The Resolution of Conflict Morton Deutsch,1973-01-01 The basic question to which this book is addressed is not how to eliminate or prevent conflict but rather how to make it productive or minimally how to prevent it from being destructive I shall not deal with situations of pure conflict in which inevitably one side loses what the other gains My interest is in conflict where there is a mixture of cooperative and competitive interests where a variety of outcomes is possible mutual loss gain for one and loss of the other and mutual gain Thus my query can be restated as an investigation of the conditions under which the participants will evolve a cooperative relationship or a competitive relationship in a situation which permits either from the introduction **Conflict and Poverty in Africa** Ebenezer Durojaye,Gladys Mirugi-Mukundi,John-Mark Iyi,Usang Maria Assim,2025-02-17 The contributors to this book examine the conceptual issues relating to the link between conflict and poverty as well as presenting case studies of countries often regarded as hot spots for conflict in Africa They also explore the roles of regional and sub regional bodies and institutions in addressing the causes of poverty and mitigating the impacts of conflict on vulnerable and marginalized groups Africa is often regarded as the epicentre of conflicts worldwide Virtually every part of the continent is currently engulfed in one form of conflict or another Beyond the loss of life conflicts have brought untold hardship to millions and have derailed social and economic development on the continent Written by African academics this book is divided into three sections the first of which discusses the factors that fuel conflicts and the nature and impacts of conflicts on vulnerable groups The second section comprises case studies of South Sudan Central African Republic Nigeria Ethiopia South Africa Uganda and Cameroon These countries are representative of the sub regional dynamics of Africa west east central and south reflecting the diversity of the continent The final section examines the role of key institutions and bodies in Africa in mitigating the impact of conflict on the socioeconomic lives of the people in the region Bodies discussed include the African Union Economic Community of West African States Southern African Development Community and the East African Community The book will be an invaluable resource for researchers academics and policymakers working in the areas of law political science human rights peace studies development studies and African studies **Ethnic Conflicts in Southeast Asia** Kusuma Snitwongse,Willard Scott Thompson,2005 Potentially destabilizing ethnic conflicts continue to challenge nation states worldwide The countries of Southeast Asia are no exception Globalization population movements and historical and political fault lines in a tremendously ethnically diverse region coupled with

What are the economic and poverty implications for Sudan if the conflict continues through 2024? Ahmed, Mosab,Raouf, Mariam,Siddig, Khalid,2025-02-04 The conflict in Sudan which started in April 2023 has led to severe economic repercussions sharply reducing the country s Gross Domestic Product GDP employment and household incomes and increasing the prevalence of poverty Using an updated economywide database for Sudan we ran an analysis of the likely economic impact of a continuation of the conflict through to the end of 2024 using two scenarios of extreme and moderate reductions in overall GDP These reductions are triggered mainly by the ongoing conflict which is causing additional cuts in the operations of business services and continuing disruptions to wholesale and retail services and manufacturing The results of the analysis show a 47 percent decline in Sudan s GDP under the extreme reduction scenario and a 13 percent decline under the moderate scenario relative to 2022 before the conflict began Under the extreme scenario the agrifood system GDP falls by 26 percent and employment by 50 percent with non farm jobs being more adversely affected Household incomes decline significantly across all quintiles and in both rural and urban areas with urban and richer households facing slightly higher reductions Less educated labor categories are severely affected while tertiary educated labor shows relative resilience Poverty rates have surged particularly in rural areas and among women with the national poverty rate estimated to have increased by 21 percentage points under the extreme reduction scenario To mitigate the widespread adverse impacts of the conflict on the Sudanese economy and foster long term resilience policies and interventions should prioritize the restoration of economic productivity provide support for the agrifood system and employment recovery strategies and ensure that social protection measures are accessible to all households facing increased deprivation
