The Making of Eurosceptic Britain Chris Gifford, 2017-11-30 Offering a radical interpretation of a major political issue Chris Gifford moves beyond existing narrative and institutional accounts of Britain and Europe to present a theoretically coherent and unique perspective on this troubled relationship He acknowledges that populist Euroscepticism has become fundamental to constituting Britain and Britishness in a post imperial context despite membership of the European Union Organized chronologically this interesting study provides lucid overviews of key periods in the British European Union relationship It combines political economy with political identity to illustrate how forms of Euroscepticism have become embedded across the British political class and culture The book focuses not on outlining history or the impact of British integration on British institutions but on the ways in which elite behaviour towards European integration should be analyzed as practices and discourses that use Euroscepticism to construct Britain and distinctive British political projects The Dynamics of Taxation Glen Loutzenhiser, Rita de la Feria, 2020-10-15 This book brings together a landmark collection of essays on tax law and policy to celebrate the legacy of Professor Judith Freedman It focuses on the four areas of taxation scholarship to which she made her most notable contributions taxation of SMEs and individuals tax avoidance tax administration and taxpayers rights and procedures Professor Freedman has been a major driving force behind the development of tax law and policy scholarship not only in the UK but worldwide The strength and diversity of the contributors to this book highlight the breadth of Professor Freedman's impact within tax scholarship The list encompasses some of the most renowned taxation experts worldwide they include lawyers economists academics and practitioners from Britain Canada Portugal Australia Germany Italy Malta Ireland and Ukraine *From Satellite to Single Market* Richard Collins, 2005-08-10 This book explores television's role in fostering European cultural identity and the extent to which European public service broadcasters were able to meet the challenges posed by the introduction of new communication technologies **Behind the Myth of European Union** Ash Amin, John Tomaney, 2002-06-01 The vision of the original architects of the European Community was to create a Europe of economic prosperity and social harmony Economic integration has come ever closer but sustained growth and a reduction in social disparities seen as far away as ever This

book examines the prospects for the real cohesion in Europe and find that far from promoting it many of the Community's current policies are divisive. The neo liberal philosophy at the moment is producing policies which favour relatively wealthy regions and major corporations at the expense of less favoured regions and peoples.
