Victims' Rights, Human Rights and Criminal Justice Jonathan Doak, 2008-04-29 In recent times the idea of victims rights has come to feature prominently in political

criminological and legal discourse as well as being subject to regular media comment The concept nevertheless remains inherently elusive and there is still considerable ambiguity as to the origin and substance of such rights This monograph deconstructs the nature and scope of the rights of victims of crime against the backdrop of an emerging international consensus on how victims ought to be treated and the role they ought to play The essence of such rights is ascertained not only by surveying the plethora of international standards which deal specifically with crime victims but also by considering the potential cross applicability of standards relating to victims of abuse of power with whom they have much in common In this book Jonathan Doak considers the parameters of a number of key rights which international standards suggest victims ought to be entitled to He then proceeds to ask whether victims are able to rely upon such rights within a domestic criminal justice system characterised by structures processes and values which are inherently exclusionary adversarial and punitive in nature

The Rights of Crime Victims Dean G. Kilpatrick, David Beatty, Susan Smith Howley, 1998

Victims' Rights in Flux: Criminal Justice Reform in Colombia Astrid Liliana Sánchez-Mejía, 2017-07-13 Contributing to the literature on comparative criminal procedure and Latin American law this book examines the effects of adversarial criminal justice reforms on victim s rights by specifically analyzing the Colombian criminal justice reform of the early 2000s This research focuses on the production interpretation and implementation of rules and institutions by exploring how different actors have employed the concept of victims and victims rights to promote their agendas in the context of criminal justice reforms It also analyzes how the goals of these agendas have interplayed in practice By the early 2000s it seemed that the Colombian criminal justice system was headed towards a process characterized by broader victim participation primarily because of the doctrine of the Constitutional Court on victims rights But in 2002 the Colombian Attorney General promoted a more adversarial criminal justice reform This book argues that this reform represented a sudden and unpredicted reversal of the Constitutional Court s doctrine on victim participation even though one of the central justifications for the reform was the need to satisfy human rights standards and adhere to the jurisprudence of the Constitutional Court on victims rights In the criminal justice reform of the early 2000s and its subsequent modifications the promotion of a dichotomous interpretation of the adversarial model which conceived the criminal process as a competition between prosecution and defense served to limit victim participation This study examines how conceptions of victims rights emerged out of the struggles between different and at times

competing agendas In the Colombian process of reform victims rights have been invoked both as a justification for criminal sanctions and as an explanation for crime prevention and restorative justice After assessing quantitative and qualitative data this book concludes that punitive approaches to victims rights have prevailed over restorative justice perspectives Furthermore it argues that punitiveness in the criminal justice system has not resulted in more protection for victims Ultimately this research reveals that the adversarial criminal justice reform of the early 2000s has not substantially improved the protection of victims rights in Colombia

Victim-Centred Peacemaking Roddy Brett, 2024-11-28 Based on unique empirical research into Colombia's Santos FARC EP peace process 2012-2016 this book interrogates how if at all survivors and victims may assert agency and contribute to formal peacemaking and transitional justice initiatives The book argues that victim inclusion meaningfully transformed victim perpetrator relations and dynamics in Havana while partially shaping the content of both the Victims Agreement and Final Agreement As such the delegations created paths for empowerment at the individual and in part collective levels However victim inclusion also precipitated experiences of victim depoliticization revictimization retraumatization and instrumentalization Drawing on insights from across academic disciplines the book proposes an instrumentalization empowerment spectrum to analyse the complex impact of victim centred approaches to peacemaking transitional justice and is valuable for both researchers and practitioners

The victim in the Irish criminal process Shane Kilcommins, Susan Leahy, Kathleen Moore Walsh, Eimear Spain, 2018-03-20 Concern for crime victims has been a growing political issue in improving the legitimacy and success of the criminal justice system through the rhetoric of rights Since the 1970s there have been numerous reforms and policy documents produced to enhance victims satisfaction in the criminal justice system The Republic of Ireland has seen a sea change in more recent years from a focus on services for victims to a greater emphasis on procedural rights The purpose of this book is to chart these reforms against the backdrop of wider political and regional changes emanating from the European Union and the European Court of Human Rights and to critically examine whether the position of crime victims has actually ameliorated The book discusses the historical and theoretical concern for crime victims in the criminal justice system examines the variety of forms of legal and service provision inclusion and concludes by analysing the various needs of victims which continue to be unmet
