The Community:

Promoting Health at the Community Level Doug Easterling, Kaia Gallagher, Dora Lodwick, 2003-05-28 *Promoting Health at the Community Level* speaks directly to the challenges that foundations and funding agencies face in supporting the work of community based groups. The seven case studies included in the book correspond to different multi site initiatives funded by The Colorado Trust a Denver based health foundation. Each case study describes the initiative approach the type of health promotion activities developed by community based grantees the various resources and guidelines provided by the foundation the initial outcomes of the initiative and lessons learned. In addition the final chapter pulls together the findings from the seven case studies into a summary set of recommendations for grantmakers addressing issues such as the level and duration of funding different approaches to technical assistance networking among grantees and the development of healthy funder grantee relationships. This book is the first book to provide a systematic examination of community based health promotion. Edited by Doug Easterling Kaia Gallagher and Dora Lodwick this innovative text uses seven case studies to evaluate community driven health promotion and present promising strategies for initiating and sustaining community based efforts. Individual chapters describe real world multi site health initiatives and summarize their evaluation outcomes. Presenting different funding scenarios within varying community settings the case studies cover a wide range of topics including School health education Teen pregnancy prevention Volunteer service for rural seniors Violence prevention Home visitation services. *Promoting Health at the Community Level* illustrates a number of different strategies for strengthening the capacity of community based organizations to develop and implement health promotion programs. The editors provide knowledge based approaches to encouraging local leaders nurturing appropriate networks and creating health promotion programs suited to unique community contexts. Offering unique lessons for community based coalitions and supportive organizations this book will also inspire academics and students to further explore this innovative approach to health promotion and disease prevention.

Managing Mental Health in the Community Angela Foster, Dr Vega Zagier Roberts, Vega Zagier Roberts, 2003-09-02 *Managing Mental Health in the Community* is a guide to best practice in the management of community care for people with mental health problems. A major theme is how to balance the triangle of care that represents the needs and concerns of the user carer professional or family and community. Rather than focusing on the mechanics of the task this book aims to encourage reflective practice amongst staff managers and policy makers. The experienced practitioners who contribute not only challenge some of the assumptions prevalent in the field but also present some tried and tested interventions used to enable users staff and managers to function more effectively in community settings. They consider how community care has developed the fundamental concepts of community care how management is affected by practice how care systems are designed. *Managing Mental Health in the Community* should be essential reading for Mental Health Practitioners Managers Social Workers Policy Makers Organizational Consultants and all those

professionals who are committed to improving the quality of mental health services provided in the community

Academic Advising in the Community College Terry U. O'Banion,2019-12-10 Academic advising is the second most important function in the community college If it is not conducted with the utmost efficiency and effectiveness the most important function in the college instruction will fail to achieve its purpose of ensuring that students succeed in navigating the curriculum to completion The purpose of academic advising is to help students select a program of study to meet their life and vocational goals As such academic advising is a central and important activity in the process of education Academic advising occurs at least once each term for every student in the college few student support functions occur as often or affect so many students But while there is general agreement concerning the importance of academic advising for the efficient functioning of the institution and the effective functioning of the student there is little agreement regarding the nature of academic advising and who should perform the function In this seminal work on academic advising the authors of three overarching chapters address the key issues and challenges of academic advising followed by the authors of four of the most innovative and successful programs of academic advising in the nation **Alleged Personnel Abuses in the Community**

The Community Forests of Mexico David Barton Bray, Leticia Merino-Pérez, Deborah Barry, 2005-08-01 This is an important and comprehensive book that is timely original and of uniformly high quality There is relatively little familiarity outside of Mexico with the incredibly rich experience of community forest management there Certainly no comprehensive review such as this book exists that covers so many aspects of the subject The book will appeal to scholars from both social and biophysical sciences interested in forest management and in broader conservation and development issues Marianne Schmink Director of the Center for Latin American Studies Tropical Conservation and Development Program University of Florida Mexico leads the world in community management of forests for the commercial production of timber Yet this success story is not widely known even in Mexico despite the fact that communities around the globe are increasingly involved in managing their own forest resources To assess the achievements and shortcomings of Mexico's community forest management programs and to offer approaches that can be applied in other parts of the world this book collects fourteen articles that explore community forest management from historical policy economic ecological sociological and political perspectives The contributors to this book are established researchers in the field as well as many of the important actors in Mexico's nongovernmental organization sector Some articles are case studies

of community forest management programs in the states of Michoacán Oaxaca Durango Quintana Roo and Guerrero Others provide broader historical and contemporary overviews of various aspects of community forest management As a whole this volume clearly establishes that the community forest sector in Mexico is large diverse and has achieved unusual maturity in doing what communities in the rest of the world are only beginning to explore how to balance community income with forest conservation In this process Mexican communities are also managing for sustainable landscapes and livelihoods Essential Services of the Community Mental Health Center National Institute of Mental Health (U.S.),1968 **Rehabilitating and Resettling Offenders in the Community** Anthony H. Bureau of Prisons,Gerald A. Collins,Mark S. Richmond,1972 Community based small residential centers have been visualized as a bridge back to the community a sound concept for many but not all offenders To assume that an offender will be so grateful for the opportunity to remain in the community that they will automatically and immediately become productive responsible and law abiding cannot be anticipated The success of a community residential center depends upon a carefully conceived program resolutely and skillfully administered The following pages will be devoted to the principles and details of planning and operating community residential centers Special attention is given to the importance of a careful definition of the purposes of a center before planning begins **Mental Health in the Service of the Community** Robert H.
