The Politics of Cultural Pluralism Crawford Young, 1979

The Rwenzururu Movement in Uganda Martin

Doornbos, 2017-10-24 This book provides a comprehensive account and analysis of the Rwenzururu movement in Western Uganda. The movement began in the 1960s in the Rwenzori region of Toro District and was a protest by the minority Bakonzo and Baamba ethnic groups against their continued discrimination and incorporation in the Batoro dominated kingdom district. In the course of the years this movement experienced various significant transformations and in the end came to demand recognition of Rwenzururu's claimed semi traditional kingship within Uganda. Martin Doornbos illuminates how the Rwenzururu came to life. He documents and analyses the transformations that the movement has undergone and shows how the Ugandan government responded to and eventually accepted the movement while igniting continuing enmity and violence in the process.

The End of Empire in Uganda Spencer Mawby, 2020-05-14 The negative legacy of the British empire is often thought of in terms of war and economic exploitation while the positive contribution is associated with the establishment of good governance and effective modern institutions. In this new analysis of the end of empire in Uganda, Spencer Mawby challenges these preconceptions by explaining the many difficulties which arose when the British attempted to impose western institutional models on Ugandan society. Ranging from international institutions including the Commonwealth to state organisations like the parliament and army and to civic institutions such as trade unions, the press and the Anglican church, Mawby uncovers a wealth of new material about the way in which the British sought to consolidate their influence in the years prior to independence. The book also investigates how Ugandans responded to institutional reform and innovation both before and after independence and in doing so sheds new light on the emergence of the notorious military dictatorship of Idi Amin. By unpicking historical orthodoxies about 20th century imperial history, this institutional history of the end of empire and the early years of independence offers an opportunity to think afresh about the nature of the colonial impact on Africa and the development of authoritarian rule on the continent.

The Kingdom of Toro in Uganda

Kenneth Ingham, 2023-10-27 First published in 1975, *The Kingdom of Toro in Uganda* describes the foundation of the Toro kingdom in the nineteenth century by the rebel prince Kaboyo and investigates how Kasagama Kaboyo's grandson was able to recreate with little local support a kingdom far more extensive than Kaboyo had ever envisaged. His personal authority was established by his insistence that its roots were traditional, thus satisfying the requirements of indirect rule at a time when this ill defined concept served both as the shibboleth and the escape clause for an overstretched British colonial administration. Although Kasagama's son Rukidi was able to combine authority with personal popularity and to take advantage of colonial innovations without losing control of his kingdom, the ending of colonial rule brought an end to Toro as he knew it. In an independent Uganda, the particularism stressed by Toro's rulers could not survive. This book will be of interest to students of history, colonialism, African studies and ethnic studies.
