Sun Dog Trail:

The Sun-Dog Trail Jack London,1951 *The Sun-dog Trail* Jack London,1926 *The Sun-Dog Trail and Others* Jack London,1951 **Writing the Northland** Barbara Stefanie Giehmman,2011 **Sun Dog's Obsession** Harold Heidler,2009-10-23 Sun Dog and his father Loud Dog find a mare she gives birth to Patch Patch fulfills Sun Dog s dream of having a horse The Spaniards attack their village which forces the Indians to move to hide Fear causes them go to the Apache to learn the art of warfare **Klondike Tales** Jack London,2010-06-23 As a young man in the summer of 1897 Jack London joined the Klondike gold rush From that seminal experience emerged these gripping inimitable wilderness tales which have endured as some of London s best and most defining work With remarkable insight and unflinching realism London describes the punishing adversity that awaited men in the brutal frozen expanses of the Yukon and the extreme tactics these adventurers and travelers adopted to survive As Van Wyck Brooks observed One felt that the stories had been somehow lived that they were not merely observed that the author was not telling tales but telling his life This edition is unique to the Modern Library featuring twenty three carefully chosen stories from London s three collected Northland volumes and his later Klondike tales It also includes two maps of the region and notes on the text **Author Under Sail** James Williams,2021-02 In Author Under Sail The Imagination of Jack London 1902 1907 Jay Williams explores Jack London s necessity to illustrate the inner workings of his vast imagination In this second installment of a three volume biography Williams captures the life of a great writer expressed though his many creative works such as The Call of the Wild and White Fang as well as his first autobiographical memoir The Road some of his most significant contributions to the socialist cause and notable uncompleted works During this time London became one of the most famous authors in America perhaps even the author with the highest earnings as he prepared to become an equally famous international writer Author Under Sail documents London s life in both a biographical and writerly fashion depicting the importance of his writing experiences as his career followed a trajectory similar to America s from 1876 to 1916 The underground forces of London s narratives were shaped by a changing capitalist society media outlets racial issues increases in women s rights and advancements in national power Williams factors in these elements while exploring London s deeply conflicted relationship with his own authorial inner life In London s work the imagination is figured as a ghost or as a ghostlike presence and the author s personas who form a dense population among his characters are portrayed as haunted or troubled in some way Along with examining the functions and works of London s exhaustive imagination Williams takes a critical look at London s ability to tell his stories to wide arrays of audiences stitching incidents together into coherent wholes so they became part of a raconteur s repertoire Author Under Sail provides a multidimensional examination of the life of a crucial American storyteller and essayist **Lights in the Sky** Michael Maunder,2007-11-07 Many lights and other objects in the sky go unrecognised or at least are little understood by those observing them Such things range from the commonplace like rainbows and meteors to the distinctly

unusual like the green flash and ball lightning And there is still a residuum of objects that remain unidentified by the watcher classed generally as UFOs a description which today has connotations of the mysterious even of extraterrestrial visitors The first part of this book is an identification guide very much like the plant identifier sections found in a good gardening or botany book It allows quick and structured identification of known aerial phenomena whether at night or during the day The objects thus found are referenced to the second part of the book The second part gives a full description physical explanation and where relevant notes on observing and photographing the various phenomena Some will need optical aids such as binoculars or telescopes but the main thrust of the book is identification and explanation rather than imaging The final chapter approaches UFOs from a scientific standpoint particularly the way in which human perception and often preconception affects the outcome It does however finish with a short section on extraterrestrial UFOs emphasising the burden of proof aspect and touching on the scientific theories of life on other worlds and the improbability of visitors **The**
