Delusions and the Madness of the Masses Lawrie Reznick, 2010-11-16 We all think that we can tell the difference between someone who is mad or whom psychiatrists call psychotic and someone who is sane But can we really tell who is mad and who is not Do we really know what madness is and how it should be recognized Have psychiatrists made a sensible distinction between the patient who believes that aliens are beaming messages to him from a foreign planet and the religious fanatic who believes God communicates to him via automatic writing Is there a difference between the paranoid patient who believes that the FBI is after him and the sizeable proportion of our normal population that believe that the US government orchestrated the 9 11 bombings Here Reznick hopes to shed light on the delusions of the masses those delusions that are common to everyday people living so called ordinary lives He provides an understanding of madness and the psychological processes that drive us to adopt delusions arguing that it is a mistake to view only schizophrenic patients as delusional while excluding large groups of society from such an analysis If we abandon the idea that whole communities cannot share a delusion we can come to a better understanding about why the world is such a dangerous place *A Thousand Darknecesses* Ruth Franklin, 2010-11-19 What is the difference between writing a novel about the Holocaust and fabricating a memoir Do narratives about the Holocaust have a special obligation to be truthful that is faithful to the facts of history Or is it okay to lie in such works In her provocative study *A Thousand Darknecesses* Ruth Franklin investigates these questions as they arise in the most significant works of Holocaust fiction from Tadeusz Borowski's Auschwitz stories to Jonathan Safran Foer's postmodernist family history Franklin argues that the memory obsessed culture of the last few decades has led us to mistakenly focus on testimony as the only valid form of Holocaust writing As even the most canonical texts have come under scrutiny for their fidelity to the facts we have lost sight of the essential role that imagination plays in the creation of any literary work including the memoir Taking a fresh look at memoirs by Elie Wiesel and Primo Levi and examining novels by writers such as Piotr Rawicz Jerzy Kosinski W G Sebald and Wolfgang Koeppen Franklin makes a persuasive case for literature as an equally vital vehicle for understanding the Holocaust and for memoir as an equally ambiguous form The result is a study of immense depth and range that offers a lucid view of an often cloudy field *The Jewish Holocaust* Marty Bloomberg, Buckley Barry Barrett, 1995-01-01 This expanded edition of the guide to major books in English on the Holocaust is organized into ten subject areas reference materials European antisemitism background materials the Holocaust years Jewish resistance **Nightmare Envy and Other Stories** George Blaustein, 2018-01-05 What has it meant to be an Americanist What did it mean to be an Americanist through fascism war and occupation *Nightmare Envy and Other Stories* is a study of Americanist writing and institutions in the 20th century Four chapters trace four routes through the mid twentieth century The first chapter is the hidden history of American Studies in the United States Europe and Japan The second is the strange career of national character in anthropology The third is a contest between military occupation and cultural diplomacy in Europe The fourth is the emergence and fate of the American Renaissance as the scholar and literary critic F O
