there wasn't regular TV or online coverage during that era. The artwork on those kits was fantastic and many collectors today seek original kits largely because of it. The classes of racing covered are Gassers, Rail Dragsters, Stocks and Super Stocks, Funny Cars, Pro Stocks, Exhibition Racers and more. Drag racing cars designed by model companies that never actually existed are also covered. Nostalgia drags are some of the most popular events around the country today. People can't get enough of these old race cars that were built in an era when variety, innovation and home building ruled the day. This book is great for modelers in general, model kit collectors and drag racing fans young and old alike. **Catalog of the Automobile and Motorcycle Collection of the Division of Engineering, United States National Museum** Smith Hempstone

*The Routledge Companion to Automobile Heritage, Culture, and Preservation* explores automotive heritage, its place in society and the ways we might preserve and conserve it. Drawing on contributions from academics and practitioners around the world and comprising six sections, this volume carries the heritage discourse forward by exploring the complex and sometimes intricate place of automobiles within society. Taken as a whole, this book helps to shape how we think about automobile heritage and considers how that heritage explores a range of cultural, intellectual, emotional and material elements well outside of the automobile body itself. Most importantly, perhaps, it questions how we might better acknowledge the importance of automotive heritage now and in the future. *The Routledge Companion to Automobile Heritage, Culture, and Preservation* is unique in that it juxtaposes theory with practice, academic approaches with practical experience and recognizes that issues of preservation and conservation belong in a broad context. As such, this volume should be essential reading for both academics and practitioners with an interest in automobiles, cultural heritage and preservation. **The Harley-Davidson Motor Co.
