Remaking the Readymade Adina Kamien-Kazhdan, 2018-05-11 Replication and originality are central concepts in the artistic oeuvres of Marcel Duchamp and Man Ray Remaking the Readymade reveals the underlying and previously unexplored processes and rationales for the collaboration between Duchamp Man Ray and Arturo Schwarz on the replication of readymades and objects The 1964 editioned replicas of the readymades sent shock waves through the art world Even though the replicas undermined ideas of authorship and problematized the notion of identity and the artist they paradoxically shared in the aura of the originals becoming stand ins for the readymades Scholar poet dealer Arturo Schwarz played a crucial role opening the door to joint or alternate authorship an outstanding relationship between artist and dealer By unearthing previously unpublished correspondence and documentary materials and combining this material with newly conducted exclusive interviews with key participants Remaking the Readymade details heretofore unrevealed aspects of the technical processes involved in the re creation of iconic long lost Dada objects Launched on the heels of the centenary of Duchamp's Fountain this new analysis intensifies and complicates our understanding of Duchamp and Man Ray initial conceptions and raises questions about replication and authorship that will stimulate significant debate about the legacy of the artists the continuing significance of their works and the meaning of terms such as creativity originality and value in the formation of art

out of the first volume and vividly recreates the artist's life and work during the crucial decade of 1907-17 a period during which Pablo Picasso and Georges Braque invented Cubism and to that extent engendered modernism Richardson has had unique access to untapped sources and unpublished material By harnessing biography to art history he has managed to crack the code of cubism more successfully than any of his predecessors And by bringing a fresh light to bear on the artist's often too sensationalised private life he has succeeded in coming up with a totally new view of this paradoxical man of his paradoxical work Never before has Picasso's prodigious technique his incisive vision and not least his sardonic humour been analysed with such clarity

Scandalous Times Alex Ling, 2020-10-15 We live in scandalous times Every day some new controversy demands our attention our emotional investment and ultimately our judgment Many of these routine transgressions will be understood in revelatory terms as peeling back the multiple layers of artifice and spin to reveal an underlying and oftentimes disturbing truth Others will be recognized as calculated marketing exercises that simply present the strategic face of contemporary capitalism Yet these ordinary scandals can themselves be seen to be largely derivative of another altogether more fundamental and fundamentally rare form of disruption Such is the real scandal that accompanies instances of authentic creation Building on the philosophy of Alain Badiou *Scandalous Times* not only argues the case for such real scandal but also shows how it is today being abrogated and substituted through the increasing production of novel forms of state sanctioned controversy From Duchamp to Donald Trump *Scandalous Times* explores the ways in which areas from art and advertising to politics and social media have come to actively contribute to this static fabrication of controversy all the while arguing for the need to rethink creativity as a radical exception to the state and not its proxy

Emancipating the Many Wolfgang Fiel, 2016-02-08 This book begins from the assumption that we have entered an era where the concept of political representation is seriously compromised Eschewing the flawed promise of acting for the

common good or in accordance with the general will of an homogenous body politic it delves into the process of individuation the diverse reality of individuals and communities alike in order to elucidate contemporary experience as relational phenomena of networked human and non human actors Clearly this task is ambitious for it must bridge the gap between the needs aspirations emotions and anxieties of individuals on the one hand and the desired emergence of collective co operation on the other Now that we have entered an age where the irresistible rise of global mega cities and big data appear to determine the outlook for generations to come it is more pertinent than ever to challenge the technological promise of a future where numbers speak for themselves The full blown heterogeneity of the multitude thrives on the general intellect and the activity of the speaker To act is to start anew and to intervene in the circulation of empty signifiers upon which we are called to assign the name of an event Emancipating the Many therefore is a book about difference marked as intervention an emergent constitution of time *The Unsilvered Screen* Graeme Harper, Rob Stone, 2007 Critics from the UK US Australia Canada and Japan discuss views on canonical surrealist works and the role of surrealism in modern cinema animation digital cinema and documentary
