

View of the finished cottage from the street and chimney side of the two windows.

The comings and goings of sea captains inspired the doors of this cottage by the sea. Weary sailors would remember the meals served and the respite they would receive in such a home. As returned they might bring passengers from foreign lands to embellish the house. And so the imaginary captains' treasures were interpreted into its design—circular staircases from France, Palladian doors from Virginia, and a bay window from England.

The floor plans for the house and its basic dimensions are included so that you can copy them and build the house that suits you. The house is a basic Cape Cod which means it is a two-story house. Parts of the walls, with a few windows and a chimney, are added. Parts of the walls had to be cut away to make the window and the door. The end result is well worth the effort and time. The entire house and basic windows will be added, and the house will be a basic Cape Cod.

The basic structure of Marmont's house is perfect for anyone who has a small display space and wants a truly different style of structure for showcasing the wood in your home. The house is built to brick a chimney and a fireplace. However, in the center of the house is a fireplace.

Exterior View showing the chimney side of the house.
