Salejee,2003 *The Logic of al-Fanari* Aaron Spevack,2025-06-01 In this comprehensive study Aaron Spevack delves into the 15th century logic text by Shams al Din al Fanari d 1431 a foundational work in the Ottoman seminary tradition Rather than offering a standard annotated translation alone Spevack also provides an in depth analysis of each chapter enriched with references to multiple super commentaries and practical examples Drawing from years of study under scholars trained in the Ottoman tradition along with personal research he highlights the text s significance in the Islamic logic tradition and its philosophical depth More than just a guide to logical reasoning al Fanari s work embeds a number of philosophical and metaphysical inquiries that set the Islamic intellectual tradition apart from its modern counterparts This work offers both a practical and philosophical framework showing why a deep understanding of classical logic is vital for contemporary discourse *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library.
