The Oxford Handbook of Early Modern Women's Writing in English, 1540-1700 Elizabeth Scott-Baumann, Danielle Clarke, Sarah C. E. Ross, 2022 A Handbook on early modern women's writing that combines new developments in historical and critical research with theoretical and conceptual approaches The Dutch in the Early Modern World David Onnekink, Gijs Rommelse, 2019-06-06 Presents an overview of early modern Dutch history in global context focusing on themes that resonate with current concerns **Selling and Rejecting Politics in Early Modern Europe** Martin Gosman, Joop W. Koopmans, 2007 Power in the early modern age as in the present age is an important subject for debate What is power Who has it or should have it What are the underlying reasons for this And especially how is this power exercised legitimised and accepted The issue of power in Europe in the early modern age is all the more significant because the demarcation line between the worldly and the religious component of power is not always clearly drawn The fact is that power can only exist in a structured context where there is a measure of approval and consensus on the way that power is constituted and exercised It is actually about the relationship between those who have or crave power and those who find themselves in subordinate positions Many means of persuasion are deployed in propaganda mechanisms to underscore the rightness or superiority of this relationship The reverse side of this phenomenon is equally important the extent to which criticism is being voiced and other opinions are being proclaimed is at least as relevant to an evaluation of the relationship between both groups i.e. rulers and subordinates In societies where pomp and circumstance bear the brunt of the persuasive process since not everyone can read or write visual elements are crucial painting sculpture architecture urban planning court parties and ceremonies play a major role as do all the products issued by the printing presses tracts and pamphlets illustrated or unillustrated The essays in this volume deal not so much with theories of power but rather with the ways that rulers attempt to motivate the legitimation of their power and convey their own superiority be it genuine or spurious They focus on the persuasive production emanating from governments as well as on the reactions of other parties which show both confirmative and contesting tendencies **Chess Life**, 1998 Stereotypes and stereotyping in early modern England Koji Yamamoto, 2022-10-25 Early modern stereotypes used to be studied as evidence of popular belief something mired with prejudices and commonly held assumptions Stereotypes and stereotyping in early modern England goes beyond this view by exploring practices of stereotyping as contested processes To do so the volume draws on recent works on social psychology and sociology It thereby brings together early modern case studies and explores how stereotypes and their mobilisation shaped various negotiations of power in spheres of life such as politics religion economy and knowledge production

Ideology and Foreign Policy in Early Modern Europe (1650-1750) Gijs Rommelse, 2016-05-13 The years 1650 to 1750 sandwiched between an age of wars of religion and an age of revolutionary wars have often been characterized as a de-ideologized period However the essays in this collection contend that this is a mistaken assumption For whilst international relations during this time may lack the obvious polarization between Catholic and Protestant visible in the proceeding hundred years or the highly charged contest between monarchies and republics of the late eighteenth century it is forcibly argued that ideology had a fundamental part to play in this crucial transformative stage of European history Many early modernists have paid little attention to international relations theory often taking a Realist approach that emphasizes the anarchism materialism and power political nature of international relations In contrast this volume provides alternative perspectives viewing international relations as socially constructed and influenced by ideas ideology and identities Building on such theoretical developments allows international relations after 1648 to be fundamentally reconsidered by putting political and economic ideology firmly back into the picture By engaging with and building upon recent theoretical developments this collection treads new terrain Not only does it integrate cultural history with high politics and foreign policy it also engages directly with themes discussed by political scientists and international relations theorists As such it offers a fresh and genuinely interdisciplinary approach to this complex and fundamental period in Europe's development

A Cultural History of the Sea in the Early Modern Age Steve Mentz, 2023-02-09 For the first time during the Early Modern period ships regularly traveled between and among all of basins that comprise the World Ocean During this period European mariners ventured into new waters where they encountered new trading partners new environments and new opportunities In the Caribbean and Atlantic coast of the Americas European mariners sought everything from pearls to gold to codfish and in pursuing these resources they fractured Indigenous communities Entering into the ancient monsoon routes of the Indian Ocean brought European ships in touch with the powerful states and maritime cultures of East Africa and Asia

Converging on the vast Pacific basin both from the Americas and from Asia brought these mariners into contact with ancient cultures dangerous passages and newly global trade routes During this period of globalization and cultural encounters the ocean provided a means of transportation a site of environmental hostility and a poetic metaphor for both connection and alienation In material and cultural ways the global sea routes traveled during this period laid down structures of global exchange and conflict that the world still follows today

Wellbeing in Early Modern Christianity Karla Boersma, Herman J. Selderhuis, Christopher B. Brown, Günter Frank, Barbara Mahlmann-Bauer, Tarald Rasmussen, Violet Soen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2024-09-09 Today wellbeing is high on the personal and societal agenda but thinking about wellbeing certainly is not a new phenomenon The Greek philosopher Aristotle for example came up with the concept of Eudaimonia the contented state of feeling healthy happy and prosperous and this concept has been influential up until today Starting from Augustine's thoughts on the topic of wellbeing which had a great influence on theologians and others in the Early Modern Era the contributions in this book reflect on a variety of topics ranging from wellbeing for the soul and the body to broader related concepts and theories approaching the theme from such disciplines as music literature history and theology
