On the Edge of the Field Richard Sievers,2018-06-13 These poems are the recordings of my journey from neophyte farmer and father to a more seasoned and solid soul These words are the chronicle of eight years working on and stewarding an organic farm in the Pacific Northwest of the USA I wrote most of these poems in an old cabin sitting behind a picture window above the farm and pasture You may notice how the first entries reflect a steep learning curve on how to be a sensitive man in an intense world of parenting marriage and business For these were my first years inhabiting all three of these labels These years began with hope and idealism They end with both losing the farm and gaining a much deeper set of inner resources to be alive and to be of service

Life Truth in its Various Perspectives Anna-Teresa Tymieniecka, 2013-03-09. What is truth? This fascinating spectrum of studies into the various rationalities of our human dealings with life, psychological, aesthetic, economic, spiritual, reveals their joints and calls for a new approach to truth. Putting both classical and contemporary conceptions aside, we find the primordial ground of truth in the networks of correspondences, adequations, relevancies, and rationales at work in life's becoming. Does this plurivocal differentiation mean that the status of truth is relative? On the contrary, submits Anna Teresa Tymieniecka, given the universal significance of the crucial instrument of the logos, of life, truth is the vortex of life's ontopoietic unfolding.

The Logics of Globalization Anandam P. Kavoori, 2009-01-16. This book presents the theoretical language and methodological tools needed for thinking through issues of global media representation. It brings students of international communication into a conversation about global culture and communication through the presentation of a conceptual language to discuss the logics of globalization, i.e., nationalism, modernism, post-modernism, colonialism, capitalism, and terrorism. Anandam Kavoori then uses this language to critically analyze various media texts. The choices of texts are eclectic, representing old and new media and chosen for the wider logic they help animate. Most importantly, they reorient the study of global media texts from the formal to the popular, examining film, music, gaming, cell phone, travel, journalism, and performance texts. The book invites students to understand the complexity of global media representation at the heart of which is the search for identity.

The Uses of Error Frank Kermode, 1991. This book is a record of Kermode's error, his wandering through literature past and present. He notes that in thirty odd years I have written several hundred reviews, an example I would strongly urge the young not to follow. From these Kermode has selected the pieces he treasures most; they provide an

example that will be difficult to follow
