the turn of the last century Children's Play, Pretense, and Story Susan Douglas, Lesley Stirling, 2015-12-21 At the heart of this volume is the recognition that children's engagement with play and story are intrinsically and intricately linked. The contributing authors share a passionate interest in the development and well-being of children in particular through their use of imagination and adaptation of the everyday into play and stories. Following these principles, the volume explores the connections between play, story, and pretense with regard to many cultural and contextual factors that influence the way these elements vary in children's lives. In a departure from earlier collections on play and story, the authors take a particular focus on normative as compared with atypical development. This collection begins with an approach to understanding the developmental relationship between play and story which recognizes their similarities while acknowledging their differences. Much of the collection addresses pretend play and story in children with autism spectrum disorder, an understudied but important group for consideration as these dimensions of their lives and development have often been considered problematic. The volume also includes sections on play and story in classroom settings and play and story across cultures, including non-English speaking environments such as Israel, Romania, China, and Mexico. It concludes with a discussion of how play differs across sociocultural and economic contexts, making a unifying claim for the importance of play in children's lives but also calling for an understanding of what play means to very different groups of children.

Dinosaur Lake VII: The Aliens Return Kathryn Meyer Griffith, Ex Park Chief Ranger Henry Shore has had his share of adventures and trials. But for many years he had a good life with his wife Ann and his daughter Laura being Chief Ranger at Crater Lake National Park. His life was perfect. Then the dinosaurs came. With his rangers, he fought the prehistoric beasts for years in his park while outside the world also battled the malevolent creatures. He had one friend among the dinosaurs, little Oscar, who helped him and the other humans to fight and survive the dinosaur wars. During them, he lost his daughter. These days, Henry is recovering from the loss of his beloved wife Ann and trying to find purpose in his new lonely life. The year before, he'd been temporarily rescued from that sorrow by being drafted as a renowned dinosaur hunter and expert to help track down some of the last remaining rogue dinosaurs in the country and then later two of the wilier creatures loose and causing havoc at the government's secret Area 52. Area 52, where two mysterious ancient alien spaceships were housed and examined by a team of our scientists. Alien ships somehow suspected of being connected to the world's previous dinosaur scourge because of the ancient dinosaur DNA discovered in their labs. That assignment ended abruptly for Henry when the two alien aircrafts mysteriously vanished. Now Henry is home again and at loose ends. But when so many new menacing extraterrestrial spacecrafts begin to appear in Earth's air spaces and the alien abductions multiply, Henry is drafted yet again to help. For fear has rapidly spread across the world as more and more alien airships are sighted everywhere. Why are so many alien ships suddenly harassing our planet and what do they want? It won't take long before the world, with Henry and an old friend's help, finds out. Then they have to figure out how to appease the aliens or the Earth could be doomed. 2050 Joon Tae
