*Redemption from Addiction* Gerard Jerry Egan, 2011-12-27 There are awesome and powerful creative forces that can be fully tapped that will absolutely unleash our dreams and hopes transforming them into a desired reality or these very same forces will send us into the deepest darkest Hell we have ever known If a person fails to understand that they have a huge responsibility to take full possession and control of this great creative power then that failure to take this responsibility will always lead to these forces taking control of the person in an undesirable destructive and potentially deadly manner In other words opportunities and temptations to use drugs or alcohol will present themselves as a direct result of failing to take control of these forces or misusing their power All addictions are a manifestation caused by the poor or improper use of these forces and powers The very Powers that govern the ability for anyone to accomplish anything in their lives for their good are the very same powers that can and will undermine and destroy those efforts This book will give you the essential Eleven Powers and Eleven Arts that will enable you to change your life The use of these Powers and Arts will enable you to take full control of not only your addiction but provide endless opportunities to create and design an entire new Destiny Addicts and alcoholics have inadvertently mastered the principles of success and use those very same concepts to assure their own failure and destruction By forcing yourself to do what you dont want to do enables you to gain hold of and grasp these powerful forces and turn them in the direction of success instead of failure Teach yourself and learn to direct the awesome creative forces within you and learn to turn your Possibilities into Probabilities

Rivka Galchen, author of *Little Labors* and *American Innovations*. In 1666, an astronomer makes a prediction shared by no one else in the world: at the stroke of noon on June 30 of that year, a solar eclipse will cast all of Europe into total darkness for four seconds. This astronomer is rumored to be using the longest telescope ever built, but he is also known to be blind, and not only blind but incapable of sight, both his eyes having been plucked out some time before.

under mysterious circumstances Is he mad Or does he despite this impairment have an insight denied the other scholars of his day These questions intrigue the young Gottfried Leibniz not yet the world renowned polymath who would go on to discover calculus but a nineteen year old whose faith in reason is shaky at best Leibniz sets off to investigate the astronomer's claim and over the three hours remaining before the eclipse occurs or fails to occur the astronomer tells the scholar the haunting and hilarious story behind his strange prediction a tale that ends up encompassing kings and princes family squabbles obsessive pursuits insanity philosophy art loss and the horrors of war Written with a tip of the hat to the works of Thomas Bernhard and Franz Kafka *The Organs of Sense* stands as a towering comic fable a story about the nature of perception and the ways the heart of a loved one can prove as unfathomable as the stars *Silent Scream* Roxanne Varzi, 2025-10-03 Alex slips off her headphones and savors the sensation of stillness in silence while the crowd dances on at Oslo's hot new silent disco She is conducting her dream field research on sound and attention when a handsome stranger beckons to her from across the dance floor Hoping for a little warmth in Norway's cold climate she follows him going from anthropology PhD student to murder suspect With the Norwegian police and a killer closing in Alex is stranded in a country where every puzzle piece is slightly out of place While dyslexia makes reading Norwegian difficult it also gifts her an uncanny ability to read people Soon she is channeling Ms Marple as much as Margaret Meade as she re places puzzle pieces and navigates the sharp edges of the frosty Fjord in an attempt to free herself and return home
