

The background of the slide is a painting of a coastal landscape. In the foreground, there is a body of water with a small boat. In the middle ground, a lighthouse sits on a grassy cliff. The sky is filled with soft, white clouds. The overall color palette is dominated by greens, yellows, and whites.

**Social and Political Philosophy** Andrea Veltman, 2008 *Social and Political Philosophy Classic and Contemporary Readings* is a comprehensive reader that offers a carefully balanced perspective of modern day social and political philosophy and the ways in which classic thought has shaped it Editor Andrea Veltman seamlessly integrates the work of contemporary philosophers Canadian scholarship and feminist perspectives with some of the most valued readings in political thought Suited to both one and two semester courses *Social and Political Philosophy* is a uniquely Canadian text that brings fresh insight into many of the issues facing today's society Pedagogical features including biographical sketches recommended readings and end of chapter review questions engage readers and helps students foster important connections between the past and present

**Contemporary Perspectives in Philosophy and Methodology of Science** Wenceslao J. González, 2006 Nowadays philosophy and methodology of science appear as a combination of novelty and continuity This blend is clear both in the general approaches to science those thought of as any science and in the specific perspectives on every science either formal or empirical There are new topics for philosophical reflection such as key issues in philosophy of medicine and central problems raised by neuroscience Thus new contents have brought attention to aspects that previously went almost unnoticed In addition there are new angles for philosophical study such as the repercussion of society on scientific activity in aims processes and results But the background of the main philosophical and methodological trends of the twentieth century is in many ways still in place

**Morality and Spirituality in the Contemporary World** Chandana Chakrabarti, 2012-12-07 The contemporary world faces a number of problems that are both deep seated and interrelated since they arise from the very nature of technological society The environment upon which all life depends is seriously threatened by climate change rising sea levels pollution overpopulation resource depletion and increased risks of droughts forest fires floods and other extreme weather events Environmental degradation is intimately connected to the consumer lifestyle of developed countries This lifestyle promotes materialism entertainment and hedonistic superficiality that ultimately lead to moral corruption Our insensitive and destructive attitude towards nature is not isolated or unrelated to other problems of social justice The environmental crisis reflects human structures of domination that include political and economic exploitation racism sexism and ageism These challenges are immense and solutions to them will

require a renewed dedication to moral reflection and a commitment to social justice This book discusses the challenges in connection with topics such as human rights economic exploitation and inequality environmental protection globalization global food justice technology gender equality and ageism It provides a plurality of moral and spiritual perspectives including Hinduism Buddhism Daoism and Christianity that offer guidance in finding responses that are both possible and reasonable

**Social and political philosophy** ,2008      **Poverty and Inequality** David B. Grusky,S. M. Ravi Kanbur,Amartya Kumar Sen,2006 This is a collection of essays from leading public intellectuals that identifies major conceptual problems in the analysis of poverty and inequality and advances strategies for reducing poverty and inequality that are consistent with these new conceptual and methodological approaches      **Reflections on Ethics and Responsibility** Zachary J.

Goldberg,2017-02-06 The original essays in this book address the influential writings of Peter A French on the nature of responsibility ethics and moral practices French s contributions to a wide spectrum of philosophical discussions have made him a dominant figure in the fields of normative ethics meta ethics applied ethics as well as legal and political philosophy Many of French s deepest insights come from identifying and exploring the scope and nature of moral responsibility and human agency as they appear in actual events real social and cultural practices as well as in literature and film This immediacy renders French s scholarship vital and accessible to a wide variety of audiences The authors recognized for their own contributions to the understanding of the nature of morality and moral practices offer new and unique positions while exploring expanding and responding to those of French The final chapter is written by French in which he provides both new philosophical insight as well as some reflection on his own work and its influence This book will appeal to philosophers as well as advanced students and researchers in the humanities social sciences law and political science      Justice and

Desert-Based Emotions Kristján Kristjánsson,2017-03-02 The clear message proposed in this book is that justice matters for morality and desert matters for justice and that emotions matter for desert justice and morality Moreover and no less importantly justice education needs to take all those facts into consideration Kristj n Kristj nsson s new book falls on the cutting edge of the latest developments in justice discourse both in philosophy and in the social sciences Written from a philosophical perspective it gives an accessible but penetrating exploration of various interlocking and interdisciplinary themes relating to justice Kristj nsson justifies the necessary interplay between philosophers and social scientists dealing with justice probes the role of desert in justice and explains the rising interest in the emotionality of justice He then analyses the main desert based emotions connects his discussion to recent trends in developmental and social psychology offers a moral justification of desert and desert based emotions and concludes by applying all those ideas in a close study of how justice and desert should be handled in moral education at school Kristj nsson deftly weaves together insights from disparate academic areas relevant for justice in general and desert in particular This is an engaging eye opening and provocative book that should excite anyone interested in justice discourse and help generate debate in different areas related to justice

Popular Culture      **A Just Society** Michael Boylan, 2004-07-13 A Just Society represents a complete account of Boylan's original worldview theory of ethics and social philosophy. The author sets out the foundation and application of the personal worldview imperative for ethics and the shared community worldview imperative for social philosophy. These form the structure for a rights-based deontological theory that is holistic and underscored by an understanding of the good will that incorporates novel depictions of the sincere and authentic agent who displays sympathy, care, openness, and love. In the end, A Just Society strikes a balance between extreme liberalism, libertarianism, and those advocating the rule of the general will, utilitarianism. As such, the book makes an important contribution to ethical and political theory as well as grounding an original approach to public philosophy.

The Pursuit of Justice James P. Sterba, 2013-12-18 The Pursuit of Justice: A Personal Philosophical History is a collection of renowned scholar and philosopher James P. Sterba's finest works, essays spanning the full spectrum of his illustrious career along with new scholarship on the enduring struggle for justice we face as a society and as individuals in the modern world. That struggle or pursuit may be ongoing, but as this book details, it has come a long way, and that progress, however frustrating it may be to obtain and secure, is a testament to the work to which scholars like Sterba have devoted their lives and careers. In Sterba's case, that pursuit begins with an analysis of the concept of desert that is thought to be at the core of justice. It provides accounts of retributive and distributive justice and contains a response to the egoist who seeks to undermine any such endeavor. It broadens to include feminist justice, environmental justice, racial justice, and justice for distant peoples and future generations. It is a pursuit that all are invited, even required, to join and make their very own.

Hegel and the Metaphysical Frontiers of Political Theory Eric Goodfield, 2014-06-27 For over one hundred and fifty years, G. W. F. Hegel's ghost has haunted theoretical understanding and practice. His opponents, first and later his defenders, have equally defined their programs against and with his. In this way, Hegel's political thought has both situated and displaced modern political theorizing. This book takes the reception of Hegel's political thought as a lens through which contemporary methodological and ideological prerogatives are exposed. It traces the nineteenth-century origins of the positivist revolt against Hegel's legacy forward to political science's turn away from philosophical tradition in the twentieth century. The book critically reviews the subsequent revisionist trend that has eliminated his metaphysics from contemporary considerations of his political thought. It then moves to re-evaluate their relation and defend their inseparability in his major work on politics, the *Philosophy of Right*. Against this background, the book concludes with an argument for the inherent metaphysical dimension of political theorizing itself. Goodfield takes Hegel's reception, representation, as well as rejection in Anglo-American scholarship as a mirror in which its metaphysical presuppositions of the political are exceptionally well reflected. It is through such reflection, he argues, that we may begin to come to terms with them. This book will be of great interest to students, scholars, and readers of political theory and philosophy, Hegel, metaphysics, and the philosophy of the social sciences.

*Hannah Arendt and the History of Thought* Daniel Brennan, Marguerite La Caze, 2022-06-14 Hannah

Arendt and the History of Thought edited by Daniel Brennan and Marguerite La Caze enriches and deepens scholarship on Arendt's relation to philosophical history and traditions. Some contributors analyze thinkers not often linked to Arendt such as William Shakespeare, Hans Jonas, and Simone de Beauvoir. Other contributors treat themes that are pressing and crucial to understanding Arendt's work such as love in its many forms, ethnicity and race, disability, human rights, politics, and statelessness. The collection is anchored by chapters on Arendt's interpretation of Kant and her relation to early German Romanticism and phenomenology, while other chapters explore new perspectives such as Arendt and film, her philosophical connections with other women thinkers, and her influence on Eastern European thought and activism. The collection expands the frames of reference for research on Arendt both in terms of using a broader range of texts like her *Denktagebuch* and in examining her ideas about judgment, feminism, and worldliness in this wider context.

Application Of Zakat: From Classical And Contemporary Perspective M Kabir Hassan, Magda Ismail Abdel Mohsin, Aishath Muneeza, 2024-02-08. Zakat, being the third pillar of Islam, is an act of worship fulfilled by Muslims. As an obligatory means of alms-giving expected of Muslims, it also helps to alleviate poverty in society by assisting such individuals to achieve a state of financial independence. It is maintained by Muslims that the principles of zakat derived from the Sharia are expected to remain unchanged with passing time. However, in order to achieve efficiency in the administration of zakat, innovation and technology can be used even within the parameters of Sharia. The objective of this textbook is to provide the opportunity to learn the basics of zakat and its contemporary application by highlighting the innovative practices of zakat with issues and challenges.

*Concepts of Cabralism* Reiland Rabaka, 2014-07-16. By examining Amílcar Cabral's theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory, *Concepts of Cabralism* Amílcar Cabral and *Africana Critical Theory* simultaneously reintroduces chronicles and analyzes several of the core characteristics of the *Africana* tradition of critical theory. Reiland Rabaka's primary preoccupation is with Cabral's theoretical and political legacies; that is to say, with the ways in which he constructed, deconstructed, and reconstructed theory and the aims, objectives, and concrete outcomes of his theoretical applications and discursive practices. The book begins with the Negritude Movement and specifically the work of Léopold Senghor, Aimé Césaire, and Jean-Paul Sartre. Next, it shifts the focus to Frantz Fanon's discourse on radical disalienation and revolutionary decolonization. Finally, it offers an extended engagement of Cabral's critical theory and contributions to the *Africana* tradition of critical theory. Ultimately, *Concepts of Cabralism* chronicles and critiques, revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism, African nationalism, and Pan-Africanism, but also contemporary efforts to create a new anti-racist, anti-sexist, anti-capitalist, anti-colonialist, and anti-imperialist critical theory of contemporary society, what has come to be called *Africana critical theory*.
