The Contemporary Marx Mihailo Marković,1974 *The Contemporary Marx* Mihailo Marković,1974 *The Concept of the Individual in the Thought of Karl Marx* Zhi Li,2023-04-08 This book reconstructs the concept of the individual in Marx as the key to a fresh interpretation of Marxian philosophy Marx moved from an examination of the contingency and indeterminacy of individual consciousness in his early years to a critique of the atomistic individual and materialised social relations in his later years His thought proposes that real individuals are the basis for an understanding of human society that promotes the emancipation of humankind Marx s philosophy has often been misunderstood as lacking a concept of the individual In China this misunderstanding not only relates to cultural and linguistic particularities the word individual is seldom used in Chinese but also relates to a misleading view of socialism and communism This book helps remedy this misunderstanding and draws important comparisons and contrasts between Marx s concept of the individual with that of liberalism and between Western and Eastern Marxism **The Marxist Philosophy of Ernst Bloch** Wayne

Hudson,1982-06-18 *Open Marxism* Christos Memos,2025-01-09 Bringing together the various heterodox traditions groups and scholars that came under the heading of Open Marxism for the first time this book assesses the evolution of Open Marxism from the initial usage of the term by Kostas Axelos in France in the 1950s and the journal Arguments principally the anarchist Marx of Maximilien Rubel and the Libertarian Marxism of Daniel Gu rin through Open Marxism as it was developed in Eastern Europe especially in the scholarly work of Karel Kosik in Czechoslovakia the work of the Polish Open Marxists and the Praxis group in Yugoslavia to Johannes Agnoli s work in post 1968 West Germany and finally to the work developed by Bonefeld Clarke Gunn and Holloway within the framework of the Conference of Socialist Economists CSE in Britain since the 1980s Its comprehensive study of the historical development of Open Marxism in all its various guises and forms reasserts the rich insights of its devastating critique of social democracy Leninism Stalinism and the Althusserian structuralist paradigm It introduces a new readership to Open Marxism s negative fundamental and destructive critique of capitalism and examines the practical relevance of its subversive thinking to the contemporary struggle for a free and open socialist society

The to Z of Marxism David Walker,Daniel Gray,2009-08-13 Marxism one of the few philosophies that turned into an effective movement was not so long ago the official ideology in one form or another of much of humanity It was initially promulgated by the Soviet Union then imposed on Central and Eastern Europe later emerged in the People s Republic of China and gradually spread to other parts of Asia Africa and Latin America Although declining in popularity the movement still remains in power in several countries and is supported by numerous parties and countless individuals around the world The A to Z of Marxism covers in a comprehensive manner the history of Marxism and its philosophers and schools of thought It contains a chronology a list of acronyms and abbreviations an introductory essay a bibliography and hundreds of cross referenced dictionary entries on basic terms and concepts as well as significant people parties and countries Book Jacket

The Cambridge Companion to Marx Terrell Carver, 1991-10-25 Marx was a highly original and polymathic thinker unhampered by disciplinary boundaries whose intellectual influence has been enormous Yet in the wake of the collapse of Marxism Leninism in Eastern Europe the question arises as to how important his work really is for us now An important dimension of this volume is to place Marx's writings in their historical context and to separate what he actually said from what others in particular Engels interpreted him as saying Informed by current debates and new perspectives the volume provides a comprehensive coverage of all the major areas to which Marx made significant contributions *Karl Marx* Frank W. Elwell, Brian Andrews, Kenneth S. Marxism and Democracy Joseph V. Femia, 1993-06-24 The collapse

of the Soviet Union would seem to sound the death knell for Marxism as a blueprint for social change Why has this doctrine the repository of so many hopes and dreams failed in its grand ambition to liberate the human race from poverty and oppression Through a critical and systematic analysis of what Marx and his disciples had to say about democracy Joseph Femia sheds light on the reasons for this failure **Marxism and Social Science** David Marsh,Tony Tant,1999 Has Marxism ceased to be part of our political present and future Has its theory or doctrine anything to contribute to our understanding of the new millennium In these original commissioned essays the contributors argue that Marxism continues as a living tradition They show how it still engages with other theoretical positions how it has evolved in response to both these engagements and contemporary world changes and they assess its relevance and contribution to modern social science

Legters,2011-03-03 These 1981 essays examine the problems that have arisen from attempts to implement Marx s critical theory to which the concept of the good society is central As long as socialist regimes continue to invoke Marx they subject themselves to the norms contained within Marx s understanding of freedom in a community Women in Christ Michele M. Schumacher,2004 The challenge of promoting the new feminism has barely been addressed since it was first launched by Pope John Paul II in his 1995 encyclical *Evangelium vitae* The thirteen contributors in this book all outstanding international scholars take up this task together laying the necessary theoretical foundation for the new feminism These chapters articulate an integral philosophical and theological understanding of persons that moves beyond patriarchy on the one hand and traditional feminism on the other Central to the new perspective offered here is the biblical revelation of the human person man and woman in Christ a vision that directs women beyond the male standard against which they have too often been measured Far from constraining women to an eternal essence the dynamic view presented here encourages each woman to realize herself in perfect Christian freedom Subject Catalog Library of Congress,1980-10
