A Genealogy of the Verse Novel Catherine Addison, 2017-11-06 The present age has seen an explosion of verse novels in many parts of the world Australia is a prolific producer as are the USA and the UK Novels in verse have also appeared in Canada New Zealand India South Africa Jamaica and several other countries A novel written in verse contradicts theories that distinguish the novel as essentially a prose genre The boundaries of prose and verse are however somewhat fluid This is especially evident in the case of free verse poetry and the kinds of prose used in many Modernist novels The contemporary outburst may seem a uniquely Postmodernist flouting of generic boundaries but in fact the verse novel is not new Its origins reach back to at least the eighteenth century Byron's *Don Juan* in the early nineteenth century was an important influence on many later examples Since its first surge in popularity during the Victorian era it has never died out though some fine examples most of them from the earlier twentieth century have been neglected or forgotten This book investigates the status of the verse novel as a genre and traces its mainly English language history from its beginnings The discussion will be of interest to genre theorists prosodists narratologists and literary historians as well as readers of verse novels wishing for some background to this apparently new literary phenomenon

Collusions of Fact and Fiction traces a generational shift in late twentieth century African American cultural engagements with the history and legacies of transatlantic slavery With a focus on works by playwright Suzan-Lori Parks and visual artist Kara Walker the book explores how in comparison to the first wave of neo slave narratives of the 1970s and 1980s artists of the 1990s and early 2000s tend to approach the past from the vantage point of a liberal entanglement of fact and fiction as well as a highly playful often humorous and sometimes irreverent signifying on entrenched motifs iconographies and historiographies Saal argues that the attempt to reconstruct or recuperate the experience of African Americans under slavery is no longer at stake in the works of artists growing up in the post Civil Rights era Instead they lay bare the discursive dimension of our contemporary understanding of the past and address the continued impact of its various verbal and visual signs upon contemporary identities In this manner Parks and Walker stake out new possibilities for engaging the past and inhabiting the present and future *Radical as Reality* Peter Champion, 2019-10-17

What do American poets mean when they talk about freedom How can form help us understand questions about what shapes we want to give our poetic lives and how much power we have to choose those shapes For that matter what do we even mean by we In this collection of essays Peter Champion gathers his thoughts on these questions and more to form an evolutionary history of the past century of American poetry Through close readings of the great modernists midcentury objectivists late twentieth century poets his

contemporaries and more Campion unearths an American poetic landscape that is subtler and more varied than most critics have allowed He discovers commonalities among poets considered opposites dramatizes how form and history are mutually entailing and explores how the conventions of poetry its inheritance and its inventions sprang from the tensions of ordinary life At its core this is a book about poetic making one that reveals how the best poets not only receive but understand and adapt what comes before them reinterpreting the history of their art to create work that is indeed radical as reality
