ,2000-01-01 This report assesses progress since the World Bank first issued its comprehensive Forest Strategy in 1991 It finds that the effectiveness of the strategy has been modest and the sustainability of its impact is uncertain The Report identifies seven factors that would make the World Bank forest strategy more pertinent to current circumstances as well as strengthening its ability to achieve its strategic objectives in the forest sector It recommends that the World Bank use its global reach to address mechanisms for mobilisation of concessional international resources outside its normal lending activities It also advises the World Bank to be proactive in establishing partnerships with all relevant stakeholders governments the private sector and civil society to meet both its country and global roles The focus on primary tropical moist forests should be broadened to include all types of natural forests of national and global value The report suggests that illegal logging needs to be reduced through the promotion of improved governance and enforcement Other recommendations are to give consideration to forest issues in all relevant sector activity and macroeconomic work address the employment needs of all poor people while continuing to protect the rights of indigenous people and to realign the World Bank resources with their objectives in the forest sector

Official Records ,1997 **Report - University of Illinois Board of Trustees**

University of Illinois (System). Board of Trustees,1928 Global Positioning System Bernhard Hofmann-Wellenhof,Herbert Lichtenegger,James Collins,2012-12-06 This book is dedicated to Dr Benjamin William Remondi for many reasons The project of writing a Global Positioning System GPS book was conceived in April 1988 at a GPS meeting in Darmstadt Germany Dr Remondi discussed with me the need for an additional GPS textbook and suggested a possible joint effort In 1989 I was willing to commit myself to such a project Unfortunately the timing was less than ideal for Dr Remondi Therefore I decided to start the project with other coauthors Dr Remondi agreed and indicated his willingness to be a reviewer I selected Dr Herbert Lichtenegger my colleague from the Technical University Graz Austria and Dr James Collins from Rockville Maryland U S A In my opinion the knowledge of the three authors should cover the wide spectrum of GPS Dr Lichtenegger is a geodesist with broad experience in both theory and practice He has specialized his research to geodetic astronomy including orbital theory and geodynamical phenomena Since 1986 Dr Lichtenegger's main interest is dedicated to GPS Dr Collins retired from the U S National Geodetic Survey in 1980 where he was the Deputy Director For the past ten years he has been deeply involved in using GPS technology with an emphasis on surveying Dr Collins was the founder and president of Geo Hydro Inc My own background is theoretically oriented My first chief Prof Dr Peter Meissl was an excellent theoretician and

contributions to the field of international economic law this volume reflects on the current state and the future of international economic law The book addresses a broad spectrum of themes in contemporary international economic regulations and focuses specifically on the significant areas of Professor Matsushita s scholarship including the rise of the soft law mechanism in international economic regulation the role of the WTO and dispute settlement and specific areas such as competition subsidies anti dumping intellectual property and natural resources Part one of the volume provides a comprehensive and critical analysis of the rule based international dispute settlement mechanisms Part two investigates the normative influences to and from WTO law and Part three focuses on policy and law making issues Comprehensive Nuclear Materials Todd R Allen,Roger E Stoller,Shinsuke Yamanaka,2011-05-12 Comprehensive Nuclear Materials Five Volume Set discusses the major classes of materials suitable for usage in nuclear fission fusion reactors and high power accelerators and for diverse functions in fuels cladding moderator and control materials structural functional and waste materials The work addresses the full panorama of contemporary international research in nuclear materials from Actinides to Zirconium alloys from the worlds leading scientists and engineers Critically reviews the major classes and functions of materials supporting the selection assessment validation and engineering of materials in extreme nuclear environment Fully integrated with F elements net a proprietary database containing useful cross referenced property data on the lanthanides and actinides Details contemporary developments in numerical simulation modelling experimentation and computational analysis for effective implementation in labs and plants Publications of the Geological Survey Geological Survey (U.S.),1997 **An Overview of Landing Gear Dynamics** Jocelyn I. Pritchard,1999 On of the problems facing the aircraft community is landing gear dynamics especially shimmy and brake induced vibration Shimmy and brake induced vibrations can lead to accidents due to excessive wear and shortened life of gear parts and contribute to pilot and passenger discomfort To increase understanding of these problems a literature survey was performed The major focus is on work from the last ten years Some older publications are included to understand the longevity of the problem and the background from earlier researchers The literature survey includes analyses testing modeling and simulation of aircraft landing gear and experimental validation and characterization of shimmy and brake induced vibration of aircraft landing gear The paper presents an overview of the problem background information and a history of landing gear dynamics problems and solutions Based on the survey an assessment and recommendations of the most critically needed enhancements to the state of the art will be presented The status of Langley work contributing to this activity will be given **Introduction to Modern Information Retrieval** Gobinda G. Chowdhury,2010 An information retrieval IR system is designed to analyse process and store sources of information and retrieve those that match a particular user s requirements A bewildering range of techniques is now available to the information professional attempting to successfully retrieve information It is recognized that today s information professionals need to concentrate their efforts on learning the techniques of computerized IR

However it is this book's contention that it also benefits them to learn the theory techniques and tools that constitute the traditional approaches to the organization and processing of information. In fact much of this knowledge may still be applicable in the storage and retrieval of electronic information in digital library environments. The fully revised third edition of this highly regarded textbook has been thoroughly updated to incorporate major changes in this rapidly expanding field since the second edition in 2004 and a complete new chapter on citation indexing has been added. Unique in its scope the book covers the whole spectrum of information storage and retrieval including users of IR and IR options database technology bibliographic formats cataloguing and metadata subject analysis and representation automatic indexing and file organization vocabulary control abstracts and indexing searching and retrieval user centred models of IR and user interfaces evaluation of IR systems and evaluation experiments online and CD ROM IR multimedia IR hypertext and mark up languages web IR intelligent IR natural language processing and its applications in IR citation analysis and IR IR in digital libraries and trends in IR research. Illustrated with many examples and comprehensively referenced for an international audience this is an indispensable textbook for students of library and information studies. It is also an invaluable aid for information practitioners wishing to brush up on their skills and keep up to date with the latest techniques.
