England is the classic soil of this transformation which was all the mightier the more silently it proceeded and England is therefore the classic land of its chief product also the proletariat. Only in England can the proletariat be studied in all its relations and from all sides. We have not here and now to deal with the history of this revolution nor with its vast importance for the present and the future. Such a delineation must be reserved for a future more comprehensive work. For the moment we must limit ourselves to the little that is necessary for understanding the facts that follow for comprehending the present state of the English proletariat.
