The Forms of Discourse with an Introductory Chapter on Style William B. Cairns, 1896 **California. Court of Appeal (2nd Appellate District). Records and Briefs** California (State)., Received document entitled EXHIBITS TO PETITION FOR WRIT Democracy's Promise Janelle Wong, 2008-12-18 Given the massive demographic changes in the United States during the past few decades understanding the place of immigrants in the public sphere has never been more critical Democracy's Promise examines both the challenges and opportunities posed to American civic institutions by the presence of increasing numbers of immigrants Author Janelle Wong argues that the low levels of political participation among contemporary immigrants are not due to apathy or preoccupation with their homeland but to the inability of American political parties and advocacy organizations to mobilize immigrant voters Wong's rich study of Chinese and Mexican immigrants in New York and Los Angeles complements traditional studies of political behavior and civic institutions while offering a nuanced examination of immigrants' political activity Democracy's Promise will appeal to a broad spectrum of social scientists and ethnic studies scholars who study or teach immigration racial and ethnic politics political participation civic engagement and American political institutions In addition it will appeal to community organizers and party activists who are interested in issues of race and ethnicity immigration political participation and political mobilization Janelle Wong is Assistant Professor of Political Science and American Studies and Ethnicity at the University of Southern California As political parties perhaps decline in the United States as civic organizations perhaps move away from direct participatory politics and as the number of immigrants certainly increases what will link new Americans to the political realm Janelle Wong answers this important question clearly with elegance nuance rich description and galvanizing provocativeness Her evidence is compelling and her sense of urgency about the need for parties to look beyond short-term interests even more so Jennifer L. Hochschild Harvard University Wong draws on the Latino and Asian immigrant experience with specific examples from the Chinese and Mexican communities of New York and Los Angeles to show how the political parties have largely failed to organize these groups and why labor unions and immigrant advocacy organizations have stepped in to take their place Far from disuniting America she clearly shows that bringing these groups into the political fray is central to the project of renewing American democracy John Mollenkopf CUNY Graduate Center A scathing critique of the role of parties in the mobilization of new immigrants and an invaluable analysis of alternative pathways of mobilization through community organizations Michael Jones Correa Cornell

University By employing multiple empirical methods including in depth interviews and sophisticated survey analyses Janelle Wong provides a compelling account of the political activities and allegiances of America s Asian and Latino immigrants that challenges much conventional wisdom Often the political parties are failing to reach out to these groups and often immigrants remain concerned about their home countries but they are nonetheless increasingly active in American politics in ways that may do much to shape the course of American political development in the 21st century Democracy s Promise is a major contribution to our understanding of this crucial dimension of American politics Rogers M Smith University of Pennsylvania Democracy s Promise challenges political parties to reexamine their priorities for mobilizing new voters and identifies the critical role civic institutions play in invigorating participation among immigrant citizens Wong s analysis is at once precise and expansive illuminating the contours of Latino and Asian American political incorporation and provoking thoughtful debate on inclusion in democratic theory Jane Junn Rutgers University
