

SUN, WIND, OR RAIN?

BY MATT VANCE

What will the weather
be like tomorrow?
How can you tell?

Long before we had modern technology to make weather forecasts, people found ways to predict the weather.

They did this by very carefully observing nature. They discovered patterns that helped them to work out what to expect. Over time, these patterns became common knowledge and were shared by the community. Understanding what the weather was going to do was very important for farmers, sailors, and travellers.

Let's look at some of these patterns and how they helped people make weather predictions.
