**Community Colleges** Nacco, Stephen Damian,2024-04-29 In American higher education community colleges present new opportunities for many embodying the democratic essence since their early roots Originally conceived as junior colleges preparing students for university transfers these institutions have undergone a transformative journey evolving into the comprehensive open access pillars of education that define our present landscape Despite a shared mission a disparity exists among community colleges with some rising to prominence as leaders in the community college movement Amidst the challenges posed by the two World Wars economic fluctuations and societal shifts community colleges have adapted to serve diverse needs encompassing workforce development community education and developmental studies *Narratives and Strategies of Effective Leadership in Community Colleges* takes on the challenge faced by these institutions maintaining excellence amid the evolving demands of a dynamic society *Narratives and Strategies of Effective Leadership in Community Colleges* is a pivotal resource for higher education practitioners navigating the complex realm of leadership challenges in community colleges It portrays community colleges as national treasures in higher education Beyond mere success stories each chapter details the intricacies of effective leadership Targeting governing boards faculty leaders and administrators the book provides invaluable insights into strategic planning student support campus revitalization and financial management It serves as a crucial guide for those aspiring to elevate their institutions     **The Community College Baccalaureate**

Deborah L. Floyd,Michael L. Skolnik,Kenneth P. Walker,2023-07-03 Is the conferring of baccalaureate degrees by community

colleges a solution to increasing access to and capacity in higher education Will the conferring of baccalaureate degrees restrict open access to and imperil the existing mission of community colleges What are the models and alternative methods of delivery What are the implications Breaking away from their traditional mission of conferring only associate degrees and occupational credentials an increasing number of community colleges have begun seriously to explore and indeed in some U S states and Canadian provinces to actually implement offering and conferring bachelor s degrees Some leaders see these changes as a natural extension of community colleges commitment to access while others view their awarding of baccalaureate degrees as inappropriate and threatening the basic core values of this unique sector of higher education This has become a hot and controversial topic not only among community college and university leaders but also among policy makers business leaders and students concerned with issues of access cost and the structure and purposes of post secondary education This book analyzes the emerging trend of the community college baccalaureate degree in the United States and Canada in order to contribute to the development of policy The authors aim to describe document and explain this significant development in higher education They present the background examples of practice and different models of delivery develop a common terminology to facilitate discussion give voice to the views of proponents and critics alike and include a comprehensive bibliography and set of resources This book is intended as a catalyst for dialog action and further research on this critical and emerging trend It is essential reading for leaders of community colleges for administrators and planners in higher education concerned with issues of access and articulation and anyone in public policy grappling with demographic trends and society s need for educated citizens able to meet the challenges of the future *The Community College Story*

Vaughn, 2006-06-06 **The Knowledge Economy and Postsecondary Education** National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on the Impact of the Changing Economy on the Education System, 2002-05-11 The Workshop on the Knowledge Economy and Postsecondary Education documents changes seen in the postsecondary education system In her report Lisa Hudson focuses on who is participating in postsecondary education Tom Bailey concentrates on community colleges as the most responsive institutions to employer needs Carol Twigg surveys the ways that four year institutions are attempting to modify their curricular offerings and pedagogy to adapt those that will be more useful and Brian Pusser emphasizes the public s broader interests in higher education and challenges the acceptance of the primacy of job preparation for the individual and of market metaphors as an appropriate descriptor of American higher education An example of a for profit company providing necessary instruction for workers is also examined Richard Murnane Nancy Sharkey and Frank Levy investigate the experience of Cisco high school and community college students need to testify to their information technology skills to earn certificates Finally John Bransford Nancy Vye and Helen Bateman address the ways learning occurs and how these can be encouraged particularly in cyberspace *Community Engagement in Higher Education* W. James Jacob, Stewart E. Sutin, John C.

Weidman, John L. Yeager, 2015-06-17 There seems to be renewed interest in having universities and other higher education institutions engage with their communities at the local national and international levels But what is community engagement Even if this interest is genuine and widespread there are many different concepts of community service outreach and engagement The wide range of activity encompassed by community engagement suggests that a precise definition of the community mission is difficult and organizing and coordinating such activities is a complex task This edited volume includes 18 chapters that explore conceptual understandings of community engagement and higher education reforms and initiatives intended to foster it Contributors provide empirical research findings including several case study examples that respond to the following higher education community engagement issues What is the community and what does it need and expect from higher education institutions Is community engagement a mission of all types of higher education institutions or should it be the mission of specific institutions such as regional or metropolitan universities technical universities community colleges or indigenous institutions while other institutions such as major research universities should concentrate on national and global research agendas and on educating internationally competent researchers and professionals How can a university be global and at the same time locally relevant Is it or should it be left to the institutions to determine the scope and mode of their community engagement or is a state mandate preferable and feasible If community engagement or community service are mandatory what are the consequences of not complying with the mandate How effective are policy mandates and university engagement for regional and local economic development What are the principal features and relationships of regionally engaged universities Is community engagement to be left to faculty members and students who are particularly socially engaged and locally embedded or is it or should it be made mandatory for both faculty and students How can community engagement be better integrated with the other two traditional missions of the university research and teaching Cover image The Towering Four fold Mission of Higher Education by Natalie Jacob **History of Higher Education Annual 2002**

Roger L. Geiger, 2002-01-01 Recognizing Promise Michael A. Baston, Beatrice L. Bridgall, Michael Nettles, 2022-10-26 Recognizing Promise re establishes the role community colleges can play in reversing centuries of racial and gender disparities in economic wealth health education and life expectancy stemming from current and historical policies and practices that sustain structural racism *Where You Work Matters* Joan B. Hirt, 2006-03-02 This volume challenges the widely held assumption that the professional practice of student affairs administration transcends the influence of organizational culture Based on data and commentaries from more than 1 100 practitioners this book describes how the experience of student affairs administrators varies by institutional type The findings paint a multifaceted and integrated portrait of the profession For instance the standard bearers at liberal art colleges share as much in common with the generalists at comprehensive institutions as they do with the interpreters at religiously affiliated campuses The specialists at research universities are juxtaposed against the producers at community colleges however they have closer ties to the

change agents at Hispanic serving institutions The work of the guardians at historically Black colleges and universities is linked to practice at both liberal arts and community colleges Where You Work Matters offers current and future administrators a greater appreciation for the vibrancy and complexity of the student affairs profession **Higher**
