[The Zodiac Conspiracy : Your Real Sun Sign](#) Dr. Atara,2011-11-14 The appearance of an astronomer who was discussing the 13th constellation on national TV last year

caused a huge outcry from the public The big question was How can my sun sign be different Many people concluded that the astronomer did not know what he was talking about People wanted to know how their Sun sign could be different than what they had been told all these years Actually the astronomer was very correct he was telling everyone the truth as indicated by the science of astronomy which the psychological art of astrology is based upon There are 13 constellations and has always been 13 This is why the book also features a section on Ophiuchus which is the 13th constellation and the only constellation sign named after a human being Imhotep an African Egyptian There has been a conspiracy of silence among Western astrologers to misrepresent the history of astrology and ignore the truth of astronomy Since astrologers did not adhere to the science of astronomy as dictated by the constellations they created an alternative paradigm called the Koch zodiac system which only acknowledges 12 constellations and therefore 12 signs Astrologers who live in the Eastern part of the world practice the truth of astronomy by using the Sidereal zodiac system Most people in the Western world actually believe that on January 1st their Sun sign is Capricorn However the truth is that the Sun is actually in the constellation of Sagittarius This is the truth of astronomy and the sidereal zodiac system So if you were born on January 1st of any year your Real Sun Sign is Sagittarius not Capricorn This book shows everyone who wants to continue believing in their old sign while embracing the truth of their Real Sun Sign how to blend these two systems so that who you REALLY ARE and what you are destined to learn about yourself is anchored in the truth It is a gentle reminder that you are not living your most authentic self Are you the Virgo Selfless Servant or Aquarius The Giver Read the Zodiac Conspiracy and be introduced to the truth and Your Real Sun Sign , **Llewellyn's 2024 Sun Sign Book** Llewellyn,2023-07-08 Now in its 40th year This clear and accessible almanac provides detailed horoscopes and forecasts for every Sun sign No matter your skill level the planetary wisdom within this book will help you find exciting opportunities in your future Llewellyn s 2024 Sun Sign Book reveals answers to important questions about love money family and more Learn what areas in your life have potential for great success and which require extra attention Discover which days will be rewarding and which will be challenging each month Astrologer Alice Deville also shares the best dates for events and life changes such as getting married moving retiring and more **Capricorn** Marion Williamson,Pam Carruthers,2022-09-01 What do the stars reveal about you your personality your gifts and challenges Bestselling highly regarded astrologers Marion Williamson and Pam Carruthers explain what your Sun and Moon signs say about you as well as who you get along with in relationships and at work In this guide you can find out which parts of the world resonate most with you for travel and what you should be doing to live at your highest potential With insight into what your day of birth means for your personality as well as ideas to meditate on to bring further spiritual development this is your one stop guide to all things Capricorn The astrology series of 12 books allows readers to deep dive into what their Sun sign and birthchart says about them Including sections on personality insights love compatibilities best career and travel choices moon signs as well as analysis for exact dates of birth and the meanings of other planets in a
