The Construction Of Professional Discourse Language In Social Life Series:

The Construction of Professional Discourse B.L. Gunnarsson, Per Linell, Bengt Nordberg, 2014-09-19 Internationally there is increasing research and interest in the processes of the production and reception of texts for specific purposes and in the historical development of genres and registers within Languages for Specific Purposes LSP psycholinguistics sociolinguistics anthropology and the sociology of science Studies of professional communication have traditionally been biased towards the written medium and have been carried out with little if any connection to LSP Disciplinary boundaries and interest groupings have thus kept these different approaches to the study of professional communication and interaction separate The editors of this volume unite these different perspectives and approaches and bring together recent research from linguistics sociolinguistics ethnography of communication anthropology and sociology to provide an up to date analysis of different varieties of professional discourse and their historical development Chapters written by leading exponents in the field deal with the core theoretical issue of how language written genres and spoken discourse are constructed as a successive and continuous interplay between language and social realities The volume includes chapters on the moral construction of discourse in the social care profession the discourse of dispute negotiation narrative accounts in clinical research doctor patient interaction legal and other kinds of institutional discourse A key text for students of applied linguistics and sociolinguistics at both advanced undergraduate and MA levels *Sociolinguistics / Soziolinguistik. Volume 2* Ulrich Ammon, Norbert Dittmar, Klaus J. Mattheier, Peter Trudgill, 2008-07-14 No detailed description available for SOCIOLINGUISTICS AMMON 2 TLBD HSK 3 2 2A E BOOK **Prison Discourse** A. Mayr, 2003-12-19 With unique and powerful data from within a big city prison this book clarifies the role that conversational analysis can have within a Critical Discourse Analysis perspective In a detailed linguistic analysis of the language use of prison officers and prisoners involved in a prison based course the author charts the shifting power relations of control and resistance and situates the findings in a broader sociological analysis of the prison as an institution The study will interest sociolinguists discourse analysts and researchers in communication studies criminology and counselling **Interpreting As Interaction** Cecilia Wadensjö, 2014-06-06 Interpreting in Interaction provides an account of interpreter mediated communication exploring the responsibilities of the interpreter and the expectations of both the interpreter and of other participants involved in the interaction The book examines ways of understanding the distribution of responsibility of content and the progression of talk in interpreter mediated institutional face to face encounters in the community interpreting context Bringing attention to discursive and social practices prominent in modern society but largely unexplored in the existing literature the book describes and explains real life interpreter mediated conversations as documented in various public institutions such as hospitals and police stations The data show that the interpreter's prescribed role as a non participating non person does not and cannot always hold true The book convincingly argues that this in one sense exceptional form of communication can be

used as a magnifying glass in the grounded study of face to face institutional interaction more generally Cecilia Wadensj explains and applies a Bakhtinian dialogic theory of language and mind and offers an alternative understanding of the interpreter's task as one consisting of translating and co-ordinating and of the interpreter as an engaged actor solving problems of translatability and problems of mutual understanding in situated social interactions Teachers and students of translation and interpretation studies including sign language interpreting applied linguistics and sociolinguistics will welcome this text Students and professionals within law medicine and education will also find the study useful to help them understand the role of the interpreter within these frameworks

The Senses of Scripture Yael Avrahami, 2012-06-15 The Senses of Scripture reveals the essence of biblical epistemology the ways in which ancient Israelites thought about and used their sensorium The theoretical introduction demonstrates that scholars need to liberate themselves from the Western bias that holds a pentasensory paradigm and prioritises the sense of sight The discussion of the biblical material demonstrates that biblical scholars should follow a similar path Through examination of associative and contextual patterns the author reaches a septasensory model including sight hearing speech kinaesthesia touch taste and smell It is further demonstrated that the senses according to the HB are a divinely created physical experience which symbolised human ability to act in a sovereign manner in the world Despite the lack of a biblical Hebrew term sense it seems that at times the merism sight and hearing serves that matter Finally the book discusses the longstanding dispute regarding the primacy of sight vs hearing and claims that although there is no strict sensory hierarchy evident in the text sight holds a central space in biblical epistemology

Language and Literacy in Workplace Education Giselle Mawer, 2014-09-25 Just as workers are confronting the rapidly changing practices of the restructured technological workplace and the increasing convergence of working and learning so those involved in any form of workplace education or training are also restructuring their focus teaching methods and approaches This book examines the conceptual and practical challenges facing education and training professionals in redefining their contribution to improving communication and learning at work Interweaving theory and commentary with actual case studies the book explores a multifaceted approach to workplace education which aims to develop individual workers skills as well as integrating learning language and cross cultural issues into work communication and management practices It is a strategic practical approach which draws on a range of applied linguistic and educational traditions and is informed by related disciplines such as cognitive and social psychology and organisational behaviour The book does not present formulae for success rather it illustrates the complexities and challenges faced by educators as they learn to balance different and often conflicting priorities Language and Literacy in Workplace Education Learning at Work has been written with a wide audience in mind from language and literacy professionals Human Resources staff vocational trainers managers as well as students of education and linguistics The book is clearly presented and takes care to explain specific educational or organisational terminology making the study accessible to newcomers to the field

Mediated Discourse as Social

Interaction Ron Scollon, 2014-06-11 Mediated Discourse as Social Interaction makes an explicit link between media studies and social interactionist discursive research where previously the two fields of study have been treated as separate disciplines This text presents an integrated theory illustrated by ample concrete examples bringing together the latest research in these two fields It offers a critique to the sender receiver model implicit in media studies and argues for an analysis of media discourse as social interaction on the one hand among journalists and newsmakers as a community of practice and among readers and viewers as a spectating community of practice on the other The book also argues for a coherent and interdiscursive methodology for the ethnographic study of the role of the news media in the social construction of identity and is based on a considerable body of ethnographic and textual analysis of both print and television news media The theory of mediated discourse presented in this volume will be of great interest to advanced undergraduates and postgraduates studying media studies sociology of language discourse analysis interactional sociolinguistics ethnography of communication and applied linguistics It will also be welcomed by scholars and professionals involved in research in these areas

The Cultural Politics of English as an International Language Alastair Pennycook, 2014-06-03 Covering a wide range of areas including international politics colonial history critical pedagogy postcolonial literature and applied linguistics this book examines ways to understand the cultural and political implications of the global spread of English Firstly it explores how a particular view of English as an international language has come into being by examining its colonial origins its connections to linguistics and applied linguistics and its relationships to the global spread of teaching practices It then offers an alternative critical understanding through the concept of the worldliness of English This concept suggests that English can never be removed from the social cultural economic or political contexts in which it is used

The Power of Tests Elana (Professor Of Language Education Shohamy, 2020-11-25 Language in Social Life is a major series which highlights the importance of language to an understanding of issues of social and professional concern It will be of practical relevance to all those wanting to understand how the ways we communicate both influence and are influenced by the structures and forces of contemporary social institutions In all modern societies individuals are subject to tests whether to enter educational programs to pass from one level to the next or to grant certificates to practice Yet tests are powerful tools which are often introduced in undemocratic and unethical ways as disciplinary tools for carrying out various policy agendas Tests can be detrimental to people's lives as they are capable of affecting and defining the knowledge and behaviour of those who are being tested The Power of Tests applies a critical perspective of language tests by examining their uses and consequences in education and society and by viewing tests not as isolated events but rather as embedded in social educational and political contexts The book is divided into four parts the first part establishes the power of tests through echoing the voices of test takers describing the features of the power of tests and the temptations that tests offer to bureaucrats who use them for power and control The second part reports on studies that provide empirical evidence about

intentions and effects of a number of large scale language tests The third part interprets the results by examining their consequences on education and society arriving at a model of tests use The final section of the book offers strategies for controlling and minimising the misuses of tests by introducing the notion of Critical Language Testing which calls for the examination of the consequences and misuses of tests monitoring of power and pointing to their unethical uses It also provides a comprehensive discussion of the responsibilities of language testers including a new Code of Ethics as well as strategies for guarding and protecting the rights of test takers

The Routledge Handbook of Linguistic Ethnography Karin Tusting, 2019-08-30 The Routledge Handbook of Linguistic Ethnography provides an accessible authoritative and comprehensive overview of this growing body of research combining ethnographic approaches with close attention to language use This handbook illustrates the richness and potential of linguistic ethnography to provide detailed understandings of situated patterns of language use while connecting these patterns clearly to broader social structures Including a general introduction to linguistic ethnography and 25 state of the art chapters from expert international scholars the handbook is divided into three sections Chapters cover historical empirical methodological and theoretical contributions to the field and new approaches and developments This handbook is key reading for those studying linguistic ethnography qualitative research methods sociolinguistics and educational linguistics within English Language Applied Linguistics Education and Anthropology

Legal-Lay Communication Chris Heffer, Frances Rock, John Conley, 2013-07-16 This volume responds to a growing interest in the language of legal settings by situating the study of language and law within contemporary theoretical debates in discourse studies linguistic anthropology and sociolinguistics The chapters in the collection explore many of the common occasions when those acting on behalf of the legal system such as the police lawyers and judges interact with those coming into contact with the legal system such as suspects and witnesses However the chapters do this work through the conceptual lens of textual travel or the way that texts move across space and time and are transformed along the way Collectively notions of textual travel shed new light on the ways in which texts can influence and are influenced by social and legal life With contributions from leading experts in language and law Legal Lay Communication explores such textual travel themes as the mediating role of technologies in the investigatory stages of the legal process the centrality of intertextuality in the legal construction of cases in court the transformative effects of recontextualization in processes of judicial decision making and the way that processes of textual travel disturb the apparent permanence of legal categorization The book challenges both the notion of legal text as a static repository of meaning and the very idea of legal lay or lay legal communication

Small Talk Justine Coupland, 2014-06-11 This study presents a new perspective on small talk and its crucial role in everyday communication The new approach presented here is supported by analyses of interactional data in specific settings private and public face to face and telephone talk They vary from gossip at the family dinner table and intimate keeping in touch phone conversations to interpersonally focused talk in institutional settings such

as the government office and the university research seminar Drawing on a range of methodological approaches including Discourse Analysis and Pragmatics Interpersonal Communication and Conversation Analysis the author elevates small talk to a new status as functionally multifaceted but central to social interaction as a whole **The Routledge Handbook of**
