Grissom,2009 Introduced in the United States as a new material for statuary in the mid nineteenth century zinc has properties that allowed replication at low cost It was used to produce modestly priced serial sculpture displayed throughout the nation on fountains public monuments and war memorials Imitative finishes created the illusion of more costly bronze stone or polychrome wood This first comprehensive overview of American zinc sculpture is interdisciplinary engaging aspects of art history popular culture local history technology and art conservation Included is a generously illustrated catalogue presenting more than eight hundred statues organized by type trade figures and Indians gods and goddesses fountain figures animals famous men military figures firemen cemetery memorials and religious subjects The compilation of data on these statues will be valuable to scholars filling the current void in research libraries The author s experience as a conservator will also make the an essential resource for historic preservationists seeking to repair statues now damaged by years of outdoor exposure This book has 555 illustrations 354 of which are in color Carol Grissom is Senior Objects Conservator at the Smithsonian s Museum Conservation Institute **Iglou Among Palms** Rod Moore,1994 Stories set on the California Mexico border a region of human drama and cultural contretemps The protagonists include workers going north to better themselves and gringos moving south in search of variety *Pieter Bruegel the Elder* Pieter Bruegel,2001 Pieter Bruegel the Elder 1525 30 1569 was a remarkable draftsman and designer of

prints as well as a great painter His independent drawings and designs for engravings and etchings which were carried out by the leading printmakers of his day have fascinated scholars and the general public alike since they were created They have recently been the subject of research that has given rise to a reevaluation of the parameters of Bruegel s oeuvre The new scholarship has been brought to bear in the texts of the present volume which accompanies a major exhibition of 140 of Bruegel s prints and drawings to be shown at the Museum Boijmans Van Beuningen Rotterdam from May to August 2001 and at The Metropolitan Museum of Art New York from September to December 2001 An international group of experts discusses the new Bruegel who has emerged from recent studies in essays on the artist s life his contributions as a draftsman and as a printmaker the survival of his art and his relationship to the humanism of his day They also illuminate his genius in entries on all the works in the exhibition Every work is illustrated and rich comparative illustrations are included Provenances an

ONCE UPON A COMMUNE ABILENE GRAY,2009-12-16 The wife of a powerful Boston attorney and mother of two daughters convinces her husband to purchase a summer getaway home in the Vermont countryside As her marriage unravels and she becomes embroiled in a difficult custody battle her summer home evolves into a commune and her life changes in ways she never imagined *California Riparian Systems* Richard E. Warner,Kathleen M. Hendrix,2023-11-15 In California s semi arid environment the narrow lush strips of riparian habitats that border watercourses springs and seeps are critical ecosystems supporting a remarkable abundance of plant and animal life These rich environments once thrived across the state from the Central Valley to the deserts of the Great Basin providing essential habitats for wildlife and acting as vibrant corridors in otherwise dry landscapes However over time the expansion of agriculture and development has drastically altered these ecosystems Today less than 10 percent of the original riparian vegetation remains with much of it degraded through logging grazing and water diversion This volume explores the unique ecological importance of California s riparian systems discussing the delicate balance between productive land use and the conservation of these critical habitats *California Riparian Systems* brings together the latest research and insights from experts in ecology conservation and land management to provide a comprehensive look at the challenges facing these fragile ecosystems The book highlights the essential role riparian systems play in supporting diverse wildlife from the Yellow billed Cuckoo and Bell s Vireo which nest exclusively in riparian thickets to aquatic mammals reptiles amphibians and fish that depend on the shelter and food provided by streamside vegetation With growing public awareness and appreciation of the beauty and value of these areas this volume serves as both a call to action and a guide for sustainable management offering strategies to preserve and protect California s riparian systems while balancing agricultural and economic needs This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984 **Arctic**
