## **The Construction Of Buildings Volume 1:**

*The Construction of Buildings* - Robin Barry, 1999-10-12 Since publication of the first volume of *The Construction of Buildings* in 1958 the five volume series has been used by both lecturers and students of architecture building and surveying and by those seeking guidance for self built housing and works of alteration and addition The series examines principles of building through the functional requirements common to building with diagrams to illustrate the application of the requirements Volume 1 which deals with foundations walls floors and roofs has been updated to take into account changes in practice A new presentation has been adopted for the latest edition with text and illustrations integrated to provide a reader friendly layout and to aid accessibility of information *Barry's Introduction to Construction of Buildings* Stephen Emmitt, Christopher A. Gorse, 2009-02-05

The five volume series Barry's *Construction of Buildings* has been established as a standard text on building technology for many years However a substantial update has long been required and while doing this the opportunity has been taken to reduce five volumes to two in a more user friendly format The introductory volume covers domestic construction and brings together material from volumes 1 2 and part of 5 The extensive revision includes modern concepts on site assembly environmental issues and safety and features further reading
