**The Clash of Orthodoxies** Robert P. George, 2023-06-20 In The Clash of Orthodoxies Law

Religion and Morality in Crisis Robert George tackles the issues at the heart of the contemporary conflict of worldviews. Secular liberals typically suppose that their positions on morally charged issues of public policy are the fruit of pure reason while those of their morally conservative opponents reflect an irrational religious faith. George shows that this supposition is wrong on both counts. Challenging liberalism's claim to represent the triumph of reason, George argues that on controversial issues like abortion, euthanasia, same sex unions, civil rights and liberties, and the place of religion in public life, traditional Judeo-Christian beliefs are rationally superior to secular liberal alternatives. *The Clash of Orthodoxies* is a profoundly important contribution to our contemporary national conversation about the proper role of religion in politics. The lucid and persuasive prose of Robert George, one of America's most prominent public intellectuals, will shock liberals out of an unwarranted complacency and provide powerful ammunition for embattled defenders of traditional morality. **Leo Strauss and His Legacy** John Albert Murley, 2005-01-01 With over 10,000 entries identifying work of hundreds of Strauss's students and their students, this bibliography is the most, indeed the only, comprehensive guide to published writing in the tradition of Leo Strauss. Murley includes Strauss's own complete bibliography and that of one of his most revered students, George Anastaplo. **American Book Publishing Record**, 2003 *Proceedings of the American Political Science Association* American Political Science Association. Pangle, 2006-09-25 Leo Strauss's controversial writings have long exercised a profound subterranean cultural influence. Now their impact is emerging into broad daylight where they have been met with a flurry of poorly informed, often wildly speculative and sometimes rather paranoid pronouncements. This book, written as a corrective, is the first accurate, non-polemical, comprehensive guide to Strauss's mature political philosophy and its intellectual influence. Thomas L. Pangle opens a pathway into Strauss's major works with one question: How does Strauss's philosophic thinking contribute to our democracy's civic renewal and to our culture's deepening critical self-understanding? This book includes a synoptic critical survey of writings from scholars who have extended Strauss's influence into the more practical, sub-philosophic fields of social and political science and commentary. Pangle shows how these analysts have in effect imported Straussian impulses into a new kind of political and social science. **The Supreme Court on Trial** Charles S. Hyneman,
