Kessler-Harris,2014-10-17 In this pathbreaking book Alice Kessler Harris explores the meanings of women's wages in the United States in the twentieth century focusing on three sets of issues that capture the transformation of women's roles the battle over minimum wage for women which exposes the relationship between family ideology and workplace demands the argument over equal pay for equal work which challenges gendered patterns of self esteem and social organization and the current debate over comparable worth which seeks to incorporate traditionally female values into new work and family trajectories Together these issues trace the many ways in which gendered meaning has been produced transmitted and challenged *I'm 30 Now What: A Woman's Guide To Living A Life Of Choice* Ky-Lee Hanson,2017-11-02 I'm 30 Now What is a discovery through the perception of women born between 1977-1987 At the time of writing this book we are in our thirties There is something about our generation that never quite fit in a traditional sense Our authors are from or have lived in Canada USA Turkey Germany Barcelona and Europe yet there is a common feeling of displacement across the globe within our lost generation We were the first generation to have vast choices around education career and our role in the household We were able to stumble off the traditional path and survive We were raised in a very transitional phase from single to dual income households and grew up during the rise of broken homes We saw war for its true colors an industry and not an act of freedom the creation of the internet and watching it burst followed by an economic banking and housing crash We also saw positive change rapid gentrification spirituality equal rights gay rights and same sex marriage the everyday feminist and females running the workplace male nurses stay at home dads and moms to mompreneurs to childless women by choice finding commonalities outside of mommyhood As adults we view diversity and open mindedness as our way of life We didn't start all these trends but we are the outcome We were born to be a generation of change a generation of options Maybe instead of being the lost generation we were the born Choice Makers Yet we don't fully own this We CAN choose a life outside of a cookie cutter mold and we have the right to be unapologetic when doing so This book is a heavy controversial eye opener while being a tool for healing growth owning your power and embracing choice Global Perspectives on Victimization Analysis and Prevention Ayodele, Johnson Oluwole,2019-11-29 Over the past two decades both developed and developing countries have experienced major individual and collective tragic victimizations leading to major structural and systemic transformations as a consequence of the influence of organized crime and international terrorism These trends many of which as noted earlier are global in spread and have catastrophic outcomes revolve around some categories of political diplomacy and unsatisfactory reform responses to spiraling discontent among motivated youths Global Perspectives

on Victimization Analysis and Prevention is an essential research book that provides comprehensive research on postmodern crime prevention and control strategies as well as potential transformations that could be seen in victimology. It offers resources to understand and analyze the main issues relevant framework and contextual intricacies within which public safety agendas are articulated and implemented across the globe. Subject Guide to Books in Print, 1975 *The Greenwood Encyclopedia of Global Medieval Life and Culture* Joyce E. Salisbury, Nancy Sullivan, 2008-12-30. The period we know as the Middle Ages, roughly the years 400-1400, saw the formation of ideas and institutions that mark modern societies. Developments as disparate as the foundation of Islam and the emergence of the middle class occurred during this pivotal millennium. Although historical study of the Middle Ages has traditionally focused on Western Europe, modern historians recognize the complex global nature of this era. For all major world regions, this three-volume work offers in-depth essays on broad themes, short entries on specific topics, and carefully selected primary documents to help readers more fully understand this critically important period. Edited by Joyce Salisbury, who is general editor of the award-winning *Greenwood Encyclopedia of Daily Life* and written by Professor Salisbury and a series of prominent historians with regional expertise, *Greenwood Encyclopedia of Global Medieval Life and Culture* comprises three volumes covering the following areas of the globe: Volume 1: Europe and the Americas; Volume 2: Islam and Africa; Volume 3: Asia and Oceania. Each regional section comprises seven in-depth essays covering the following broad topics and concluding with bibliographies of important and current information resources: Historical Overview of the Region; Religion; Economy; The Arts; Society; Science and Technology; and Global Ties. The Global Ties essays trace the political, social, economic, religious, technological, or commercial connections that existed between the region under discussion and any other world regions during the Middle Ages. Each regional section also includes a series of brief entries covering people, events, developments, and concepts mentioned in the in-depth essays. Examples of entry topics include the following: Berbers; Emperor Harsha; Ethiopian Christianity; Flowering Warfare; Footbinding; Hildegard of Bingen; Jainism; Jihad; Maya Collapse; Neo-Confucianism; Romanesque; and Sharia. A series of sidebars in each section will provide lists, graphs, charts, and other useful data relating to the region. Each section will also be illustrated and will include a selection of interesting primary documents that further illustrate the main themes addressed in the in-depth essays. Cross-references within the sections and a detailed subject index will also help readers access information in the essays and short entries. *Essays into Vietnamese Pasts* K. W. Taylor, John K. Whitmore, 2018-05-31. Essays that demonstrate ways to read the pasts of Vietnam through detailed analyses of its art, chronicles, legends, documents, and monuments. The book's many voices undermine the idea of a single Vietnamese past. All the essays, while varied, are connected by their common concerns with language and text. **"Women, Workers, and Race**

in LIFE Magazine " Dolores Flamiano, 2017-07-05 The tension between social reform photography and photojournalism is examined through this study of the life and work of German girl Ansel Mieth 1909-1998 who made an unlikely journey from migrant farm worker to Life photographer. She was the second woman in that role after Margaret Bourke White. Unlike her colleagues, Mieth was a working class reformer with a deep disdain for Life's conservatism and commercialism. In fact, her work often subverted Life's typical representations of women workers and minorities. Some of her most compelling photo essays used skillful visual storytelling to offer fresh views on controversial topics: birth control, vivisection, labor unions, and Japanese American internment during the Second World War. Her dual role as reformer and photojournalist made her a desirable commodity at Life in the late 1930s and early 40s, but this role became untenable in Cold War America when her career was cut short. Today, Mieth's life and photographs stand as compelling reminders of the vital yet overlooked role of immigrant women in twentieth-century photojournalism. *Women Workers and Race in LIFE Magazine* draws upon a rich array of primary sources, including Mieth's unpublished memoir, oral histories, and labor archives. The book seeks to unravel and understand the multi-layered, often contested stories of the photographer's life and work. It will be of interest to scholars of photography history, women's studies, visual culture, and media history.

Gender, Ageing and Extended Working Life

Wendy Loretto, Clary Krekula, Sarah Vickerstaff, Debra Street, Aine Ni Leime, 2019-01-23 Nations that are raising retirement ages appear to work on the assumption that there is appropriate employment available for people who are expected to retire later. Gender, ageing, and extended working life challenges both this narrative and the gender-neutral way the expectation for extending working lives is presented in most policy-making circles. The international contributors to this book, part of the *Ageing in a Global Context* series, apply life course approaches to understanding evolving definitions of work and retirement. They consider the range of transitions from paid work to retirement that are potentially different for women and men in different family circumstances and occupational locations and offer solutions governments should consider to enable them to evaluate existing policies. Based on evidence from Australia, Germany, Ireland, Portugal, Sweden, the United Kingdom, and the United States, this is essential reading for researchers and students and for policymakers who formulate and implement employment and pensions policy at national and international levels.
