Ruane,2000-06-06 Using the European Defence Community EDC as a case study this book examines the competing and often conflicting view of the British and American governments towards European integration in the early 1950s The British fearing an agonizing reappraisal of the American defence commitment to Europe if the supranational EDC failed went to great lengths to ensure the success of the scheme When despite these efforts the EDC finally collapsed in August 1954 NATO was plunged into arguably the most severe crisis in its history The crisis also possessed an Anglo American dimension with London and Washington badly divided on how it should be resolved In the end the British were instrumental in the creation of the Western European Union as a successor to the EDC Their crisis management however had been rooted in fear of the agonizing reappraisal a danger dismissed by many historians as exaggerated but which the British in 1954 were perhaps right to take seriously **Britain's Policy Towards the European Community** Helen Parr,2006 This book examines the development of Harold Wilson s ambiguous policy towards the European Community within the context of Britain s shift from a global to a regional power European Integration Mark Gilbert,2020-08-19 Now in a fully revised and updated edition this book remains the standard for concise histories of the European Union Mark Gilbert offers a clear and balanced narrative of European integration since its inception to the present set in the wider history of the post war period Gilbert concludes by considering the Union s future in light of the mood of crisis that has taken hold in the EU in the aftermath of the global recession the refugee crisis and Brexit Listen to a New Books Network interview with the author at <https://newbooksnetwork.com/hosts/profile/4c7e90cb-b33e-4121-99fb-9813f2889437> **A Political Theory of Identity in European Integration** Catherine Guisan,2013-03-01 This book

Administration and the Council of Europe Ulrich Stelkens, Agn  Andrijauskait , 2020-09-11 Good Administration and the Council of Europe Law Principles and Effectiveness examines the existence and effectiveness of written and unwritten standards of good administration developed within the framework of the Council of Europe CoE and in the case law of the European Court of Human Rights These standards called pan European general principles of good administration cover the entire range of general organizational procedural and substantive legal institutions meant to ensure a democratically legitimized open and transparent administration respecting the rule of law They are about the limiting function of administrative law its function to protect individuals from arbitrary power to legitimize administrative action and to combat corruption This book analyses the sources and functions of the pan European general principles of good administration and seeks to uncover how deeply they are rooted in the domestic legal systems of the CoE Member States It comprises 28 country reports dedicated to an in depth exploration of the impact of these standards on the national legal systems of the Member States written by respective experts on these systems It argues that the pan European general principles of good administration lead to a certain harmonization of the legal orders of the Member States with regard to the limiting function of administrative law despite the many fundamental differences between their administrative and legal systems It comes to the further conclusion that the pan European general principles of good administration can be considered as a concretization of the founding values of the CoE and describes the administrative law obligations a Member State entered into when joining the CoE

War, Agriculture, and Food Paul Brassley, Yves Segers, Leen van Molle, 2012 Between the 1930s and the 1950s rural life in Europe underwent profound changes partly as a result of the Second World War and partly as a result of changes which had been in progress over many years This book examines a range of European countries from Scandinavia to Spain and Ireland to Hungary during this crucial period and identifies the common pressures to which they all responded and the features that were unique to individual countries In particular it examines the processes of agricultural development over western Europe as a whole the impact of the war on international trading patterns the relationships between states and farmers and the changing identities of rural populations It presents a bold attempt to write rural history on a European scale and will be of interest not only to historians and historical geographers but also to those interested in the historical background to the Common Agricultural Policy of the European Union to which the changes discussed here provided a dramatic prologue

Helmreich, 1998 The low country's participation in NATO trade of Congo goods and American policy toward UN action in the Congo are also involved This work analyzes the contrasting diplomatic styles of Belgian foreign ministers Paul Henri Spaak and Paul van Zeeland and the atmosphere of disappointment that often hovered over a relationship officially characterized as warm and strong

Old Europe, New Security Mary Troy Johnson, Janet Adamski, Cristina M. Schweiss, 2017-11-30 Many of the US criticisms of Western European reluctance to engage in the 2004 war in Iraq stem from a perception that these governments are weak on defence or unwilling to pull their own weight in the international system Secretary Rumsfeld pejoratively designated traditional Atlantic Alliance allies as Old Europe to distinguish them from the freshly minted cooperative states of New Europe In doing so Rumsfeld accused Old Europe of yet again relying on the United States to solve shared security problems This volume critically evaluates the validity of this view of Western European choices and policies Rather than a primary reliance on military force as first line defence it proposes that Western European governments are expanding the set of tools they have to apply to the post Cold War array of security and defence problems The volume examines the emergent European security approach from multiple perspectives in multiple institutions and identities and in different geographic contexts

NATO 1948 Lawrence S. Kaplan, 2007 This compelling history brings to life the watershed year of 1948 when the United States reversed its long standing position of political and military isolation from Europe and agreed to an entangling alliance with ten European nations Not since 1800 when the United States ended its alliance with France had the nation made such a commitment The historic North Atlantic Treaty was signed on April 4 1949 but the often contentious negotiations stretched throughout the preceding year Lawrence S Kaplan the leading historian of NATO traces the tortuous and dramatic process which struggled to reconcile the conflicting concerns on the part of the future partners Although the allies could agree on the need to cope with the threat of Soviet led Communism and on the vital importance of an American association with a unified Europe they differed over the means of achieving these ends The United States had to contend with domestic isolationist suspicions of Old World intentions the military's worries about over extension of the nation's resources and the apparent incompatibility of the projected treaty with the UN charter For their part Europeans had to be convinced that American demands to abandon their traditions would provide the sense of security that economic and political recovery from World War II required Kaplan brings to life the colorful diplomats and politicians arrayed on both sides of the debate The end result was a remarkably durable treaty and alliance that has linked the fortunes of America and Europe for over fifty years Despite differences that have persisted and occasionally flared over the past fifty years NATO continues to bind America and Europe in the twenty first century Kaplan's detailed and lively account draws on a wealth of primary

sources newspapers memoirs and diplomatic documents to illuminate how the United States came to assume international obligations it had scrupulously avoided for the previous 150 years **The European Council** Wolfgang Wessels, 2015-09-29
This systematic assessment of the often opaque European Council looks at its characteristics leaders and output as well as its impact on EU supranational and intergovernmental dynamics Taking account of historical and contemporary developments up to and beyond the Lisbon Treaty it encourages in depth understanding of this key institution
