The Palgrave Handbook of Contemporary International Political Economy Timothy M. Shaw, Laura C. Mahrenbach, Renu Modi, Xu Yi-chong, 2018-12-19. Published 35 years after Palgrave Macmillan's landmark International Political Economy (IPE) series was first founded, this Handbook captures the state of the art of contemporary IPE. It draws on the series history of focusing on the oft neglected study of the global South. Providing interdisciplinary perspectives from scholars hailing from the global North and South, the Handbook illustrates the theoretical innovations and empirical richness necessary to explain today's ever changing world. This is a world in which the global South and North are not only being transformed by the end of bipolarity and the rise of the BRICS but also by diverse global crises and growing cross border challenges. It is a world where human development governance and security are becoming ever more elusive where profoundly altered by the rise of new technologies the structure of relations between nations itself is changing becoming increasingly interconnected both digitally and physically. Understanding these issues is of critical importance to better anticipate current and future global transformations. This Handbook is the ideal primer for all scholars practitioners and policy makers looking to do so.

Inclusive Growth Through Social Capital Formation Christabell P.J., 2016-01-01. Economic growth becomes inclusive when it creates economic opportunities along with ensuring equal access to all people of a nation. The inclusive growth can be achieved by forming social capital which can be defined as the quality and quantity of relationships networks and norms among people and organizations that facilitate collective action. In India micro finance institutions and programmes have adopted numerous innovative ways of providing credit and savings services to the entrepreneurial poor in order to make them financially inclusive. The book looked into the impact of the progress of micro finance in Kerala and further examined how social capital formation among marginalized and vulnerable sections of the society through micro finance helped the poor especially in the context of inclusive growth. The micro finance organisation selected for the purpose of the book is Kudumbashree which is an internationally renowned model operating in the State of Kerala.
