The A to Z of Shamanism Graham Harvey,Robert J. Wallis,2010-04-01 Few religious traditions have generated such diversity and stirred imaginations as shamanism In their engagements with other worlds shamans have conversed with animals and ancestors and have been empowered with the knowledge to heal patients advise hunters and curse enemies Still other shamans aided by rhythmic music or powerful plant helpers undertake journeys into different realities where their actions negotiate harmony between human and other than human communities Once relegated to paintings on cave walls today Shamanism can be seen in performances at rave clubs and psychotherapeutic clinics The A to Z of Shamanism has the dual task of exploring the common ground of shamanic traditions and evaluating the diversity of both traditional indigenous

communities and individual Western seekers This is done in an introduction a bibliography a chronology and hundreds of cross referenced dictionary entries which explore the consistent features of a variety of shamans the purposes shamanism serves the function and activities of the shaman and the cultural contexts in which they make sense *Anvil of God* J. Boyce Gleason,2013-07-29 It is 741 After subduing the pagan religions in the east halting the march of Islam in the west and conquering the continent for the Merovingian kings mayor of the palace Charles the Hammer has one final ambition the throne Only one thing stands in his way he is dying Charles cobbles together a plan to divide the kingdom among his three sons betroth his daughter to a Lombard prince to secure his southern border and keep the Church unified behind them through his friend Bishop Boniface Despite his best efforts the only thing to reign after Charles s death is chaos His daughter has no intention of marrying anyone let alone a Lombard prince His two eldest sons question the rights of their younger pagan stepbrother and the Church demands a steep price for their support Son battles son Christianity battles paganism and Charles s daughter flees his court for an enemy s love Based on a true story *Anvil of God* is a whirlwind of love honor sacrifice and betrayal that follows a bereaved family s relentless quest for power and destiny *Witchcraft Today - 60 Years On* Trevor Greenfield,2014-06-27 In the sixty years following the publication of Gerald Gardner s *Witchcraft Today* new paths have appeared and older ones emerged out of the shadow of repression and illegality to express with a new and more confident voice their beliefs and practice and share with a steadily growing audience their knowledge their certainties their questions and their vision This book is a celebration of some of the many paths that Witchcraft Wicca has taken and of the journeys that people have embarked upon *A Journey Along a Runic Path* KIM OGREN,2019-06-12 A Journey on a Runic Path is the study of Norse Runes Their history uses creation and much more **Rune3Master - Into the Depths** Brad Lorenz,2010-12-21 Seldom is humanity shocked by a revelation so profound We are now in the twenty first century and the runes are an enigma of the modern age Amid an extensive body of work that has enveloped these ancient glyphs none consider the importance of geometry to analyse their shapes for consistencies that may reveal an underlying intelligence In the eyes of science runic geometry has little value Science has conceptualised the rune without considering the significant function of geometry a naive and erroneous approach Runic symbols are predominantly linear built up from a mixture of vertical and or diagonal lines that coalesce to give the rune its characteristic shape While science believes this peculiarity is consistent with the period of carving in wood or stone it is thought their shapes encode an archaic wisdom a knowledge that has been sought after for well over a thousand years and attempts to unlock this illusive code continue today In this ground breaking text I unlock this legendary code I reveal how the runes have been misconstrued over the centuries to what we find today Contained within them are the remnants of an ancient geometric cipher and a myriad of arcane information the likes of which has not been seen for over two thousand years and the implications are staggering **The British National Bibliography** Arthur James Wells,2000 [The Runes](#) Jonathan Dee,2007 *Math for Mystics* Renna Shesso,2007-04-01

Much of math history comes to us from early astrologers who needed to be able to describe and record what they saw in the night sky. Whether you were the king's court astrologer or a farmer marking the best time for planting, timekeeping and numbers really mattered. Mistake a numerical pattern of petals and you could be poisoned. Lose the rhythm of a sacred dance or the meter of a ritually told story and the intricately woven threads that hold life together were spoiled. Ignore the celestial clock of equinoxes and solstices and you'd risk being caught short of food for the winter. Shesko's friendly tone and clear grasp of the information make the math go down easy in this marvelous book.
