The Constitutional Right To Suicide

Oran Doyle

The Constitutional Right To Suicide:

Physician-Assisted Suicide Susan M. Behuniak, Arthur G. Svenson, 2002-09-04 Whether competent terminally ill patients have a right to die with the assistance of their physicians or whether state and national governments have legitimate interests in forbidding the exercise of this right are the central questions around which this book revolves In either case essential constitutional issues as well as ethical and medical reflections enter the debate This book blending original sources and expert commentary prepares its readers to enter the discussion by providing an accessible and concise introduction to the law and politics of physician assisted suicide Its timely appearance also sets the stage for understanding future state referenda court decisions legislation and executive orders expected in 2002 and beyond *The Constitutional Right to Suicide* G. Steven Neeley, 1994 Medical technology has made it possible to sustain existence past the point where the competent adult might rationally conclude that life is no longer worth living Nevertheless the current state of the law often makes it difficult if not impossible for an individual to have unfettered control over the act of dying as determinations against medical intervention are frequently swept under broad legal proscriptions of self directed death This book cogently argues that an examination of the constitutional right to privacy and allied constitutional precepts reveal that the United States Constitution protects those decisions which are profoundly personal intimate and integral to the control of one's own destiny The decision which fits this criterion more closely than any other is whether to continue living or not for intrinsic to the control of one's life is the choice of electing to forego continued life Hence constitutional guarantees of individual liberty protect the right of the individual at least under certain circumstances to terminate his or her own existence **Life, Death, and the Law** Maureen Harrison, Steve Gilbert, 1997 Contains plain English versions of the original legal texts of nine right to die decisions reached in America's courts beginning with the landmark case of Karen Quinlan in 1976 which established the right to refuse or withdraw life sustaining treatment and continuing through the U S Supreme Court's 1997 determination on two right to physician assisted suicide cases **Constitutional Law: Outlines and Case Summaries (Law School Survival Guide)**, American Constitutional Law Donald P. Kommers, John E. Finn, Gary J. Jacobsohn, 2004 Designed for an undergraduate course in US constitutional law the casebook takes a liberal arts approach tracing constitutional doctrine and policy back to their foundation in social moral and political theory and prompting students to engage the great questions of political life addressed by the Constitution and its interpretation Opinions of the US Supreme Court constitute the core of the documents The first edition was published in 1998 the second adds and updates topics Annotation 2004 Book News Inc Portland OR booknews.com American Constitutional Law Donald P. Kommers, John E. Finn, Gary J. Jacobsohn, 2009-07-16 American Constitutional Law Essays Cases and Comparative Notes is a unique casebook that encourages citizens and students of the Constitution to think critically about the fundamental principles and policies of the American constitutional order In addition to its distinguished authorship the book has two prominent features that set it apart from other books in the

field an emphasis on the social political and moral theory that provides meaning to constitutional law and interpretation and a comparative perspective that situates the American experience within a world context that serves as an invaluable prism through which to illuminate the special features of our own constitutional order While the focus of the book is entirely on American constitutional law the book asks students to consider what if anything is unique in American constitutional life and what we share with other constitutional democracies Each chapter is preceded by an introductory essay that highlights these major themes and also situates the cases in their proper historical and political contexts This new edition offers updated and expanded treatment of a number of important and timely topics including gerrymandering and campaign finance the death penalty privacy affirmative action and school segregation The new edition offers _ Updated and expanded treatment of key cases on gerrymandering and campaign finance _ Expanded discussion of the Court s work federalism and the commerce clause _ Discussions of the Court s new cases on the death penalty including a discussion of the controversy within the Court about the propriety of citing foreign case law _ An expanded discussion of the Court s recent work in the area of privacy including the Court s decisions with regard to partial birth abortions and same sex marriages _ An expanded section on the Court s continuing efforts to develop a coherent takings clause jurisprudence _ Full coverage of new developments and cases concerning affirmative action and school desegregation

Constitutional Law in the United States Randall Walton Bland, Joseph V. Brogan, 1999-01-04 Constitutional Law in the United States is a clear and focused discussion of the key elements of constitutional law Part one analyses the structure and authority of the U S government Part two covers the regulation of the economy and part three assesses the individual and civil rights under the Constitution Several cases have been added to this third edition nearly doubling the size of the text The structure of the work is only slightly modified The number of chapters remains the same but they are now grouped under but two divisions The Structures and Powers of Government and Civil Rights and Liberties The Rights of Patients George J. Annas, 2004-11-15 A washed up director Joe Piscopo agrees to stage a musical in order to clear his debts to a powerful gangster Paul Sorvino Michael Par and Erika Christensen co star Jason Buchanan Rovi **People v. Kevorkian; Hobbins v. Attorney General, 447 MICH 436 (1994)**, 1994 99759 **Illinois Law Review**, 1922 *Northwestern University Law Review*, 1922 *The United States Supreme Court's Assault on the Constitution, Democracy, and the Rule of Law* Adam Lamparello, Cynthia Swann, 2016-12 Part VII An interpretive theory that promotes federalism separation of powers and principled judicial review 28 Is democracy a good thing The arguments and the practicalities 29 Foundational principles for a pro democracy process oriented and pragmatic jurisprudence 30 Applying the foundational principles to the worst Supreme Court decisions and arriving at nonideological process oriented and pro democracy outcomes Concluding thoughts Index **The Constitution of Ireland** Oran Doyle, 2018-11-29 This book provides a contextual analysis of constitutional governance in Ireland It presents the 1937 Constitution as a seminal moment in an ongoing constitutional evolution rather than a foundational event The book

demonstrates how the Irish constitutional order revolves around a bipartite separation of powers The Government is dominant but is legally constrained by the courts particularly in their interpretations of the fundamental rights protected by the Constitution In recent decades the courts have weakened the constitutional constraints on the Government Political constraints imposed by opposition parties in Parliament and new accountability institutions such as the Ombudsman have moderately strengthened but the Government remains by far the most powerful political actor There is a risk that such executive dominance could lead to democratic decay however the referendum requirement for constitutional amendment has prevented Governments from accumulating greater constitutional power The book begins with an overview of Irish constitutional history leading to the enactment of the 1937 Constitution before exploring the foundational decisions made by the Constitution in relation to territory people and citizenship Particular attention is paid to the constitutional relationship with Northern Ireland currently unsettled by the decision of the United Kingdom to leave the European Union The book details the key institutions of state Government Parliament President and courts before analysing how different constitutional actors exercise their respective powers of governance contestation and oversight A thematic approach is taken to the courts interpretation of fundamental rights showing how judicial attitudes have markedly changed over time Further attention is paid to both formal amendment and informal constitutional change The Constitution today is markedly different from 1937 it is non committal on national reunification less influenced by Roman Catholic natural law teaching and generally more permissive of Government action It is perhaps these developments however that explain its continued success or at least its longevity

Understanding Assisted Suicide John Barry Mitchell, 2007 A personal journey into the issues surrounding assisted suicide that covers the widest range of topics and positions on the subject

Constitutional Law in Germany Gerhard Robbers, 2024-04-17 Derived from the renowned multi volume International Encyclopaedia of Laws this very useful analysis of constitutional law in Germany provides essential information on the country s sources of constitutional law its form of government and its administrative structure Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application Throughout the book the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure Thorough coverage by a local expert fully describes the political system the historical background the role of treaties legislation jurisprudence and administrative regulations The discussion of the form and structure of government outlines its legal status the jurisdiction and workings of the central state organs the subdivisions of the state its decentralized authorities and concepts of citizenship Special issues include the legal position of aliens foreign relations taxing and spending powers emergency laws the power of the military and the constitutional relationship between church and state Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool

for both practising and academic jurists Lawyers representing parties with interests in Germany will welcome this guide and academics and researchers will appreciate its value in the study of comparative constitutional law **American**

Constitutional Law, Volume II Ralph Rossum, Alan Tarr, Vincent Phillip Munoz, 2019-07-23 American Constitutional Law 11e Volume II provides a comprehensive account of the nation's defining document examining how its provisions were originally understood by those who drafted and ratified it and how they have since been interpreted by the Supreme Court Congress the President lower federal courts and state judiciaries Clear and accessible chapter introductions and a careful balance between classic and recent cases provide students with a sense of how the law has been understood and construed over the years The 11th Edition now includes several landmark First Amendment cases including *Janus v American Federation of State County and Municipal Employees* 2018 *Minnesota Voters Alliance v Mansky* 2018 *National Institute of Family and Life Advocates v Beccera* 2018 *Trinity Lutheran Church v Comer* 2017 and *Masterpiece Cakeshop v Colorado Civil Rights Commission* 2018 It also includes *Carpenter v United States* 2018 A revamped and expanded companion website offers access to even more additional cases an archive of primary documents and links to online resources making this text essential for any constitutional law course **Medicine, Ethics and the Law in Ireland** Deirdre Madden, 2011-01-01

Written by one of Ireland's leading medical law academics this practical book comprehensively covers Irish case law and regulations regarding the healthcare system the law relating to human reproduction and the key issues of consent and treatment Designed to be used by lawyers and healthcare professionals the book provides an invaluable reference tool for anybody who requires accurate information and guidance on this area of Irish law This second edition covers medical research and clinical trials organ donation and transportation patient safety and biobanking *The Dynamic Constitution*

Richard H. Fallon, 2013-04-22 In this revised and updated second edition of *The Dynamic Constitution* Richard H Fallon Jr provides an engaging sophisticated introduction to American constitutional law Suitable for lawyers and non lawyers alike this book discusses contemporary constitutional doctrine involving such issues as freedom of speech freedom of religion rights to privacy and sexual autonomy the death penalty and the powers of Congress Through examples of Supreme Court cases and portraits of past and present Justices this book dramatizes the historical and cultural factors that have shaped constitutional law *The Dynamic Constitution* 2nd edition combines detailed explication of current doctrine with insightful analysis of the political culture and theoretical debates in which constitutional practice is situated Professor Fallon uses insights from political science to explain some aspects of constitutional evolution and emphasizes features of the judicial process that distinguish constitutional law from ordinary politics **Constitutional Law in Switzerland** Alexander

Misic, Nicole Töpperwien, 2018-06-07 Derived from the renowned multi volume *International Encyclopaedia of Laws* this very useful analysis of constitutional law in Switzerland provides essential information on the country's sources of constitutional law its form of government and its administrative structure Lawyers who handle transnational matters will appreciate the

clarifications of particular terminology and its application Throughout the book the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure Thorough coverage by a local expert fully describes the political system the historical background the role of treaties legislation jurisprudence and administrative regulations The discussion of the form and structure of government outlines its legal status the jurisdiction and workings of the central state organs the subdivisions of the state its decentralized authorities and concepts of citizenship Special issues include the legal position of aliens foreign relations taxing and spending powers emergency laws the power of the military and the constitutional relationship between church and state Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool for both practising and academic jurists Lawyers representing parties with interests in Switzerland will welcome this guide and academics and researchers will appreciate its value in the study of comparative constitutional law

Medical Law and Moral Rights Carl Wellman, 2005-10-26 Do patients undergoing intolerable irremediable suffering have a moral right to physician assisted suicide Ought they to have a comparable legal right Do the moral duties of a mother to care for and not abuse her child also apply to her fetus This work provides an examination of court cases that shows how US law answers these questions
