more about tourism and European cities Plants and Habitats of European Cities John G. Kelcey, Norbert Müller, 2011-06-07 A collection of studies on the ecologies of European cities including Paris Zurich and Amsterdam among others Discussion includes the natural and historical development of each city local flora the environmental impact of city growth and environmental planning design and management *The Oxford Handbook of Postwar European History* Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the thirty five chapters of this book As well as diplomatic political institutional economic and social history The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe Vertebrates and Invertebrates of European Cities: Selected Non-Avian Fauna John G. Kelcey, 2015-10-19 Vertebrates and Invertebrates of European Cities Selected Non Avian Fauna is the first known account of the vertebrate and invertebrate fauna of several cities in Europe and throughout the rest of the world It excludes birds which are described in a companion volume The book contains eleven chapters about nine cities distributed throughout Europe The chapters start with the history of the cities which is followed by a description of the abiotic features such as geology climate air and water quality and then a brief account of the habitats The vertebrate chapters describe the fish amphibians reptiles and mammals that are known to occur in each city together with their status and the habitats in which they occur for example housing industrial areas parks transport routes and rivers The invertebrate chapters contain an account of the presence status and habitats occupied by 68 of the major invertebrate groups including butterflies dragonflies and damselflies crickets and grasshoppers beetles molluscs spiders mites and springtails This volume has been written and edited to be accessible to a wide range of interests and expertise including academic biologists urban ecologists landscape architects planners urban designers undergraduates other students and people with a general interest

in natural history especially cities not only in Europe but throughout the world **The Human Sustainable City** Bruno Forte, Maria Cerreta, Pasquale De Toro, 2019-06-04 This title was first published in 2003 Seven years after Habitat II culminated with the Istanbul agreement on Sustainable Urban Development this book brings together many of the world's leading experts from the fields of architecture urban planning economics sociology politics environment and geography to assess the successes and failures in fulfilling the objectives decided upon at this historic meeting Illustrated with a wide range of case studies this volume is divided into three main sections firstly examining the challenges secondly the approaches and finally the practices The book represents a critical appraisal not only of the issues related to urban development but also of the modalities to face these issues from real examples these in return can be used as starting points to construct new real utopias or at least to future best practices **The Routledge Handbook of Housing Policy and Planning** Katrin B. Anacker, Mai Thi Nguyen, David P. Varady, 2019-07-02 The Routledge Handbook of Housing Policy and Planning provides a comprehensive multidisciplinary overview of contemporary trends in housing studies housing policies planning for housing and housing innovations in the United States the United Kingdom and Continental Europe In 29 chapters international scholars discuss aspects pertaining to the right to housing inequality homeownership rental housing social housing senior housing gentrification cities and suburbs and the future of housing policies This book is essential reading for students policy analysts policymakers practitioners and activists as well as others interested in housing policy and planning Planting New Towns in Europe in the Interwar Years Helen Meller, Heleni Porfyriou, 2016-06-22 The key theme of the papers in this book concerns the prospects of building new urban environments and creating new societies in Europe during the interwar years The contributions do not focus on the system of government communist fascist or democratic but rather on what actually got built by whom and why and how the international communication of ideas was filtered through the prism of local concerns and culture As such the volume serves to tease out connections between urban form and social aspirations and between the moral basis of social planning and how it was interpreted Did the new towns of the interwar years actually create a planned society where visions met realities aided by the design of new urban forms This is one of the principal questions investigated by the contributors here in all the different political contexts of their chosen new towns **Building Resilient Cities in China: The Nexus between Planning and Science** Xueming Chen, Qisheng Pan, 2015-05-20 This book discusses a range of planning and management issues related to building urban resiliency It covers such topics as urban environmental and transportation planning historical preservation emergency relief and management geographic information systems GIS and other technological applications The book includes case studies of several cities and districts in China including Shanghai and a number of cities in the United States of America Urban resiliency in the face of uncertainty is a priority for planning and governance in communities worldwide In China which has suffered many of the world's most devastating floods earthquakes and typhoons preparing for the threat of disaster has long been an important

planning objective Recent calamities such as the 2008 Winter Storms the 2008 Wenchuan Earthquake and the 2012 Beijing Floods have only made planning for resiliency more urgent As planners work to prepare for such events interdisciplinary collaboration becomes increasingly important Planners need the tools and insights offered by other fields including both the natural and social sciences At the same time these interdisciplinary relationships help shape the identity of urban rural planning in its new role as one of China s primary academic disciplines Thus the nexus between planning and science is critically important in building resilient cities in China and the Chinese planning experience can serve as an example to and benefit countries around the world
