

The background of the entire image is a detailed, high-contrast black and white line drawing of a Maya stone relief. It features a central figure, likely a deity or ruler, with a large, ornate headdress and a long, flowing skirt. The figure is surrounded by intricate geometric and organic patterns, including a large circular motif at the top and a series of rectangular blocks at the bottom. The overall style is characteristic of ancient Maya art, with bold lines and complex designs.

The Conquest Of The Last Maya Kingdom:

The Conquest of the Last Maya Kingdom Grant D. Jones, 1998 On March 13 1697 Spanish troops from Yucatán attacked and occupied Nojpeten the capital of the Maya people known as Itz'at the inhabitants of the last unconquered native New World kingdom This political and ritual center located on a small island in a lake in the tropical forests of northern Guatemala was densely covered with temples royal palaces and thatched houses and its capture represented a decisive moment in the final chapter of the Spanish conquest of the Mayas The capture of Nojpeten climaxed more than two years of preparation by the Spaniards after efforts by the military forces and Franciscan missionaries to negotiate a peaceful surrender with the Itz'at had been rejected by the Itza ruling council and its ruler Ajaw Kan Ek The conquest far from being final initiated years of continued struggle between Yucatecan and Guatemalan Spaniards and native Maya groups for control over the surrounding forests Despite protracted resistance from the native inhabitants thousands of them were forced to move into mission towns though in 1704 the Mayas staged an abortive and bloody rebellion that threatened to recapture Nojpeten from the Spaniards The first complete account of the conquest of the Itz'at to appear since 1701 this book details the layers of political intrigue and action that characterized every aspect of the conquest and its aftermath The author critically reexamines the extensive documentation left by the Spaniards presenting much new information on Maya political and social organization and Spanish military and diplomatic strategy This is not only one of the most detailed studies of any Spanish conquest in the Americas but also one of the most comprehensive reconstructions of an independent Maya kingdom in the history of Maya studies In presenting the story of the Itz'at the author also reveals much about neighboring lowland Maya groups with whom the Itz'at interacted often violently

Virginia M. Bouvier,2004-08 Studies of the Spanish conquest in the Americas traditionally have explained European Indian encounters in terms of such factors as geography timing and the charisma of individual conquistadores Yet by reconsidering this history from the perspective of gender roles and relations we see that gender ideology was a key ingredient in the glue that held the conquest together and in turn shaped indigenous behavior toward the conquerors This book tells the hidden story of women during the missionization of California It shows what it was like for women to live and work on that frontier and how race religion age and ethnicity shaped female experiences It explores the suppression of women s experiences and cultural resistance to domination and reveals the many codes of silence regarding the use of force at the missions the treatment of women indigenous ceremonies sexuality and dreams Virginia Bouvier has combed a vast array of sources including mission records journals of explorers and missionaries novels of chivalry and oral histories and has discovered that female participation in the colonization of California was greater and earlier than most historians have recognized Viewing the conquest through the prism of gender Bouvier gives new meaning to the settling of new lands and attempts to convert indigenous peoples By analyzing the participation of women both Hispanic and Indian in the maintenance of or resistance to the mission system Bouvier restores them to the narrative of the conquest colonization and evangelization of California And by bringing these voices into the chorus of history she creates new harmonies and dissonances that alter and enhance our understanding of both the experience and meaning of conquest **Seven Myths of the Spanish Conquest** Matthew

Restall,2004-10-28 Here is an intriguing exploration of the ways in which the history of the Spanish Conquest has been misread and passed down to become popular knowledge of these events The book offers a fresh account of the activities of the best known conquistadors and explorers including Columbus Cort s and Pizarro Using a wide array of sources historian Matthew Restall highlights seven key myths uncovering the source of the inaccuracies and exploding the fallacies and misconceptions behind each myth This vividly written and authoritative book shows for instance that native Americans did not take the conquistadors for gods and that small numbers of vastly outnumbered Spaniards did not bring down great empires with stunning rapidity We discover that Columbus was correctly seen in his lifetime and for decades after as a briefly fortunate but unexceptional participant in efforts involving many southern Europeans It was only much later that Columbus was portrayed as a great man who fought against the ignorance of his age to discover the new world Another popular misconception that the Conquistadors worked alone is shattered by the revelation that vast numbers of black and native

allies joined them in a conflict that pitted native Americans against each other This and other factors not the supposed superiority of the Spaniards made conquests possible The Conquest Restall shows was more complex and more fascinating than conventional histories have portrayed it Seven Myths of the Spanish Conquest offers a richer and more nuanced account of a key event in the history of the Americas

Cartographies of Exile Karen Elizabeth Bishop, 2016-04-20 This book proposes a fundamental relationship between exile and mapping It seeks to understand the cartographic imperative inherent in the exilic condition the exilic impulses fundamental to mapping and the varied forms of description proper to both The vital intimacy of the relationship between exile and mapping compels a new spatial literacy that requires the cultivation of localized dynamic reading practices attuned to the complexities of understanding space as text and texts as spatial artifacts The collection asks what kinds of maps do exiles make How are they conceived drawn read Are they private maps or can they be shaped collectively What is their relationship to memory and history How do maps provide for new ways of imagining the fractured experience of exile and offer up both new strategies for reading displacement and new displaced reading strategies Where does exilic mapping fit into a history of cartography particularly within the twentieth century spatial turn The original work that makes up this interdisciplinary collection presents a varied look at cartographic strategies employed in writing art and film from the pre Contact Americas to the Renaissance to late postmodernism the effects of exile in its many manifestations on cartographic textual systems ways of seeing and forms of reading the challenges of traversing and mapping unstable landscapes and restrictive social and political networks and the felicities and difficulties of both giving into the map and attempting to escape the map that provides for exile in the first place Cartographies of Exile will be of interest to students and scholars working in literary and cultural studies gender sexuality and race studies anthropology art history and architecture film performance visual studies and the fine arts

Lost Pyramids of Mesoamerica Rhandel Lopez, While most visitors to Mexico visit one of the great Mayan cities it is worth visiting some of the lesser known ruins like Mayapan and Balamku Mayapan is an ancient Maya city in the northern Yucatan Peninsula of Mexico The site has a long history with its first occupation dating back to at least 900 BC and its last occupation dating to around 1450 AD The word Mayapan means Hill of the Jaguar The name refers to the shape of one of three hills that formed it this hill was called Pa Chan Place of the Jaguar It was here that a jaguar deity named Chac reigned When Chac left his post as a god of rain the rain ceased falling on earth for four years until he returned during this time people were forced to irrigate their crops by hand or die from thirst if they failed at growing corn without rainwater overflow from nearby lakes and rivers The city of Teotihuacan is one of the most important archaeological sites in Mexico It was the center of a civilization at its peak around the 1st century B C and

was abandoned around 650 AD leaving behind an impressive collection of pyramids and other structures As you explore this site you will discover how these ancient people lived and what they left behind for us to admire today Tulum is a small town on the coast of the Yucatán Peninsula south of Cancún It may not be your first choice if you look for beaches and relaxation But if you want to see some fantastic architecture and walk in the footsteps of the Maya you should definitely make plans to visit Tulum The Mayans built the city between 1200 and 1450 CE Common Era as a seaport for trading with other cultures in Mesoamerica Its popularity rose with increased trade throughout Mexico during this period however it fell into disrepair after Spanish colonization began around 1519 CE when conquistador Hernán Cortés took control over what had been largely autonomous states up until then The buildings are made from limestone quarried from nearby cliffs and from sandstone blocks that were likely carried from much further away by barge or canoe along rivers and lakes since there were no roads The city of Uxmal is a magnificent example of the Puuc style with its buildings built of fine stuccoed brickwork As you explore the site you can see how closely related it is to Chichén Itz and other major Maya sites in the region The Pyramid of the Magician also known as El Castillo is a fantastic pyramid building with 4 sides each having 91 steps and each step 7 feet tall for a total height of 65 feet House of Turtles or Casa del Adivino this building has beautiful decorations both inside and out depicting turtles in different positions some say that these turtles represent wisdom or knowledge Tikal is the largest Mayan ruin in Guatemala and is a UNESCO World Heritage Site The city was the capital of the Maya kingdom of the same name and one of their most potent cities dating back to at least 200 B C if not earlier It was abandoned by the Maya around 900 A D but its temples still tower over the jungle floor today some are even taller than they were when they were first built Palenque Crown of the North is one of the most critical sites in the Maya world Palenque was once a thriving city and capital of one of Mexico's most powerful states It boasts some of the most impressive ruins on this list It was first discovered by a German explorer in 1719 while looking for a site to build his own city The main pyramid at Palenque rises over 70 meters 230 ft into the air and its steps are steep enough to pause even hardened explorers when climbing them There are also two smaller temples nearby and many smaller statues depicting jaguars these symbolize power for humans and gods alike

A Beauty that Hurts W. George Lovell, 2019-11-11 When A Beauty That Hurts first appeared in 1995 Guatemala was one of the world's most flagrant violators of human rights An accord brokered by the United Nations brought a measure of peace after three decades of armed conflict but the country's troubles are far from over George Lovell revisits Guatemala to grapple once again with the terror inflicted on its Maya peoples by a military dominated state

Historical Archaeology of Childhood and Parenting April Kamp-Whittaker, Jamie J. Devine, Suzanne M. Spencer-Wood, 2024-04-12 The study of childhood in historical archaeology enriches interpretations of the past but also has the potential for contributing to the understanding of methodological and theoretical issues in archaeology Archaeologically children are understudied relative to both their demographic and social importance partly because children are viewed as difficult to discern in the archaeological record Historical archaeology with its access to historical documents to supplement and illuminate archaeological evidence provides an opportunity to gain a greater understanding of the ways children's daily lives in the past were expressed in historically changing types and patterns of material culture Recent research presented in this volume contributes valuable perspectives for conceptualizing the historically changing social nature of childhood and methods for illuminating the roles of children Case studies are designed to illustrate methodological and theoretical advances

in the historical archaeology of materialized experiences discourses identities places and their meanings associated with parenting and childhood The volume is organized into three sections devoted to case studies about 1 how childhood and parenting have been socially constructed cross culturally and temporally 2 social ideologies of childhood in contested spaces and 3 the relationship between children s experiences and adult expectations of childhood Each chapter demonstrates advances in current methods or theories used in the archaeology of childhood A final discussant drawn from the broader field of research on the archaeology of childhood provides a commentary on the ways the perspectives provided in the volume can be employed by researchers outside the sub discipline of historical archaeology
