Social Construction Of Lesbianism:

The Social Construction of Lesbianism Celia Kitzinger, 1987 The old model of lesbianism as a pathological affliction has largely given way to a liberal social scientific one which presents it as an alternative lifestyle a way of loving a sexual preference or a source of personal fulfilment This book argues that the shift from pathological to gay affirmative research merely substitutes one depoliticized construction of the lesbian for another The author contends that the liberal social construction instead of furthering the liberation of women represents a new development in the oppression of women in general and lesbians in particular Gay affirmative constructions are fundamentally incompatible with radical feminist theory in which lesbianism is a political statement representing the bonding of women against male supremacy Kitzinger urges researchers to reject the traditional model of science as an objective search for truths or facts but instead to examine their own rhetoric and evaluate their political commitments From publisher's description **Identities in the Lesbian World**

Lesbianisms Claudette Kulkarni, 1997 Claudette Kulkarni's study of lesbianism explores lesbian experience from both a feminist and Jungian standpoint Her feminist interpretation challenges the heterosexism embedded in Jungian theory yet Kulkarni is able to demonstrate that there are links between theory and experience and common ground between Jung and feminism Using a methodology anchored in Gadamer's hermeneutics Kulkarni bridges theory and experience by grounding theory in experience rather than by trying to make experience conform to theory An Invitation to Social Construction

Historical Dictionary of the Lesbian and Gay Liberation Movements

JoAnne Myers,2013-09-19 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement indeed the terms gay and lesbian were not even used if some other expression could be found Today by contrast hardly a day passes when something important does not occur and is carried by the major media and disseminated on more personal levels through blogs and the social media If anything there is perhaps too much news and not enough information Obviously a book like this cannot keep up with the news but it can do something equally important when it comes to information by reminding us of the past and what has been going and just how fast events are moving The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross referenced dictionary with over 1000 entries on specific countries and regions influential historical figures laws that criminalized same sex sexuality various historical terms that have been used to refer to aspects of same sex love and contemporary events and legal decisions Including a comprehensive chronology and bibliography this book is an excellent access point for students researchers and anyone interested in learning more about the struggle for equality

problem or individual deviance to a social movement with political ambitions Social lesbianism an important concept introduced in the text refers to the emergence of a public expression of lesbianism and is a stage in the process of establishing a lesbian group identity It thrusts the issue into the public eye and lends vitality to society's awareness Two groups of social lesbians are visible those fearful of change who cling to traditional and social views sick but not sorry and those who wish to challenge such traditional views in favour of a more public approach sorry but we're not sick But regardless of their relationships to the dominant sexual ideology as a group social lesbians threaten the structure of power in society This critical analysis thus challenges many people's views of lesbianism and points out to the uninformed observer the complexities which are involved in the contemporary lesbian experience This book will be of interest to students of sociology gender studies feminist theory and sexuality studies

Lesbian, Queer, and Bisexual Women in Heterosexual Relationships Ahoo Tabatabai, 2015-10-29 This book draws on interviews with women who left relationships with women to begin relationships with men and uncovers how the women make sense of who they are. The women who leave female partners to begin relationships with male partners have the capacity to redefine their sexual identity. They can essentially call themselves whatever they want. However, their capacity for such a creative process is limited. In the process of framing their decision in a way that renders their claim to a stable identity legitimate, the women communicate their understandings of notions of identity, community, and belonging. The women also show a nuanced regard for sexual categories. They stretch the boundaries of some categories while preserving and even policing the boundaries of other categories. This book is in no way an ex-gay narrative. It is entirely the voices of feminist queer women who find themselves viewed by society as heterosexual but who themselves, with two exceptions, do not identify as such. This book is a rich collection of wonderfully human stories about what it means to be true to oneself. **Lesbian**

Histories and Cultures Bonnie Zimmerman, 2000 To reflect this crucial fact, *The Encyclopedia of Lesbian and Gay Histories and Cultures* has been prepared in two separate volumes to assure that both histories receive full unbiased attention and that a broad range of human experience is covered. **BOOK JACKET**

Lesbian and Gay Studies Theo Sandfort, Judith Schuyf, Jan Willem Duyvendak, Jeffrey Weeks, 2000-07-19 This timely book seeks to demonstrate the coherence of lesbian and gay studies. It introduces the reader to the principal interdisciplinary approaches in the field and critically assesses their strengths and weaknesses whilst asking: What is lesbian and gay studies? When did it emerge? And what are its achievements and research agenda? The gay and lesbian movement has emerged as a major political and cultural force. It poses a series of far-reaching questions about the organization of identity, the operation of power, and the limits of tolerance. Lesbian and Gay Studies has emerged as a vital and enriching field. It offers challenges to more traditional disciplines and requires new forms of thought about the connections between academic work and personal politics. *Lesbian and Gay Memphis* Daneel Buring, 1997 This book addresses social and cultural issues both peculiarly Southern and generally American as it surveys Memphis, Tennessee between World War II and 1990 when lesbians and gay men developed group identity and community institutions first as a defense in the closeted 1950s, then as part of the liberationist 1970s and in the 1980s as a response to the spread of AIDS and the demands of other marginalized groups for recognition, inclusion, and power. *Sappho in the Holy Land* Chava Frankfort-Nachmias, Erella Shadmi, 2012-02-01 This unique collection examines the experience of lesbians in Israel, providing insight into some of the institutions that have helped shape that experience. The book analyzes and interprets how culturally specific political, ideological, and social systems construct lesbian identities, experiences, and dilemmas, and it also explores how a specific society is seen, understood, and interpreted from a lesbian perspective. Written by scholars, professionals, and grassroots activists representing different sectors of the Israeli political spectrum, this book provides a broad perspective of

the lesbian experience in Israel Classics in Lesbian Studies Esther D Rothblum, 2013-08-27 Classics in Lesbian Studies takes a major step in giving the lesbian experience its own unique voice within scholarship and the larger world society. Thus it is devoted exclusively to the lesbian experience and serves as a vehicle for the promotion of scholarship and commentary on lesbianism from an international perspective. Not only does it ensure that classic pieces are not forgotten by new generations of students and scholars, it also spurs further lesbian research, writing, theory, and scholarship. In Classics in Lesbian Studies, you are introduced to descriptive, theoretical, empirical, applied, and multicultural perspectives in the field of lesbian studies. Interdisciplinary, the book presents pieces from various academic areas in multiple formats, including personal accounts, poetry, editorials, debates, and commentaries. For your convenience, the chapters are organized primarily across four categories: identity, history, and literature; physical and social sciences; and back to lesbian politics. You will find the discussions of the following issues and subjects provocative and insightful: ways black women in the diaspora construct and name their sexual and romantic feelings for other women; lesbian identity formation in a changing social environment; how lesbians maneuver in the dominant culture and their own subculture; lesbianism as a political movement; the experiences of lesbian adolescents; teaching lesbian studies; lesbians and societal institutions, including the workplace, the media, the political arena, the legal system, and religion; using lesbian feminist scholarship to reexamine women's lives in the past. Students, scholars, lesbian feminists, and others interested in lesbian studies will find Classics in Lesbian Studies a vital examination of lesbianism since its grass roots. Not only does it consider the progress made since the initial days of fighting for liberation, it also explores a more distant, repressed past and anticipates future possibilities lying before us. This powerful, insightful collection is sure to become a classic as it grapples with virtually all aspects of lesbianism, from its inception as a political movement to its identity as a lifestyle choice to its implications for community.
