*The Community of Advantage* Robert Sugden, 2018-06-18 The Community of Advantage asks how economists should do normative analysis Normative analysis in economics has usually aimed at satisfying individuals preferences Its conclusions have supported a long standing liberal tradition of economics that values economic freedom and views markets favourably However behavioural research shows that individuals preferences as revealed in choices are often unstable and vary according to contextual factors that seem irrelevant for welfare Robert Sugden proposes a reformulation of normative economics that is compatible with what is now known about the psychology of choice The growing consensus in favour of paternalism and nudging is based on a very different way of reconciling normative economics with behavioural findings This is to assume that people have well defined latent preferences which because of psychologically induced errors are not always revealed in actual choices The economist s job is then to reconstruct latent preferences and to design policies to satisfy them Challenging this consensus The Community of Advantage argues that latent preference and error are psychologically ungrounded concepts and that economics needs to be more radical in giving up rationality assumptions Sugden advocates a kind of normative economics that does not use the concept of preference Its recommendations are addressed not to an imagined social planner but to citizens viewed as potential parties to mutually beneficial agreements Its normative criterion is the provision of opportunities for individuals to participate in voluntary transactions Using this approach Sugden reconstructs many of the normative conclusions of the liberal tradition He argues that a well functioning market economy is an institution that individuals have reason to value whether or not their preferences satisfy conventional axioms of rationality and that individuals motivations in such an economy can be cooperative rather than self interested

**Remains of a Self** Cathrine Bjørnholt Michaelsen, 2021-06-29 From the twentieth century in the twenty first psychoanalysis and deconstruction have challenged and continue to challenge our conceptions of subjectivity and selfhood Psychoanalysis revealed that even in our innermost households we are never quite alone rather instances of otherness incessantly interfere in our most intimate relation to ourselves forcing us to adapt continuously Deconstruction inheriting both this psychoanalytic disclosure and Heidegger s destruction of the history of metaphysics went to the foundations of the Western constructions of the subject and the self only to find how a destabilizing otherness was always already haunting them What if anything remains of the self in the aftermath Early on in the wake of deconstruction a certain misconceived and simplified notion of the death of the subject was proclaimed and in recent years more or less successful attempts have been made at reviving the notions of the subject the self and agency In contrast to these attempts at revival this book offers a two pronged approach On the one hand it argues that neither psychoanalysis nor deconstruction propounds a simple annihilation of the subject or liquidation of the self on the other hand however neither do they pave the way for a return to the subject or resurrection of the self that would allow us once again to become confident about our presence to ourselves Instead this book suggests that if we set ourselves the task of taking up the heritage from psychoanalysis and deconstruction in a serious manner we are obliged to retrace the subject and the self as undergoing perpetual auto deconstruction

**Scriptural Interpretation and Community Self-Definition in Luke-Acts and the Writings of Justin Martyr** Susan Wendel, 2011-02-14 Scholars of Christian origins often regard Luke Acts and the writings of Justin Martyr as similar accounts of the replacement of Israel by the non Jewish church According to this view both authors commandeer the Jewish scriptures as the sole possession of non Jewish Christ believers rather than of Jews Offering a fresh analysis of the exegesis of Luke and Justin this book uncovers significant differences between their respective depictions of the privileged status that Christ believers hold in relation to the Jewish scriptures Although both authors argue that Christ believers alone possess an inspired capacity to interpret the Jewish scriptures unlike Justin Luke envisages an ongoing role for the Jewish people as recipients of the promises that God pledged
