**Gender, Society, and Economic Life in Byzantium** Angeliki E. Laiou,1992 The studies in this volume reflect the author's interest in history as it was lived not only the social and economic structures but the men and women collectively and individually who made them function The role of women in Byzantine economy and society is found to be much more important than had been believed their participation in trade and manufacturing is established as is the role of aristocratic women in the economic affairs of the household the question of female literacy is also discussed Two studies on the Byzantine family based in large part on the legal sources examine the formation of matrimonial ties as well as the practice of divorce and concubinage in the 13th century The second part of the volume is focused on the economy of exchange in Byzantium between 1204 and the fall of the Empire Byzantine trade and manufacturing are placed in the context of the economic developments of the eastern Mediterranean with the conclusion that whereas the activities of Byzantine and Greek merchants were much more considerable than scholars had thought they were subordinated to the needs of the Italian dominated trade system while Byzantine manufacturing declined Les études assemblées dans ce volume reflètent l'intérêt de leur auteur pour l'histoire telle qu'elle tait vue non seulement en ce qui concerne les structures sociales et économiques mais aussi les hommes et les femmes collectivement et individuellement qui permettaient celles-ci de fonctionner Le rôle des femmes dans la société et l'économie byzantine se révèle comme ayant beaucoup plus d'importance qu'on ne le pensait auparavant leur participation au commerce et à l'industrie est un fait tabli tout comme l'est le rôle des femmes aristocrates dans les affaires économiques du foyer Le thème de l'alphabétisation des femmes est aussi souvent étudié sur la famille byzantine se basant en grande partie sur des sources grecques et latines Exploring the Economy of Late Antiquity Jairus Banaji,2016 This book contributes to a new economic history of late antiquity with tightly argued stimulating studies of class money and exchange

**Money in Medieval Greece 1200-1430 (2 vols.)** Julian Baker, 2020-10-20 Coinage and Money in Medieval Greece 1200-1430 by Julian Baker is a monetary history of medieval Thessaly mainland Greece and the Peloponnese Epiros and adjacent islands. The central focus of the book is the record of coin finds and coin types which this study presents in a fully developed political socio economic military and archaeological topographical context. In medieval Greece there is a strong symbiosis between monetary and historical developments. The general level of documentation is also vastly superior to the preceding middle Byzantine period. Volume Two presents and evaluates these data. Volume One offers analyses on major historical themes which demonstrate that the monetary sources can hold narratives in their own rights complementing and at times contradicting the established accounts. This volume was awarded the Médaille Allier de Hauteroche de l'Académie des Inscriptions et Belles Lettres in 2021. Merci à M. Julian Baker pour son ouvrage en 2 volumes intitulé *Coinage and Money in Medieval Greece 1200-1430*. Leyden: Brill, 2020.

Forty-four essays consider historical and thematic aspects of the Catholic, Eastern Orthodox, Oriental Orthodox, Protestant, and Anglican traditions as well as contemporary new monasticism.

**University of Wisconsin Studies in the Social Sciences and History**, 1929 **A Cumulative Bibliography of Medieval Military History and Technology, Update 2003-2006** Kelly DeVries, 2008-01-31 This is the second update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002. It is meant to do two things: to present references to works on medieval military history and technology not included in the first two volumes; and to present references to all books and articles published on medieval military history and technology from 2003 to 2006. These references are divided into the same categories as in the first two volumes and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages. It also continues to cover the same geographical area as the first and second volume in essence Europe and the Middle East or again influences on and from this area. The languages of these bibliographical references reflect this geography.

**The Chronographia of George the Synkellos and Theophanes** Jesse W. Torgerson, 2022-07-25 The ninth century Chronographia of George the Synkellos and Theophanes is the most influential historical text ever written in medieval Constantinople. Yet modern historians have never explained its popularity and power. This interdisciplinary study draws on new manuscript evidence to finally animate the Chronographia's promise to show attentive readers the present meaning of the past. Begun by one of the Roman emperor's most trusted and powerful officials in order to justify a failed revolt, the project became a shockingly ambitious rewriting of time itself: a synthesis of contemporary history, philosophy, and religious practice into a politicized retelling of the human story. Even through radical upheavals of the Byzantine political landscape, the Chronographia's unique historical vision again and again compelled new

readers to chase after the elusive Ends of Time      **Social, Economic and Political Life in the Byzantine Empire** Peter Charanis,1973      *Chios dicta est... et in Aegaeo sita mari: Historical Archaeology and Heraldry on Chios* Ioanna Koukouni,2021-06-03 This book discusses the archaeology and history of the Greek island of Chios during the Byzantine and Genoese periods focusing on Mount Amani Harsh remote and poor Mount Amani is nevertheless surprisingly rich in material for the landscape archaeologist and the student of historical topography yet until now unknown in scholarly literature      **A Brief History of Commercial Capitalism** Jairus Banaji,2020-07-07 The rise of capitalism to global dominance is still largely associated by both laypeople and Marxist historians with the industrial capitalism that made its decisive breakthrough in 18th century Britain Jairus Banaji's new work reaches back centuries and traverses vast distances to argue that this leap was preceded by a long era of distinct commercial capitalism which reorganised labor and production on a world scale to a degree hitherto rarely appreciated Rather than a picture centred solely on Europe we enter a diverse and vibrant world Banaji reveals the cantons of Muslim merchants trading in Guangzhou since the eighth century the 3 000 European traders recorded in Alexandria in 1216 the Genoese Venetians and Spanish Jews battling for commercial dominance of Constantinople and later Istanbul We are left with a rich and global portrait of a world constantly in motion tied together and increasingly dominated by a pre industrial capitalism The rise of Europe to world domination in this view has nothing to do with any unique genius but rather a distinct fusion of commercial capitalism with state power      *Pseudo-Kodinos and the Constantinopolitan Court: Offices and Ceremonies* Ruth Macrides,J.A. Munitiz,Dimiter Angelov,2016-09-17 The work known as Pseudo Kodinos the fourteenth century text which is one of two surviving ceremonial books from the Byzantine empire is presented here for the first time in English translation With facing page Greek text and the first in depth analysis in the form of commentary and individual studies on the hierarchy the ceremonies court attire the Blachernai palace lighting music gestures and postures this volume makes an important new contribution to the study of the Byzantine court and to the history and culture of Byzantium more broadly The unique traits of this ceremony book include the combination of hierarchical lists of court officials with protocols of ceremonies a detailed description of the clothing used at court in particular hats and staffs an account of the functions of the court title holders a description of the ceremonies of the year which take place both inside the palace and outside the service of the megas domestikos in the army protocols for the coronation of the emperor the promotions of despot sebastokrator and caesar of the patriarch a description of the mourning attire of the emperor protocol for the reception of a foreign bride in Constantinople all these are analysed here Developments in ceremonial since the tenth century Book of Ceremonies are discussed as is the space in which ceremonial was performed along with a new interpretation of the other palace the Blachernai The text reveals the anonymous authors interest in the past in the origins of practices and items of clothing but it is argued that Pseudo Kodinos presents descriptions of actual practice at the Byzantine court rather than prescriptions      **Literary Circles in Byzantine Iconoclasm** Óscar Prieto

Domínguez,2021-02-04 Iconoclasm was the name given to the stance of that portion of Eastern Christianity that rejected worshipping God through images eikones representing Christ the Virgin or the saints and was the official doctrine of the Byzantine Empire for most of the period between 726 and 843 It was a period marked by violent passions on either side This is the first comprehensive account of the extant contemporary texts relating to this phenomenon and their impact on society politics and identity By examining the literary circles emerging both during the time of persecution and immediately after the restoration of icons in 843 the volume casts new light on the striking re construction of Byzantine society whose iconophile identity was biasedly redefined by the political parties led by Theodoros Stoudites Gregorios Dekapolites and Empress Theodora or the patriarchs Methodios Ignatios and Photios It thereby offers an innovative paradigm for approaching Byzantine literature

**Studies in the Social Sciences and History** University of Wisconsin,1929    Economic Thought and Economic Life in Byzantium Angeliki E. Laiou,2013 Angeliki Laiou 1941 2008 one of the leading Byzantinists of her generation broke new ground in the study of the social and economic history of the Byzantine Empire Economic Thought and Economic Life in Byzantium the last of three volumes to be published posthumously in the Variorum Collected Studies Series brings together twelve articles that reflect her perennial concern with the relationship of theory and practice in historical contexts Two of these are translated from Greek and German respectively and another is here published for the first time The six articles in the first part explore several lively and wide ranging debates over economic concepts and practices in late medieval Byzantium touching on such concerns as usury regalian rights and the proper functioning of the market The articles in the second part examine the nature and role of cities villages and the countryside in Byzantium together with the rich and varied experiences of their inhabitants

**Christian Russia in the Making**

Andrzej Poppe,2023-05-31 The present collection of studies by Andrzej Poppe in many ways represents a continuation of the research brought together a quarter century ago in the author's previous Variorum volume The focal themes are the political circumstances of the baptism of Russia and the processes by which Rus became a Christian country an era marked by the emergence of indigenous saints in royal and monastic garb Relations with the Byzantine world both political and ecclesiastical are often to the fore but as Poppe shows those with the West from the Carolingians onwards were important too Many of the articles are provided with additional notes and the volume includes three pieces previously unpublished in English including an introductory survey of the Rurikid dynasty and a major new study of the process by which Vladimir the Great became a saint
