Additional chapters would include the mental characteristics of adventure racers and extreme sports athletes together with the complexities of competing in hot and cold extreme environments. The book will present chapters focussing on the sports listed below, concentrating on published literature and newly formed studies by experts in the fields of injury epidemiology, prevention, management and rehabilitation.

Songs in Black and Lavender. Eileen M. Hayes, 2010-02-26. Drawing on fieldwork conducted at eight women's music festivals, Eileen M. Hayes shows how studying these festivals, attended by predominately white lesbians, provides critical insight into the role of music and lesbian community formation. She argues that the women's music festival is a significant institutional site for the emergence of black feminist consciousness in the contemporary period. Hayes also offers sage perspectives on black women's involvement in the women's music festival scene, the ramifications of their performances as drag kings in those environments, and the challenges and joys of a black lesbian retreat based on the feminist festival model. With acuity and candor, longtime feminist activist Hayes elucidates why this music scene matters. Veteran vocalist, percussionist, producer and cultural historian Linda Tillery provides a foreword.
