Wicks, 2002-02-28 Depictions of children have had a prominent place in Chinese art since the Song period 960 1279 Yet one would be hard pressed to find any significant discussion of children in art in the historical documents of imperial China or contemporary scholarship on Chinese art Children in Chinese Art brings to the forefront themes and motifs that have crossed social boundaries for centuries but have been overlooked in scholarly treatises In this volume experts in the fields of art religion literature and history introduce and elucidate many of the issues surrounding child imagery in China including its use for didactic reinforcement of social values as well as the amuletic function of these works The introduction provides a thought provoking overview of the history of depictions of children exploring both stylistic development and the emergence of specific themes In an insightful essay China specialists combine expertise in literature and painting to propose that the focus on children in both genres during the Song is an indication of a truly humane society Skillful use of visual and textual sources from the Ming 1368 1644 and Qing 1644 1911 period explains children's games and the meaning of depictions of boys at play Gender issues are examined in an intriguing look at mothers and children in woodblock illustrations to Ming versions of the classical text Lie ni juan Depictions of the childhood of saints and sages from murals and commemorative tablets in ancient temples are considered The volume concludes with two highly original essays on child protectors and destroyers in Chinese folk religion and family portraits and their scarcity in China before the nineteenth century Contributors Ellen B Avril Catherine Barnhart Richard Barnhart Terese Tse Bartholomew Julia K Murray Ann Waltner Ann Barrott Wicks

Cold Mountain Poems Anjiang Hu, 2023-07-28 This book unveils the legendary life and the mystic poems of the iconic

Chinese Tang poet Han shan known by his pen name Cold Mountain and investigates the dissemination and reception of the Cold Mountain Poems. CMPs attributed to him Han shan and the CMPs are amongst the most legendary literary landscapes and cultural memories in the history of world scholarly exchange. The maniac poet recluse hidden in the Cold Mountains, the delicate poetic realms of Confucianism, Buddhism, Zen, and Taoism contained in the Cold Mountain Poems, and the incredible pervasiveness of its text travel and canon construction worldwide, as well as the profound impact of CMPs on comparative literature, world literature, and Chinese studies, provide the perfect lens to learn about Chinese language, literature, culture, and society. This book is thus intended to investigate CMPs in a coherent global context. Considering the vertical studies of the Chinese literature polysystem, it highlights the horizontal influence of CMPs literarily or non literarily. Furthermore, it addresses the making and developing of the Han shan phenomenon and its implications for translation studies, travel writing, canon construction, and literary historiography. This book is for scholars, researchers, and students in literary history and East Asian Studies focusing on Chinese literature and culture and those interested in the history of poetry in general.

Ezra Pound and the Appropriation of Chinese Poetry Ming Xie, 2021-12-12. First published in 1999. The subject of this book is the translation and appropriation of Chinese poetry by some English and American writers in the early decades of this century. The author explores the concerns as much with English translation of Chinese poetry per se as with the relationship between this body of translation from the Chinese and the developing poetics and practices of what is usually referred to as Imagism, as much with the question of historical influence or ascription as with certain interpretive and critical aspects of this correlative relationship. Focusing on the direct influence of Chinese poetry upon the theory and practice of Imagism, attributing to Imagist poets in general and Ezra Pound in particular, the perception in Chinese poetry of the essential qualities and principles for rejuvenating English poetry in the early decades of the century.

Voices of East Asia Margaret Childs, Nancy Hope, 2015-03-12. *Voices of East Asia* provides significant yet accessible readings in translation chosen to stimulate interest in the long and rich cultural history of East Asia, the countries of China, Japan, and Korea. The readings range from ancient to modern, elite to popular, and include poetry, stories, essays, and drama. Each section begins with a broad but brief overview of that country's political and cultural history. Each reading is preceded by a concise explanation of its literary and cultural context. As expertise in East Asian studies has exploded in the West in recent decades, a novice could be overwhelmed by all the materials available now. In this volume, however, the reader will find a manageable set of texts that may be read on their own as part of a world literature course or as supplementary readings for an East Asian history class. As economic and political news from East Asia sweeps across the world, this anthology aims to provide a taste of the enduring traditions upon which contemporary East Asia is built, a glimpse into the hopes and fears, love and sorrow in the hearts of the people behind the headlines. This anthology will be welcomed by students and scholars of Asian history, culture, society, and literature.

A History of Western Appreciation of English-translated Tang Poetry Lan Jiang, 2018-03-08 This book examines the development of English translated Tang poetry and its propagation to the Western world It consists of two parts the first of which addresses the initial stage of English translated Tang poetry's propagation and the second exploring its further development By analyzing the historical background and characteristics of these two stages the book traces the trend back to its roots discusses some well known early sinologists and their contributions and familiarizes readers with the general course of Tang poetry's development In addition it presents the translated versions of many Tang poems The dissemination of Tang poetry to the Western world is a significant event in the history of cross cultural communication From the simple imitation of poetic techniques to the acceptance and identification of key poetic concepts the Tang poetry translators gradually constructed a classic Chinese style in modern American poetry Hence the traditional Chinese culture represented by Tang poetry spread more widely in the English speaking world producing a more lasting impact on societies and cultures outside China and demonstrating the poetry's ability to transcend the boundaries of time region nationality and culture Due to different cultural backgrounds the Tang poets or poems admired most by Western readers may not necessarily receive high acclaim in China Sometimes language barriers and cultural differences make it impossible to represent certain allusions or

cultural and ethnic concepts correctly during the translation process However in recent decades the translation of Tang poetry has evolved considerably in both quantity and quality As culture is manifested in language and language is part of culture the translation of Tang poetry has allowed Western scholars to gain an unprecedented understanding of China and Chinese culture
