Alternatives in Cancer Therapy offers help for all patients coping with cancer. The therapies discussed in this book are primarily non-toxic, have few if any side effects, and tend to strengthen the immune system. They can be used as supplemental regimens that help maximize the effectiveness of traditional therapies such as surgery, radiation, and chemotherapy. Patients have a right to know all of their treatment options, and Dr. Ross Pelton presents dozens of choices, including Shark Cartilage, Gerson Therapy, Mistletoe, Isoprinosine, Laetrile, Selenium, Beta Carotene, Hydrogen Peroxide, Vitamins C and E, and The Hoxsey Treatment. Non-traditional therapies can enhance the quality of life and improve overall health while treating the disease. Alternatives in Cancer Therapy provides information on the research, efficacy, potential side effects, and availability of each treatment.

Radical Healing Rudolph Ballentine, 1999. This extraordinary book offers nothing less than a new vision of medical care. Rudolph Ballentine, M.D., has created a unique integrative blending of the primary holistic schools of healing that is far more potent than any one of these alone. Like Deepak Chopra and Andrew Weil, Rudolph Ballentine is a medical doctor who became intrigued by the workings of mind-body medicine and looked beyond the West in his search for understanding. Drawing on thirty years of medical study and practice, Dr. Ballentine has accomplished a singular feat: integrating the wisdom of the great traditional healing systems—especially Ayurveda, homeopathy, Traditional Chinese Medicine, European and Native American herbology, nutrition, psychotherapy, and bodywork—melded together, the profound principles buried in these systems become clearer and stronger, and a new level of effectiveness becomes possible. Healing and reorganization are accelerated and deepened physically, emotionally, and spiritually. The result is transformation. The result is radical healing. Radical Healing harnesses nature's medicinal plants and other natural substances with commonsense essentials such as diet, exercise, and cleansing, as well as the most profound principles of spiritual and psychological transformation. In Dr. Ballentine's synthesis, illness is an opportunity for growth that can go far beyond recovery. Through radical healing, old habits and attitudes that supported the development of disease fall away to be replaced by the clarity that comes with a whole new way of being in the world.

When Healing Becomes a Crime Kenny Ausubel, 2000-05-01. A powerful and substantiated expose of the medical politics that prevents promising alternative cancer therapies from being implemented in the United States. Focuses on Harry Hoxsey, the subject of the author's award-winning documentary who claimed to cure cancer using herbal remedies. Presents scientific evidence supporting Hoxsey's cancer-fighting claims. Published to coincide with the anticipated 2000 public release of the government-sponsored report finding noteworthy cases of survival among Hoxsey patients. Harry Hoxsey claimed to cure cancer using herbal remedies, and thousands of patients swore that he healed them. His Texas clinic became the world's largest privately owned cancer center with branches in seventeen states, and the value of its therapeutic treatments was upheld by two federal courts. Even his arch nemesis, the AMA, admitted his treatment was effective against some forms of cancer. But the medical establishment refused an investigation, branding Hoxsey the worst cancer quack of the century and forcing his clinic to Tijuana, Mexico, where it continues to claim very high success rates. Modern laboratory tests have

confirmed the anticancer properties of Hoxsey's herbs and a federal government sponsored report is now calling for a major reconsideration of the Hoxsey therapy. When Healing Becomes a Crime exposes the overall failure of the War on Cancer while revealing how yesterday's unorthodox treatments are emerging as tomorrow's medicine. It probes other promising unconventional cancer treatments that have also been condemned without investigation delving deeply into the corrosive medical politics and powerful economic forces behind this suppression. As alternative medicine finally regains its rightful place in mainstream practice this compelling book will not only forever change the way you see medicine but could also save your life.

Choices in Healing Michael A. Lerner, 1996-02-28 Written by one of the country's leading authorities on alternative and complementary cancer treatments Choices in Healing is designed for the cancer patient or health professional who seeks a comprehensive overview of the available choices both in treatments and in living with cancer. Choices in Healing offers valuable information and guidance for the whole life cycle of cancer from the initial shock of diagnosis to decisions about choosing a physician and conventional therapies selecting complementary therapies coping with treatment and the art of living fully with the possibility of recurrence. There are detailed explanations and evaluations of a wide range of complementary therapy programs including spiritual and psychological approaches nutritional therapies physical therapies pharmacological therapies and traditional medicines from around the world. There are sections on prayer and other forms of spiritual healing psychotherapy support groups visual imagery and hypnosis massage therapeutic touch yoga and Qi Gong macrobiotic diet and other cancer diets acupuncture and Chinese herbal medicines and numerous other unconventional therapies used by American cancer patients. With an unusual combination of compassion and objectivity Michael Lerner describes his conclusions following more than a decade of study of unconventional cancer treatments in North America Europe India and Japan. He also draws extensively on his work with hundreds of cancer patients who have participated in the Commonwealth Cancer Help Programs the residential support program depicted by Bill Moyers in his 1993 PBS documentary Healing and the Mind.

Get Healthy Now! Gary Null, 2001 Updated and expanded paperback edition of Null's bestselling alternative health guide which has sold over 150,000 copies in hardback. Includes new chapters on Addicition Alzheimer's Asthma Attention Deficit Disorder Cancer Treatments Lupus and Parkinson's. Null demystifies sometimes confusing alternative therapies with his clear language and straightforward recommendations. A must have reference for every healthy bookshelf. Vegetarian Times.

Can Bacteria Cause Cancer? David J. Hess, 1997 To answer this intriguing question Hess takes us into the world of alternative cancer researchers. Maintaining that their work has been actively suppressed rather than simply dismissed Hess examines their claims that bacterial vaccines have led to some dramatic cases of long term cancer remission and the scientific potential of their theories. Economic interests and cultural values he demonstrates have influenced the rush toward radiation and chemotherapy and the current cul de sac of toxic treatments.
