## **The Comprehensive College Heading Toward A New Direction In Higher Education:**

The Comprehensive College Edmond L. Volpe, 2001-08-31 The Comprehensive College details with the challenges a President of an urban college faced during the last decades of the twentieth century A highly diverse student population in cultural and educational background in age in aspiration and goals and in levels of basic academic skills has brought onto the American college campus many of the social problems that beset a pluralistic society Racial and ethnic tensions and a heightened gender consciousness for example have altered the college curriculum and impacted college life and activities The introduction of policies such as affirmative action and of new academic programs in remedial skills and ethnic and gender studies has embroiled higher education in social political and legal controversies *Poor Queer Studies* Matt Brim, 2020-03-06 In *Poor Queer Studies* Matt Brim shifts queer studies away from its familiar sites of elite education toward poor and working class people places and pedagogies Brim shows how queer studies also takes place beyond the halls of flagship institutions in night school after a three hour commute in overflowing classrooms at no name colleges with no research budget without access to decent food with kids in tow in a state of homelessness Drawing on the everyday experiences of teaching and learning queer studies at the College of Staten Island Brim outlines the ways the field has been driven by the material and intellectual resources of those institutions that neglect and rarely serve poor and minority students By exploring poor and working class queer ideas and laying bare the structural and disciplinary mechanisms of inequality that suppress them Brim jumpstarts a queer class knowledge project committed to anti elitist and anti racist education *Poor Queer Studies* is essential for all of those who care about the state of higher education and building a more equitable academy **Reclaiming the Public University** Judith Summerfield, Crystal Benedicks, 2007 To reclaim the public university is to focus our energies on teaching all our students well educating them for a new increasingly complicated age To deliver on this promise we must interrogate the general education we provide for our students for that is the vast unrecognized ground we stand on It is what students and faculty do most in common If we can get educating our students right generally and liberally then we will have laid a claim to what the public university needs to be New Directions in Higher Education R. Nata, 2005 Higher education is a complex package of issues which never seems to leave the limelight The primary wedge issues are tuition cost access accountability financial aid government funding sports and their place within higher education academic results societal gains as a whole in terms of international competition and continuing education This new book examines new directions in this ever changing vital and controversial field which has a profound effect on society *New Directions for Computing Education* Samuel B. Fee, Amanda M. Holland-Minkley, Thomas E. Lombardi, 2017-04-17 Why should every student take a computing course What should be the content of these courses How should they be taught and by whom This book addresses these questions by identifying the broader reaches of computing education problem solving and critical thinking as a general approach to learning The book discusses new approaches to

computing education and considers whether the modern ubiquity of computing requires an educational approach that is inherently interdisciplinary and distinct from the traditional computer science perspective. The alternative approach that the authors advocate derives its mission from an intent to embed itself within an interdisciplinary arts and science context. An interdisciplinary approach to computing is compellingly valuable for students and educational institutions alike. Its goal is to support the educational and intellectual needs of students with interests in the entire range of academic disciplines. It capitalizes on students' focus on career development and employers' demand for technical while also engaging a diverse student body that may not possess a pre-existing interest in computing for computing's sake. This approach makes directly evident the applicability of computer science topics to real-world interdisciplinary problems beyond computing and recognizes that technical and computational abilities are essential within every discipline. The book offers a valuable resource for computer science and computing education instructors who are presently rethinking their curricula and pedagogical approaches and are actively trying new methods in the classroom. It will also benefit graduate students considering a future of teaching in the field as well as administrators in both higher education and high schools interested in becoming conversant in the discourse surrounding the future of computing education.

#### **Strengthening Community Colleges Through**

**Institutional Collaborations** Michael J. Rogg, 2014-03-19. This issue illustrates examples of effective collaborations written by community college presidents, administrators, faculty, and leaders of state governments and national organizations. Each has contributed a story illustrating a successful program that required the efforts of a range of individuals and recommendations for others to build their own successes. Topics include: How to build effective dual enrollment programs to motivate high school students in rural areas to pursue higher education; Why collaboration is crucial for institutions that apply for federal grant funding; Effective partnering with institutional research and technology departments to advance student services and college-wide strategic planning; How to infuse service learning into curricula to engage and encourage minority students at community colleges to focus their career aspirations; How to advance community college study abroad programs through collective participation of administrators and faculty and outside organizations; Creating and sustaining effective partnerships between a state and its local colleges. This is the 165th volume of the Jossey-Bass higher education quarterly report series. An essential guide for presidents, vice presidents, deans, and other leaders in today's open-door institutions, this quarterly provides expert guidance in meeting the challenges of their distinctive and expanding educational mission.

*Hiring the Next Generation of Faculty: New Directions for Community Colleges*, Number 152. Cejda, John P. Murray, 2011-01-18. The first chapter in this volume presents an overview of the faculty personnel challenges facing community colleges; the next three discuss the socialization and professional development of new faculty. Authors stress the importance of understanding differences among the types of community colleges and the importance of gender and racial/ethnic diversity among the faculty of the institutions who educate the majority of undergraduate females and students of

color The volume concludes with chapters on legal aspects related to the faculty employment and the experiences of presidents and senior instructional administrators giving valuable guidance to those actively involved in the hiring process At the heart of this volume is the continued commitment to the community college ideal of providing educational access and through quality instruction facilitating student learning and success Previous research indicated that community college faculty retire at or near the traditional age of sixty five With an aging faculty enrollments that are reaching unprecedented levels and the federal government calling for the community college to take an even greater role in workforce training community colleges will need to both replace significant portions of their faculty and hire additional faculty lines between now and 2020 This next hiring wave has implications for community colleges the diverse student populations who attend these institutions and society in general This is the 152nd volume of the Jossey Bass quarterly report series New Directions for Community Colleges Essential to the professional libraries of presidents vice presidents deans and other leaders in today's open door institutions New Directions for Community Colleges provides expert guidance in meeting the challenges of their distinctive and expanding educational mission
