The Quest for Modernity Roel Meijer, 2018-10-24 This book analyses the political ideologies of the several highly influential liberal socialist and communist thinkers groups and movements which sought to modernize Egypt after World War II Most of the representatives of these currents intended to transform Egyptian society completely through rapid industrialization land reforms and economic planning which would eliminate the peasantry rationalize the economy and create a new Egyptian citizen who would live in accordance with the spirit of the age This study explains why and how most liberal and left wing intellectuals eventually supported the authoritarian modernization programme of the July Revolution of 1952 It gives new insights into intellectual life during one of the most optimistic periods in Egyptian history a time when Egypt was at the height of its power and believed a whole new future lay before it uniting the Arab world and joining Asia and Africa in the common struggle for independence and dignity

Policing Chinese Politics Michael Robert Dutton, 2005 Beginning with the bloody communist purges of the Jiangxi era of the late 1920s and early 1930s and moving forward to the wild excesses of the Cultural Revolution *Policing Chinese Politics* explores the question of revolutionary violence and the political passion that propels it Who are our enemies who are our friends that is a question germane to the revolution wrote Mao Zedong in 1926 Michael Dutton shows just how powerful this one line was to become It would establish the binary division of life in revolutionary China and lead to both passionate commitment and revolutionary excess The political history of revolutionary China he argues is largely framed by the attempts of Mao and the Party to harness these passions The economic reform period that followed Mao Zedong's rule contained a hint as to how the magic spell of political faith and commitment could be broken but the cost of such disenchantment was considerable This detailed empirical tale of Chinese socialist policing is therefore more than simply a police story It is a parable that offers a cogent analysis of Chinese politics generally while radically redrafting our understanding of what politics is all about Breaking away from the traditional elite modes of political analysis that focus on personalities factions and betrayals and from rational accounts of politics and government Dutton provides a highly original understanding of the far reaching consequences of acts of faith and commitment in the realm of politics [Bibliography of Historical Works](#)
