The Oxford Handbook of Evidence-based Crime and Justice Policy Brandon Welsh, Steven N. Zane, Daniel P. Mears, 2024 An evidence based approach to crime and justice policy can go a long way toward ensuring that the best available research is considered in decisions that bear on the public good However the term evidence based is characterized by a great deal of rhetoric Indeed there remains a marked disjuncture between calls for evidence based policy and an understanding of what it means for policy to be evidence based The calls for evidence based policy nonetheless provide a powerful foundation for propelling a movement toward bringing about rational cost effective and humane policies for the betterment of society This handbook showcases the state of research on evidence based crime and justice policy and the challenges that impede its creation and use The volume has three core objectives to promote new and productive ways to think about evidence based policy to demonstrate how research can contribute to and guide evidence based policy in juvenile justice criminal justice and alternatives to system responses and to identify strategies that can increase reliance on evidence based policy To meet these objectives each chapter is guided by several central questions What do we know about evidence based policy and practice in crime and justice How can we improve knowledge of evidence based policy and practice How can we promote more use of evidence based policy and practice Taken as a whole the volume emphasizes the critical need for policies that are grounded in high quality research that address critical research gaps and that fully acknowledge the limitations of what extant research can do to inform policy decisions

Reforming Juvenile Justice National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Assessing Juvenile Justice Reform, 2013-06-22 Adolescence is a distinct yet transient period of development between childhood and adulthood characterized by increased experimentation and risk taking a tendency to discount long term consequences and heightened sensitivity to peers and other social influences A key function of adolescence is developing an integrated sense of self including individualization separation from parents and personal identity Experimentation and novelty seeking behavior such as alcohol and drug use unsafe sex and reckless driving are thought to serve a number of adaptive functions despite their risks Research indicates that for most youth the period of risky experimentation does not extend beyond adolescence ceasing as identity becomes settled with maturity Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems This imbalance model implies dual systems one involved in cognitive and behavioral control and one involved in socio emotional processes Accordingly adolescents lack mature capacity for self regulations because the brain system that influences pleasure seeking and emotional reactivity develops more rapidly than the brain system that supports self control This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century It was in this context that the Office of Juvenile Justice and Delinquency Prevention OJJDP asked the National Research Council to convene a committee to conduct a study of juvenile justice reform The goal of Reforming Juvenile Justice A Developmental Approach was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform to assess the new generation of reform activities occurring in the United States and to assess the

performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts

The Evolution of the Juvenile Court Barry C. Feld, 2019-06-01 Winner 2020 ACJS Outstanding Book Award given by the Academy of Criminal Justice Sciences A major statement on the juvenile justice system by one of America's leading experts The juvenile court lies at the intersection of youth policy and crime policy Its institutional practices reflect our changing ideas about children and crime control The Evolution of the Juvenile Court provides a sweeping overview of the American juvenile justice system's development and change over the past century Noted law professor and criminologist Barry C Feld places special emphasis on changes over the last 25 years the ascendance of get tough crime policies and the more recent Supreme Court recognition that children are different Feld's comprehensive historical analyses trace juvenile courts evolution through four periods the original Progressive Era the Due Process Revolution in the 1960s the Get Tough Era of the 1980s and 1990s and today's Kids Are Different era In each period changes in the economy cities families race and ethnicity and politics have shaped juvenile courts policies and practices Changes in juvenile courts ends and means substance and procedure reflect shifting notions of children's culpability and competence The Evolution of the Juvenile Court examines how conservative politicians used coded racial appeals to advocate get tough policies that equated children with adults and more recent Supreme Court decisions that draw on developmental psychology and neuroscience research to bolster its conclusions about youths reduced criminal responsibility and diminished competence Feld draws on lessons from the past to envision a new developmentally appropriate justice system for children Ultimately providing justice for children requires structural changes to reduce social and economic inequality concentrated poverty in segregated urban areas that disproportionately expose children of color to juvenile courts punitive policies Historical prescriptive and analytical The Evolution of the Juvenile Court evaluates the author's past recommendations to abolish juvenile courts in light of this new evidence and concludes that separate but reformed juvenile courts are necessary to protect children who commit crimes and facilitate their successful transition to adulthood

The Oxford Handbook of Ethnicity, Crime, and Immigration Sandra M. Bucerius, Michael H. Tonry, 2014 This title provides comprehensive analyses of current knowledge about the unwarranted disparities in dealings with the criminal justice system faced by some disadvantaged minority groups in all developed countries

DISPROPORTIONALITY IN EDUCATION AND SPECIAL EDUCATION Amity Lynn Noltemeyer, Caven S. Mcloughlin, 2012-07-01 Given the burgeoning number of diverse students in our nation's schools coupled with the potentially negative outcomes and wasted resources associated with the misidentification of students for special education and excessive use of exclusionary discipline for specific subgroups of students it is imperative that educational professionals understand and address the implications arising from disproportionality for children both with and without disabilities This text contributes unique perspectives and up to date information including advances and research that have emerged since the last of the extant books was published Presented in three sections the first considers disproportionality in special education

identification with chapters examining overrepresentation by ethnicity gender and language The second section addresses disproportionality in discipline specifically focusing on inequalities in school disciplinary actions and juvenile justice decisions based on ethnicity and gender The final section provides readers with approaches for addressing disproportionality and creating more equitable learning environments now and in the future The text encourages bidirectional and evolving relationships between the topics examined in each chapter with the historical framework presented Because of the comprehensive nature of the topics covered in the book it is an ideal one stop reference for readers aiming to acquire a broad understanding of the key issues related to the topic The book will appeal to a range of potential readers including university students and practitioners in the fields of education psychology sociology gender studies ethnic studies and criminal justice as well as lay readers interested in issues of equality and or education

Adolescence, Discrimination, and the Law Roger J.R. Levesque, 2017-05 Explores the shifts and the research used to support civil rights claims of discrimination particularly relating to minority youths rights to equal treatment In the wake of the civil rights movement the legal system dramatically changed its response to discrimination based on race gender and other characteristics It is now showing signs of yet another dramatic shift as it moves from considering difference to focusing on neutrality Rather than seeking to counter subjugation through special protections for groups that have been historically and currently disadvantaged the Court now adopts a colorblind approach Equality now means treating everyone the same way This book explores these shifts and the research used to support civil rights claims particularly relating to minority youths rights to equal treatment It integrates developmental theory with work on legal equality and discrimination showing both how the legal system can benefit from new research on development and how the legal system itself can work to address invidious discrimination given its significant influence on adolescents especially those who are racial minorities at a key stage in their developmental life

Adolescents Discrimination and the Law articulates the need to address discrimination by recognizing and enlisting the law s inculcative powers in multiple sites subject to legal regulation ranging from families schools health and justice systems to religious and community groups The legal system may champion ideals of neutrality in the goals it sets itself for treating individuals but it cannot remain neutral in the values it supports and imparts This volume shows that despite the shift to a focus on neutrality the Court can and should effectively foster values supporting equality especially among youth

Race, Ethnicity and Law Mathieu Deflem, 2017-06-01 This new volume of *Sociology of Crime Deviance and Law* addresses issues of race and ethnicity within the law and law related phenomena

Kids, Cops, and Confessions Barry Feld, 2023-11-21 Juveniles possess less maturity intelligence and competence than adults heightening their vulnerability in the justice system For this reason states try juveniles in separate courts and use different sentencing standards than for adults Yet when police bring kids in for questioning they use the same interrogation tactics they use for adults including trickery deception and lying to elicit confessions or to produce incriminating evidence against the defendants In *Kids Cops and Confessions* Barry Feld offers the first report of what actually happens when police question juveniles Drawing on remarkable data Feld analyzes interrogation tapes and transcripts police reports juvenile court filings and sentences and probation and sentencing reports describing in rich detail what actually happens in the interrogation room Contrasting routine interrogation and false confessions enables police lawyers and judges to identify interrogations that require enhanced scrutiny to adopt policies to protect citizens and to assure reliability and integrity of the justice system Feld has produced an invaluable look at how the justice system really works

Crime and Criminal Justice in American Society Randall G. Sheldon, William B. Brown, Karen S. Miller, Randal B. Fritzler, 2015-06-22 Today s headlines vividly illustrate the importance of understanding aspects of the criminal justice system too often ignored While the second edition of *Crime and Criminal Justice in American Society* includes the most recent statistics on the police courts and corrections its provocative current examples also spur critical thinking about justice in the United States The authors offer an alternative interpretation of criminal justice rarely presented in traditional textbooks or by the media They encourage readers to examine their beliefs about crime punishment and the law Discussions in the chapters about how African Americans Hispanics whites women juveniles the rich and the poor experience crime and the criminal justice system contribute context for understanding different viewpoints The poor and minorities are the most likely to be caught in the net of criminal justice but inequities have consequences for everyone Reflection on various perspectives provides helpful input for assessing attitudes and for becoming actively involved with issues that have significant consequences Eighteen thoroughly revised chapters present historical backgrounds theories and emerging issues New to the second edition is a chapter on veterans involved in the criminal justice system Affordable succinct and engaging this textbook presents the key concepts of the criminal justice system at less than half the cost of many competing textbooks
