Christopher Rootes, 2003 Based upon an analysis of the protest events reported in one quality newspaper in each of eight countries during the ten years 1988 to 1997 this is the first systematically comparative study of environmental protest in a representative cross section of EU member states It breaks entirely new ground in the study of environmental politics in Europe and is a major contribution to the study of protest events

New Public Spheres Peter Thijssen, Walter Weyns, Sara Mels, 2016-04-29 The public sphere provides a domain of social life in which public opinion is expressed by means of rational discourse and debate Habermas linked its historical development to the coffee houses and journals in England Parisian salons and German reading clubs He described it as a bourgeois public sphere where private people come together and where they turn from a politically disempowered bourgeoisie into an effective political agent the public intellectual With

communication networks being diversified and expanded over time the worldwide web has put pressure on traditional public spheres These new informal and horizontal networks shaped by the internet create new contexts in which an anonymous and dispersed public may gather in political e communities to reflect critically on societal issues These de centered modes of communication and influence seeking change the role of the traditional public intellectual and at first sight seem to make their contributions less influential What processes therefore influence changes within public spheres and how can intellectuals assert authority within them Should we speak of different types of intellectuals according to the different modes of public intellectual engagement This ground breaking volume gives a multi disciplinary account of the way in which public intellectuals have constructed their role and position in the public sphere in the past and how they try to voice public concerns and achieve authority again within those fragmented public spheres today

Securitizing Immigration Rens van Munster, 2009-10-09 Securitizing Immigration deals with the growing concern for immigration as a matter of security at the EU level It combines an analysis of the way bureaucratic and political processes have interacted in the integration process with an analysis of how these practices are located in a context shaped by the preoccupation with risk

Media and the Cold War in the 1980s Henrik G. Bastiansen, Martin Klimke, Rolf Werenskjold, 2018-11-08 The Cold War was a media phenomenon It was a daily cultural political struggle for the hearts and minds of ordinary people and for government leaders a struggle to undermine their enemies ability to control the domestic public sphere This collection examines how this struggle played out on screen radio and in print from the late 1970s through the early 1990s a time when breaking news stories such as Ronald Reagan s Star Wars program and Mikhail Gorbachev s policy of glasnost captured the world s attention Ranging from the United States to the Soviet Union and China these essays cover photojournalism on both sides of the Iron Curtain Polish punk Norwegian film Soviet magazines and more concluding with a contribution from Stuart Franklin one of the creators of the iconic Tank Man image during the Tiananmen Square protests By investigating an array of media actors and networks as well as narrative and visual frames on a local and transnational level this volume lays the groundwork for writing media into the history of the late Cold War

European Research Reloaded: Cooperation and Integration among Europeanized States Ronald Holzhaacker, Markus Haverland, 2006-09-01 The Three Waves of European Research European cooperation and integration has continued to progress forward over the past five decades with an ever deepening impact on the member states The first wave of research into these processes concerned European integration the process of institution building and policy developments at the European Union EU level The second wave on Europeanization used integration as an explanatory factor in understanding domestic political change and continuity related to the EU What is now necessary is to link our understanding of these bottom up and top down processes of integration and Europeanization in the EU This book argues that a third wave of research on the EU is needed to adequately understand the increased interconnectedness between the European and national political levels We posit that this third wave should be sensitive to the temporal

dimension of European integration and Europeanization In particular we seek to link the processes of European integration and Europeanization in a new way by asking the question how has Europeanization affected current modes of integration and cooperation in the EU Part I Europeanization of the Member States Preparing the ground for the third wave the first part of the book concerns Europeanization In order to fully understand the feedback of Europeanization on cooperation and integration it is important to analyze how European integration has had an impact on member states in the first place in particular indirectly beyond the direct mechanism of compliance with European policies **Alain Touraine** Jon

Clark,Marco Diani,2013-12-19 First published in 2004 The seventeen essays in this volume discuss the work of Alain Touraine and consider his contribution to the social sciences The text includes his most recent thinkings on the market and communities **The British Study of Politics in the Twentieth Century** Jack Hayward,Brian Barry,Archie

Brown,2003-05 A collection of articles about British studies relating to various political issues including totalitarianism individualism pluralism political parties elections political institutions public administration nationalism authoritarianism and international relations **Environmental Movements** Christopher Rootes,2014-06-23 Despite growing evidence of the

universality of environmental problems and of economic and cultural globalization the development of a truly global environmental movement is at best tentative The dilemmas which confront environmental organizations are no less apparent at the global than at national levels This volume is a collection of 1990s research on environmental movements in western and southern Europe the US and the global arena **Stabilising Fragile Democracies** Paul Lewis,Geoffrey

Pridham,2002-11-01 Political parties play a central if not the central political role in parliamentary democracies They are also likely to play a key role in the establishment of new parliamentary democracies This volume provides a systematic comparison of the democratic transitions in both Eastern and Southern Europe from this point of view There are four main themes concerning the role of parties that are examined coping with the past party identities and inheritances the formation and performance of new democratic political elites parties and alliances and their electoral behaviour These themes guide the case studies which are written in comparative perspective in four countries in both Southern and Eastern Europe The countries covered include Italy Spain Greece Portugal Hungary Romania Poland and Bulgaria Democratization is a very complex process but what the study of political parties does is to focus on an area that links many of them This book is intended to be a guide to students wishing to make sense of democratization and the role of political parties in that process

Ethnographies of Conservation David G. Anderson,Eeva Berglund,2003-02-01 Anthropologists know that conservation often disempowers already under privileged groups and that it also fails to protect environments Through a series of ethnographic studies this book argues that the real problem is not the disappearance of pristine nature or even the land use practices of uneducated people Rather what we know about culturally determined patterns of consumption production and unequal distribution suggests that critical attention would be better turned on discourses of primitiveness and pristine nature

so prevalent within conservation ideology and on the historically formed power and exchange relationships that they help perpetuate

Parties, Politics, and Democracy in the New Southern Europe P. Nikiforos Diamandouros, Richard Gunther, 2001-06-11 In the acclaimed Politics of Democratic Consolidation Nikiforos Diamandouros Richard Gunther and their co authors showed how democratization unfolded in Greece Italy Portugal and Spain culminating in consolidated democratic regimes This volume continues that analysis posing the basic question What kind of democratic politics emerged in those countries It presents systematic analyses of the basic institutions of government and of the dynamics of electoral competition in the four countries set in comparative context alongside several other democracies as well as detailed studies of the evolution of the major parties their electorates their ideologies and their performances in government over the past twenty years The authors reach two major conclusions First the new democracies salient features are moderation centripetalism and the democratization of erstwhile antisystem parties on the Right and Left Second no single Southern European model has emerged the systems differ from one another about as much as do the other established democracies of Europe Contributors P Nikiforos Diamandouros University of Athens Richard Gunther Ohio State University Thomas C Bruneau Naval Postgraduate School Monterey Arend Lijphart University of California at San Diego Leonardo Morlino University of Florence Risa A Brooks Stanford University Jos R Montero Autonomous University of Madrid Giacomo Sani University of Pavia Paolo Segatti University of Trieste Gianfranco Pasquino University of Bologna Takis S Pappas College Year Athens Hans Jrgen Puhle Goethe University Frankfurt am Main Anna Bosco University of Trieste

The New Germany and the New Europe Paul B. Stares, 2010-12-01 Since the first heroic and largely spontaneous acts precipitated the end of the Cold War Europe has been transformed in a truly remarkable and wholly unforeseen manner Germany has been unified the Warsaw Pact has collapsed and the Soviet Union has disintegrated leaving in its wake many new independent states These momentous events have taken place so rapidly and often in such confused circumstances that their full meaning has barely been comprehended let alone assimilated A clearer and deeper appreciation of the forces and processes unleashed by the recent changes is vitally important however to meet the challenges and exploit the opportunities that now present themselves in Europe This volume therefore is intended to promote wider understanding of the key issues and it represents the most comprehensive assessment to date of the new Germany and the new Europe The volume begins with detailed accounts by U S and German scholars of how unification came about and the resulting changes to the political economy security policy and foreign relations A complementary section discusses the implications for the rest of Europe as well as Japan While the focus of the book is on the new Germany two separate chapters provide specific designs for a new adoption of a general system of cooperative security

knowledge of the social sciences **Handbook of European Societies** Stefan Immerfall, 2009 European integration is one of the most ambitious and socially far reaching developments in world politics and in world economics Against growing opposition and despite increasing social heterogeneity the European Union continues to expand and to acquire new competences But to what extent is the self proclaimed ever closer union among the peoples of Europe a social reality In which ways is the political European project anchored in social developments How does social change impinge upon political integration Societal trends in multi cultural multi ethnic multi lingual and socially diverse Europe have never been studied systematically Handbook of European Societies Social Transformations in the 21st Century sets to rectify this neglect of societal developments in Europe providing a groundwork for the sociology of European integration The book portrays social life and social relations in the enlarged Europe and gives a perspective on the European Union as an evolving social entity Handbook of European Societies is a pioneering source book analyzing the current social patterns on the continent It covers a representative selection of major topics of social concern and sociological relevance such as Collective Action Consumption Identity Power Structure Sexuality Stratification and Well being Each contribution probes key developments in a strictly comparative manner The Handbook thus offers a detailed look into the intricacies of the national societies of Europe and into the prospect of an emerging European society The Editors have enlisted leading researchers to synthesize existing knowledge and to make use of many different data sources in a straight forward style The contributions stay away from jargon simple labeling and sweeping assertions Instead they provide solid and accessible information on a wide variety of social trends and processes within and across European societies *East Central Europe and the former Soviet Union* Michael Bradshaw, Alison Stenning, 2016-04-15 A comprehensive introduction to the important economic social and political processes and development issues in this increasingly popular area of study Employing a groundbreaking thematic approach the book centres its discussion on the interrelation between contemporary development theories and continuing transition issues in this huge and complex region The Political Theory of Global Citizenship April Carter, 2013-07-04 This book provides a comprehensive overview of the meaning of cosmopolitanism and world citizenship in the history of Western political thought and in the evolution of international politics since 1500 Providing an invaluable overview of earlier political thought recent theoretical literature and current debates this book also discusses recent developments in international politics and transnational protest It will be of great interest to those specialising in political theory International Relations and peace conflict studies It will also interest those already acting as global citizens
