Roman,2025-06-30 This book offers an interpretation of the French Revolution and modern democracy arguing that the revolution gave rise to a democratic power that is liminal by nature and therefore unlimited unaccountable on principle and the basis for a state religion of continuous transformation It demonstrates these claims by focusing on the universally adulated but little understood sacred motto *libert egalit fraternit* and on the sacrifice and role of Louis XVI in the revolution Analysing the revolutionary process by which representative democratic government took the shape of political metamorphosis the book shows that modern democracy does not represent the people but refers to the representation of representation and the existential condition of permanent displacement The present study will appeal to scholars from across the social political and human sciences with an interest in the French Revolution modern democracy political modernity contemporary politics and the history of art **The Hurricane Port** Andrew Lees,2011-09-01 Scousers believe they live in a special place one that has more in common with Salvador da Bahia New Orleans or Gdansk than anywhere in England and the city has always punched above its weight In less than a hundred years however Liverpool's image has declined from a major mercantile player known as the Second City of the Empire to what some social commentators have described as a

cultural backwater remembered largely as the place where the Beatles were born In The Hurricane Port Andrew Lees reveals how Liverpool's pre eminence in the slave trade left an indelible scar on the psychogeography of the city He also explores the roots of Liverpool's contrary nature its rebelliousness and its hedonism as well as some of the recent hurricanes that have battered the city including the anger of Toxteth Militant's stand against Margaret Thatcher and the murder of James Bulger In this distinctly personal account Lees defines the characteristics of this Celtic enclave with her loudmouthed big hearted people who have created a city quite different from anywhere else in the world **Tort Law Desk Reference: A**

Out There Jamie McKendrick, 2012-10-04 Jamie McKendrick s sixth collection starts from the far flung out there is the nothing or the something of outer space ascertaining the mood of an observer on Uranus or the perils of medieval travel or listening for the speech of alien landscapes Closer to home the poems adopt an outsiderish stance as they ponder the business of non belonging and draw up wry inventories of marginality finding room for those whom history has forgotten the inhabitants of a drowned valley in Wales or equally for the outcasts of natural history the northern bald ibis

the hyena the moa whose skeletons are cairns to their own extinction But the poems themselves are vivid and stubbornly realised individuals they take short views make canny distinctions and tread carefully Invoking paintings and artefacts and facades they also add to an ongoing portrait of the artist caught for example amidst the patiently observed flotsam of a repeatedly flooding house which becomes more finely drawn with each of Jamie McKendrick's collections
