The Contemporary And His Soul:

Archbishop Fulton Sheen, the Contemporary Humanist Emmanuel K. Ngwainmbi, Rev. Fr. John Berinyuy, 2023-08-30

This book is a theological reflection of Sheen's contribution to humanity and society. It analyzes the modern person from the Catholic doctrinal perspective, explores Fulton Sheen's perception of the contemporary individual, and demonstrates that global economic, religious, and political crises cannot be resolved by focusing only on the mundane. It further underscores some contemporary anthropological challenges and proposes a philosophy and theology of life that can enable contemporary humans to know themselves better and make life worth living. The authors argue that advancements in science and technology have failed to prolong happiness; people are still frustrated, disillusioned, cynical, bored, and suicidal. This book enters the landscape of Sheen's controversial pause before he was sanctified and provides a lengthy liturgical extrapolation of Sheen's Christian anthropology, wrestling with other thinkers and general concerns surrounding human angst in modern society.

The Psychology of the Spirit: a Contemporary System of Biblical Psychology J. Christopher

Garrison, 2001-12-05. From the FOREWORD by Dan G. Blazer, M.D., Ph.D., Professor of Psychiatry, Duke University Medical Center. Occasionally a writer on psychology and biblical faith comes along who can work from the center. J. Christopher Garrison is such a writer. Let me explain what I mean by working from the center. No person who is thoroughly committed to his or her religious faith can really put that faith aside and work with scientific objectivity in blending the essence of that faith with the subject matter of empirical science. Even if someone could, I doubt that the project would be of great interest. Such a person would not be someone I would define as working from the center. A person who can work from the center in blending psychology and biblical faith is a person who can work not so much from the center of extremes as from the center of their being from their spirit, if you will. This ability shows itself when one has opened his or her innermost being to the Spirit of God and his or her mind and reason to modern psychology and truly grasped as a result the principles and concepts of what psychology is really about. This is what Garrison has achieved. In Garrison's *Psychology of the Spirit*, psychology is not so much integrated as it is enriched. Reading the end product deepens one's faith and one's understanding. Such a psychology is not the mere providing of formulas for meeting daily life crises. It is instead the total unfolding and renewal of one's inner being.

The Monster Hunter in Modern Popular Culture Heather L. Duda, 2014-01-10

As monsters in popular media have evolved and grown more complex, so have those who take on the job of stalking and slaying them. This book examines the evolution of the contemporary monster hunter from Bram Stoker's Abraham Van Helsing to today's non-traditional monster hunters such as Blade, Buffy the Vampire Slayer, and Watchmen. Critically surveying a diverse range of books, films, television shows, and graphic novels, this study reveals how the monster hunter began as a white upper-class educated male and became everything from a vampire to a teenage girl with supernatural powers. Now often resembling the monsters they've vowed to conquer, modern characters occupy a gray area where the battle is often with their own inner natures as much as with the

evil they fight Volume of Proceedings of the ... John Brown,1908 Death, Burial and the Individual in Early Modern England Clare Gittings,2023-10-13 First published in 1984 Death Burial and the Individual in Early Modern England traces how and why the modern reaction to death has come about by examining English attitudes to death since the Middle Ages In earlier centuries death was very much in the midst of life since it was not as now associated mainly with old age War plague and infant mortality gave it a very different aspect to its present one The author shows in detail how modern concern with the individual has gradually alienated death from our society the greater the emphasis on personal uniqueness the more intense the anguish when an individual dies Changes in attitudes to death are traced through alterations in funeral rituals covering all sections of society from paupers to princes This gracefully written book is a unique scholarly and thorough treatment of the subject providing both a sensitive insight into the feelings of people in early modern England and an explanation of the modern anxiety about death The range and assurance of this book will commend it to historians and the interested general reader alike **The Nature of the Soul** Terrance W. Klein,2016-03-03 This book offers a contemporary Christian explication of the word soul that uses Wittgenstein and his interpreters to suggest that human intelligence and desire cannot be mapped into the world that is described by science and metaphysics It examines the Aristotelian notion of the soul as one who acts in the world and suggests that we construct ourselves our narratives by our actions in history Drawing upon the resurrection accounts of the gospels where Jesus is presented as having been translated into the liturgy it speculates that the core of the human person his or her intelligence can be translated into other material mediums all the while maintaining personal identity Reading Aquinas according to the insights of contemporary figures in Anglo American philosophy of language Klein argues that ultimately to be a soul is to be a narrative destined for Christic incorporation into the Book of Life spoken of in Revelation Drama in the Modern World: Plays & Essays ,1996 **Nonrational Logic in Contemporary Society** Jim Kline,2023-04-14 Nonrational Logic in

Contemporary Society explores modern examples of beliefs that defy logic but nevertheless are enthusiastically embraced by legions of contemporary people living in technologically advanced societies The appeal of nonrational logic is based upon C G Jung s ideas regarding archetypes considered to be unconscious thought and behavioural patterns universal to all of humanity and expressed in dreams art religion and reports of supernatural and paranormal experiences such as the belief in UFOs conspiracy theories associated with child sacrifice and devil worship lizard people who secretly rule the world and internet demons whom many insist are real C G Jung insisted that archetypal reality must be acknowledged for what it is expressions of universal truths about the human condition Nonrational Logic includes a multitude of examples from world folklore and reports of traditional customs from around the world collected in the multivolume anthropological classic *The Golden Bough* by James Frazer comparing these traditional reports with contemporary ones to underscore the human psyche s obsessive desire to embrace the fantastic the extraordinary and the unbelievable Nonrational Logic in Contemporary Society is important reading for analytical psychologists Jungian psychotherapists and other professionals as well as the general public seeking to understand how prevalent nonrational thinking is in modern societies and how it reflects traditional expressions

The Soul of Theological Anthropology Joshua R. Farris,2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common

among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it The Origins of Contemporary France: The French revolution Hippolyte Taine, 1885 **The Modern Stephen King Canon** Patrick McAleer, Philip L.
