Skin The Human Fabric:

Skin Doug M. Podolsky,1982 *Skin* Doug M. Podolsky,1982 Presents scientific information and miscellaneous facts on the human skin and hair *The Dangerous Flammable Fabrics* Charles S. Beroes,2004-10 Historically and persisting to this day there has been a barbaric attitude toward gruesome and fatal injuries from flammable fabrics Reliable burn injury data show hundreds of garment burn injury fatalities annually and morbidly painfully and permanently injured victims form flammable fabrics Industrial representatives argue that the total number of injuries is small and that the cost benefits to the vast majority preponderantly favor the status quo The children s sleepwear laws have dramatically reduced the frightful destructive injuries to innocent children and safer fabrics are appearing in the stream of commerce An effective warning label on dangerous garment fabrics would help build a market for safer clothing and enable the consumer to choose safer garments More importantly an effective warning label would reduce the number of dangerous flammable fabric victims This text places an emphasis on the value of a warning label which should be mandated on all new clothing to reduce the flammable fabric injuries and fatalities each year It is especially important to alert mothers of flammable fabric risk to protect their children Currently the largest fatality groups are children 2 5 years of age and senior citizens over age 65 The author hopes to promote the use of an effective warning label to circumvent fabric burn injuries and to reduce disfiguring and fatal burn injuries **Dermatotoxicology** Klaus Peter Wilhelm,Hongbo Zhai,Howard I.
