Gilbert and Sullivan Regina B. Oost, 2016-12-05 Making use of archival resources in the United Kingdom and the United States Regina B Oost examines advertisements promotional materials and programs as well as letters diaries and account books to reconstruct the ways in which Richard D Oly Carte W S Gilbert and Arthur Sullivan attracted and shaped the expectations of theatergoers Her findings place the Savoy operas in the context of other West End productions considering similarities between Carte's promotional methods and those of managers Henry Irving John Hollingshead and Marie and Squire Bancroft While all of these managers astutely understood patronage of a middle class audience to be key to their success the Savoy collaborators made strategic use of circumstances unique to their situation to

distinguish Gilbert and Sullivan operas from contemporary theatrical fare From Trial by Jury 1875 through The Grand Duke 1896 the Savoy operas celebrated the commodity culture beloved of the urban middle classes validated a moral code that secured the social privileges audience members cherished and ultimately provided a new model of British national identity that replaced the agrarian ideal espoused by earlier generations Written in admirably accessible and jargon free prose Oost's book will appeal to scholars of theater history literature music and popular culture as well as general readers interested in Gilbert and Sullivan and the history of the D'Oyly Carte Opera Company

Eftychia Papanikolaou, Markus Rathey, 2022-06-21 Sacred and Secular Intersections in Music of the Long Nineteenth Century Church Stage and Concert Hall explores interconnections of the sacred and the secular in music and aesthetic debates of the long nineteenth century The essays in this volume view the category of the sacred not as a monolithic attribute that applies only to music written for and performed in a religious ritual Rather the sacred is viewed as a functional as well as a topical category that enhances the discourse of cross pollination of musical vocabularies between sacred and secular compositions church and concert music Using a variety of methodological approaches the contributors articulate how sacred and religious identities coalesce reconcile fuse or intersect in works from the long nineteenth century that traverse an array of genres and compositional styles

Pirates and Mutineers of the Nineteenth Century
Grace Moore, 2016-12-05 The first volume devoted to literary pirates in the nineteenth century this collection examines changes in the representation of the pirate from the beginning of the nineteenth century through the late Victorian period Gone were the dangerous ruffians of the eighteenth century novel and in their place emerged a set of brooding and lovable rogues as exemplified by Byron's Corsair As the contributors engage with acts of piracy by men and women in the literary marketplace as well as on the high seas they show that both forms were foundational in the promotion and execution of Britain's imperial ambitions Linking the pirate's development as a literary figure with the history of piracy and the making of the modern state tells us much about race class and evolving gender relationships While individual

chapters examine key texts like *Treasure Island* Dickens's 1857 mutiny story in *Household Words* and *Peter Pan* the collection as a whole interrogates the growth of pirate myths and folklore throughout the nineteenth century and the depiction of their nautical heirs in contemporary literature and culture [Ruskin, the Theatre and Victorian Visual Culture](#) A. Heinrich, K. Newey, J. Richards, 2009-04-08 This collection of essays sets out to challenge the dominant narrative about Victorian theatre by placing the practices and products of the Victorian theatre in relation to Victorian visual culture through the lens of the concept of Ruskinian theatre an approach to theatre which values its educative purpose as well as its aesthetic expression **Encyclopedia of the Literature of Empire** Mary Ellen Snodgrass, 2010 Examines the world's greatest literature about empires and imperialism including more than 200 entries on writers classic works themes and concepts

The Black Pacific Narrative Etsuko Taketani, 2014-11-04 *The Black Pacific Narrative* Geographic Imaginings of Race and Empire between the World Wars chronicles the profound shift in geographic imaginings that occurred in African American culture as the United States evolved into a bioceanic global power The author examines the narrative of the black Pacific _the literary and cultural production of African American narratives in the face of America's efforts to internationalize the Pacific and to institute a Pacific Community reflecting a vision of a hemispheric regional order initiated and led by the United States The black Pacific was imagined in counterpoint to this regional order in the making which would ultimately be challenged by the Pacific War The principal subjects of study include such literary and cultural figures as James Weldon Johnson George S Schuyler artists of the black Federal Theatre Project Langston Hughes W E B Du Bois and Walter White all of whom afford significant points of entry to a critical understanding of the stakes of the black Pacific narrative Adopting an approach that mixes the archival and the interpretive the author seeks to recover the black Pacific produced by African American narratives narratives that were significant enough in their time to warrant surveillance and suspicion and hence are significant enough in our time to warrant scholarly attention and reappraisal A compelling study that will appeal to a broad international audience of students and scholars of American studies African American studies American literature and imperialism and colonialism **Musical Style and Social Meaning** Derek B. Scott, 2017-07-05 Why do we feel justified in using adjectives such as romantic erotic heroic melancholic and a hundred others when speaking about music How do we locate these meanings within particular musical styles These are questions that have occupied Derek Scott's thoughts and driven his critical musicological research for many years In this selection of essays dating from 1995-2010 he returns time and again to examining how conventions of representation arise and how they become established Among the themes of the collection are social class ideology national identity imperialism Orientalism race the sacred and profane modernity and postmodernity and the vexed relationship of art and entertainment A wide variety of musical styles is discussed ranging from jazz and popular song to the symphonic repertoire and opera
